RE YOU INSURED AGAINST LOSS A BY FIRE!-There are but few who receive sympathy who incur loss by neglecting this most necessary and substantial precaution. We often see it announced that persons have lost their stocks of Goods and Furniture, and results of years of industry swept from them by the devouring element over which they have no control but by being insured.

Insurance protects you from the incendiary, negligence of servants and the casualties of your neighbors. It will impart confidence to your creditors, and give a character of produce and precantion to ilors, and give a character of produce and precaution to all your business transactions.

It requires but a very small sum to insure in sums ranging from \$100 to \$1000, and yet how many there are who have no insurance upon Goods, Furniture, or anything else! If your Stock is small, still the Less to you might be serious.

Philodelphia. Truth is Mighty, and Must Pravail. Report of the Committee appointed to supertend the Burning of the Iron Sales, at

Reading, February 27, 1857. The undersigned, members of the committee in re-The under-lighed, members of the columniation do respectfully report, that we can the two Safes ordenially agreed upon by Farrie & Horzing and Eunia & Western, placed wise by side in a furnace, viz. The Safe is use by the Paymaster of the Philadelphia and Reading Railread Company, in his office at Reading manufactured by law role & Herring, and the Safe in use by H. A. Lamb, in his store, manufactured by Farrie & Watson, and payer in books and payers precisely allow.

The fire was shared at \$1.0 clock, A. M. and kept op until four cords of green hedger, two-crass dry ask and half checked top wood were entirely encourased, the whole under the superint belong of the subscribers, nembers of the Committee. The Safes were these code of with water, after which they were upstred, and the books and payer taken and the though the same taken and taken teems and papers taken from the Sale manufactured by Krans & Water, were but slightly affected by the intense-heat, while these taken from the safe manufactured by Farrels & Herring were, in our ranges with another most built fifteen per cent, more them those taken from France a Watern scale.

We believe the above to have been a fair and impartial trial of the respective qualities of both Safes.

Having been absent d ment of COOKING | incide with the above statement of the condition of papers and books taken our of the respective rafes.

JAMES MILENBERG Evans & Watson have now on hand 300,000 pounds of the above SAFES, which they offer for sale on better terms than any other manufacturer in the United States
