A Call to Farmers.

Farmers, drop your tools-pause a little read this, and reflect!! FARMERS' PROMOTION BOOK."

NEW and scientific manuring system for the cultivation and increase of all kinds of grain, grasses, fodder and pasture upon all kinds of soil, proved by actual experiments and based upon evident truths, de ned to improve agriculture in all its branches; represented by upwards of one hundred and engravings of the most valuable grasses and plants connected with the system, by DR. C. G. REINHOLD, of Boalsburg, Centre Co.,

Penna.

In this treatise it will be seen that the object has been to give the farmer that kind of information which enables him to make practical application to fertilize his land and increase his grain, folder and pastureage. The doctrines, as taught by this manuring, and folder, and pasture cultivation system, are rational, clear and evident, and engeet an improvement in the mode of agriculture hitherto unknown to our farmers, and which, if adopted, and carefully practiced can not fail to advance the interests of the farming community. Such a work has have nowed. carefully practiced can not fail to advance the interests of the farming community. Such a work has been much wanted, as it fills a word which has long been felt, but which there has hitherto been no attempt to supply. And as farmers of Centre and Hantington counties we recommend the work to every farmer, as they will reap the greatest possible benefit from it.
