Lewisburg, Pa.

FRIDAY MORNING, AUGUST 14, 1857

ADVERTISE!—Manufacturers, Merchants, Mechanics Public Officers in City and Country, Publishers—all who wish to buy or sell—would do well to employ the columns of the *Lewisburg Chronicle*, which has a large and increasing circulation in a community containing a large proportion of active, solvent producers, consumers and dealers, as any in the State.

☞ **See New Advertisements.**

☞ Lewisb'g Academy Adv't next week.

☞ The sale of valuable Land and Mills at Williamsport, occurs on Wednesday next.

☞ Repairs have been commenced on the Lewisburg cross cut leck, under the superintendence of W. M. WILEY. Several months' labor will be requisite to put that part of the canal in boating order.

☞ We are favored with a catalogue of Franklin and Marshall College, (Lancaster) for the current year. It reports 7 Teachers, 91 Undergraduates, and 25 in Preparatory Department—116 students in all. The Trustees number 60. The Theological Department remains at Mercersburg, under the care of Rev. Drs. Schaff and Noeff, and has 23 upon its triennial list of students, among whom we notice Isaac G. Brown of Lewisburg.

☞ Jesse Wagner has taken the Confectionery and Eating establishment next door below the Chronicle Office. Mrs. Demormandie has removed to "Nauvoo," where she still disposes Ice Cream. Demormandie's Jewelry Store remains next door to the Post Office.

☞ Rev. E. Kincaid last week bade adieu to his family in Lewisburg, contemplating an immediate return to his missionary field in Burmah, by the Overland Route.

ALL RIGHT.—Since our first page was worked off, we have received from John S. Dye, of New York, the fac simile of the Silver Shekel noticed. We have evidence that *he* and *it* are "*a true dye.*"

☞ The Northumberland Baptist Association convened for its 37th annual meeting in Muncy, on Wednesday last—Rev. Dr. Malcom, Moderator. Sermons by Rev. Messrs. Alden, Osgood, French, Spratt, Callender and Miles. Baptisms reported, 71. The next session will be held with the church in Rush, Rev. Joshua Kelly to preach the introductory sermon.

☞ The 7th Annual Exhibition of the Pennsylvania State Agricultural Society is appointed to be held in Philadelphia, 20th Sept. to 24 Oct. (Tuesday to Friday) 1857.

We are indebted to S. D. Harris for a neat considerably sized pamphlet, detailing the history and business resources and prospects of the City of Freeport Illinois.

☞ We are indebted to Messrs. Geo. Meixell for early apples, and Sam'l W. Ludwig for apples and apricots.

☞ The new Presbyterian church edifice, in Milton, will be dedicated, next Sabbath. Rev. Dr. M'Gill, of Princeton, and Rev. Dr. Yeoman, of Danville, are expected to officiate. Services to commence at half past 10 o'clock.

☞ The next annual Fair of the Northumberland Co. Agricultural Society, will be held at Milton. The time has not been fixed upon yet.

☞ The Farmersville Sunday School intend having a pic-nic to-day (Friday). Several speakers, and also the Mifflinburg Brass Band, are expected to be present.

☞ The German Reformed Sunday School had a happy re-union on the premises of Michael Brown in East Buffaloe, on Friday last.

UNION OF STRENGTH.—The *Penn'a Farm Journal* has been sold and united with the *American Agriculturist*, an excellent Journal in New York city. It is a burning shame that Pennsylvania can not support a good Agricultural paper.

☞ The *best* crop of wheat we heard of in Union county—not the *largest*—was one of fifteen bushels on three fourths of an acre. Some fields are not harvested, and some are cut for their straw only. Oats never better. Corn, &c., &c. promise well.

☞ On Monday forenoon our office was visited by an electric shock which doubtless would have a tendency to astonish any person who is not accustomed to the antics of lightning. It did no damage, however, as we always make arrangements to receive such sudden visiters by protecting the instrument; but it caused a terrific explosion, and left its traces on the copper wires. The same stroke of lightning traveled through the Danville office, and probably many more along the line.

JOHNSON'S NEW MAP OF THE REPUBLICS OF NORTH AMERICA.—We have been shown this Map, and believe it to be the best and most convenient map yet issued. It occupies a sheet 72 by 80 inches. Embraces a larger extent of territory than the ordinary maps, exhibiting the whole of N. America south of the 50th parallel of latitude, including the West India Islands. In addition, it exhibits a map of the World on Mercator's Projection, with the American Continent in the centre; this map shows Dr. Kane's Arctic Explorations. Each county is named and colored on the map; all the routes to the Pacific are traced out; railroads, finished and unfinished, delineated, &c. &c. It is embellished with a handsome border, containing views of some of the principal cities.

L. W. ANSPACH, agent for Union and Snyder counties, will be in Lewisburg next week, on a canvassing expedition. Call at our office and get a circular, gratis.

Pic-Nic.

Know all men, women and children by these presents, that a few of our patriotic, kind hearted young citizens resolved to have a gala day—a regular "time," on the modern, high pressure principles—and as the "huckleberry" crop is a failure—(for particulars inquire of the party that went to the "Narrows" last week, and succeeded in getting fourteen berries in less than two days!)—they determined upon a pic-nic. Accordingly, after gathering a crowd of their friends, amounting to two score and odd, the Jr. of this straight forward Republican establishment inclusive, the whole party were seen, early on the morning of last hangman's-day, wending their way toward the sun's bed chamber, in buggies, spring-wagons et id omnibus Charley Hess, in a manner that John might envy. Away we went, through woods, by grain-fields, meadows, corn-fields, and so forth, receiving the cheers of the farmers, escorted past houses by astonished dogs, alarmed chickens and wondering turkeys—even the very pumpkin vines were retreating from the corn-field, many of them having succeeded in reaching the fence, and crawling into the road, with their great yellow blossoms staring at us as if they really wished to ask what on earth had broken loose! A few minutes' drive brought us to the grove selected for the rendezvous—a beautiful spot indeed, on the bank of Buffaloe creek, near Mr. Laird Hower's residence. We could not have selected a more suitable place in this Congressional district—beautiful grass plot—plenty of "spruce"—numerous trees apparently "made and provided" for hanging swings upon—mellow rather thick dome Nature fixed up the grove especially for this occasion, and did her prettiest, too. And now, to let it known, O reader, that we didn't go there to be owls or 'possums, but we went for social enjoyment, innocent frivolity, and all that sort o' thing, and we got just what we went for; here, we could make use of our vocal powers to their full extent without alarming the neighbors—(which, by the way, is a great luxury to town folks); here, merit was measured by noise and jollity, the loudest and merriest being A No. 1, and another beauty of the occasion was the magnificent informality of the programme. The forenoon slipped by unnoticed, and all hands busied themselves in preparing a marvellously excellent dinner of the best materials that could be raked together by the ladies present. The cloths were spread upon the sod, the guests did ditto, and a convivial party of squatted sovereigns we were, truly. All having prodigious appetites, cakes, fruits, nuts, lemonade, &c., were called off at an alarming rate. Dinner being discussed, each and every of us made use of our time in a manner highly satisfactory to all concerned. The afternoon soon followed the forenoon, and we bundled up baskets, buckets, tubs, boxes, &c., broke for our horses and vehicles, hitched up, and pated homeward as fast as horse-flesh could take us. Reached home in short order, wofully fatigued, but in fine humor—pleased with the excursion, pleased to see others pleased, and pleased because we were pleased ourselves—And that's all we have to say, here, about the pic-nic.

DESTRUCTIVE FIRE.—The property known as Locke's Mills, in Armagh township, was discovered to be on fire on Saturday afternoon, and in a short time all the buildings connected with the mill and distillery, nine or ten in number, with most of their contents, were consumed. There were consumed from 9 to 10,000 bush corn a considerable quantity of rye, alcohol, barrels, and other things connected with the manufacture, making their total loss from $30,000 to $35,000—$16,000 of which is covered by insurance. It is not known how the fire originated.—*Lewistown Gazette.*

DISTRESSING CASUALITY.—A very distressing affair occurred at the Franklin House, in this place, on Thursday last. About 9 o'clock a bright flash, followed by screams, was observed as coming from the room occupied by Mrs. Sourbeck and her family. A number of persons immediately proceeded to the room, when it was discovered that it was all in a blaze. The persons at once proceeded to put out the fire, when it was discovered that Mrs. Sourbeck was burned in a shocking manner. It appears that one of her little girls undertook to light a fluid lamp, and the cap, not being tightly screwed on, fell off, and the fluid ignited and set fire to some clothing on the floor. Mrs. Sourbeck attempted to extinguish the flames, when her own clothing caught fire. She immediately retreated to an adjoining room, where there happened to be a tub of water standing, but before she succeeded in arresting the flames was burnt very badly. Mrs. Sourbeck is in a very critical condition.—*Bellefonte Whig.*

HALIFAX, Aug. 11.—The steamship Canada arrived this afternoon, bringing Liverpool dates to August 1.

The vessels composing the Atlantic Telegraph Squadron had all reached Cork, and were to leave on the first inst. for Valentia Bay, where the task of submerging will commence on the 3d or 4th inst. The line is connected, and messages were sent through its entire length, without any difficulty.

It is rumored that the English Government intends to send ten thousand additional troops to India.

Lablache, the famous singer, is dead.

The cholera is prevailing extensively at St. Petersburg.

At Allahad, twenty-six Europeans and their families were killed.

The rumored conspiracy at Calcutta was on the part of the Mussulmen. The King of Oude and others were at the bottom of this affair. Nearly all the native troops stationed there have been disarmed.

The defence of Calcutta is a subject of much anxiety, and the government has consented to the enrolment of volunteers, who patrol the streets at night. The inhabitants are armed, and the public bridges, hotels and other principal places, are garrisoned by the sailors belonging to the ships in the river.

Rev. Mr. HERRERON, of Williamsport, is expected to preach for the Lewisburg Presbyterian Congregation, next Sabbath, at the usual hours.

EUSEBIUS HERSHY, *Superintendent.*

DR VALL'S GALVANIC OIL has done more good, performed more cures, and relieved more pain, than any other medicine in the known world. It has cured a wonderful case of Spine Disease, in the person of Nancy Ann Martle, Troy, and many others could be mentioned.

HELMBOLD'S COMPOUND FLUID EXTRACT, as a remedy for Diseases of the Bladder, Kidneys, Gravel, Dropsy, Weaknesses, &c., has no equal. See the advertisement in another column, headed "Helmbold's Genuine Preparation."

THE DEAD RESTORED TO LIFE.—A few years ago it was generally supposed that gray hair could not be restored to its original color, or made to grow on bald heads; but since the advent of Prof. Wood's Hair Restorative, many persons who *died* years ago are now seen daily in the various walks of life, appearing in all the vigor of youth wearing their own dark flowing locks simply from having used this great Restorative.—*Louisville Times.*

HOLLOWAY'S PILLS.—General debility, low spirits, and nervous irritation, are the inevitable consequences of indigestion. Evacuate the stomach, clear the bowels, and revitalize the secretions with these wonder-working Pills, and the effects will be perceived in the improved vigor and the nerves become calm. This is not theory, but practical truth founded on long years of experience, volumes of testimony, and the concurrent admission of all medical men who have ever witnessed the effects of the remedy. In this country dyspepsia has been for years so common a complaint that it might almost be termed a national institution. If, therefore, dyspeptics generally, are wise enough to resort to this remedy, the disease will soon become a rarity.

There are occasions when even the healthiest people need medicine, the changes of diet, of the weather, and hundreds of other causes, producing derangement in the system that needs correcting, or in other words, the liver becomes slightly deranged, and needs a stimulator. If all who find themselves in this situation will try Dr. Sanford's Invigorator, they may be sure of relief, as we can testify to its efficacy in curing Headache, Indigestion, Sour Stomach, and other ills so common in a family. Harts as large as a pigeon's egg, and half as many doses of pills as were swallowed, and is so mild that the smallest infant can take it.

MEDICAL REFORM.

M. H. DERSHAM, M.D., Practising Physician and Surgeon, will also pay particular attention to Chronic diseases, such as Liver Complaint, Dyspepsia, Bronchitis, Throat Disease, Consumption when not too far advanced, Asthma, Piles, Rheumatism, Scrofula, White Swelling, Dropsy, Sick Headache, St. Vitus' Dance, Fits, Sore Eyes, Cancers, Tumors, Ulcers, Eruptions, &c., also Female complaints, as Prolapsus Uteri, (falling of the womb,) and all other complaints of the sex of every name and form. Most of the above long standing diseases are curable, and none more so than those of females. Feeling confident that nearly all of the latter can positively be cured, during round series of ten and fifteen years' standing; that many can be relieved, and none positively be taken on the liberal terms will not cured or relieved, no compensation is demanded."

Dr. DERSHAM graduated at the Eclectic Medical College of Cincinnati, having first studied the old or Allopathic system in Philadelphia, afterwards the Reformed or Botanic system of medication. This system uses all the medicines of the regular or Allopathic system except Calomel, Arsenic, Antimony, and Bleeding, (safer and better agents having been discovered) but it also embraces the more valuable medicines of the Botanic school not known to any other system; also the improvements of the Hydropathic, Homeopathic and Thomsonian systems. This system is an age of progress, and the New school moves with the age.
