Reminiscence of Canning.

It is well known that the Highlanders are great sticklers for hereditary honors, and trace back, with the most carnest veneration, the origin of families into the remotest ages. An amusing instance of this tenacity to hold to the dignity and antiquity of their kindred, may be found in the case we subjoin.

A dispute arose, between a Campbell and a M'Lean, upon this never-ending subject. M'Lean would not allow that the Campbells had any right to rank with the M'Leans in antiquity, who he insisted were in existence as a clan from the beginning of the world. Campbell had a little more biblical lore than his antagonist, and asked him if the clan M'Lean lived before the flood? "Flood, what flood?" said M'Lean. "Why, the flood that, you know, drowned all the world but Noah, and his family, and his flocks," replied Campbell. "Pooh! you and your flood," said M'Lean; "my clan was afore the flood." "I have not read in my Bible," said Campbell,"of ment of Common Schools, is desired. the name of M'Lean going into Noah's ark !" "Noah's ark !" retorted M'Lean, in contempt, "who ever heard of a M Lean that had not a boat of his own?"

THE TRUTH.-While the creed of the Republican party is, "Equal and exact Justice to all MEN, without regard to religion or birth, or color or fortune," it is the South Americans are cunningly engaalso in many ways. And yet, to read the papers of that party only, one might suppose the Republican party was advocating the rights of the colored race, without any regard to the interests of the whites. The truth is, the Democrats and South Americans are both so full of the spirit of Slavery propagation, that they cry "Nigger! Nigger !" asleep and awake, and really seem to think it is the Republicans (instead of themselves) who are trying to spead "Niggerism." They are like the drunken chap who tumbled off a stage coach, and after reaching the ground told the driver to "right the old thing up." The driver told him the stage was right side up—had not fallen over. "Well," said the outsider, of I had known that, I would not got out."

No. 26 S. Fourth St.,
Philadelphia. Truth is Mighty, and Must Pravail. Report of the Committee appointed to super-

intend the Burning of the Iron Safes, at Reading, February 27, 1857. The undersigned, members of the committee do recently report, the The undersigned, members of the committee, to respectfully resent, that we saw the two Sales originally agreed upon by Farries & Herring and Evanas. Watson, placed side by side in a furnace, viz. The Sale in use by the Paymoster of the Philadelphia and Resding Rulinsol Company, in his office at Beating, manufactured by Farriels & Herring, and the Sale in use by H. A. Lant, in his store, manufactured by Farriels & Herring, and the Sale in use by H. A. Lant, in his store, manufactured by Evans & Watson, and put in books and papers precisely alike.

The fire was started at 8% officek, A. M., and kept up until four cords of green history, two cards dry oak and haif chartest top wood were enthely contained, the whole under the superintendence of the amberityers, members of the Committee. The Fafes were then cooled off with water, ofter which they were spened, and the hooks and papers taken out by the Committee and taken to H. A. Lantir's store for public examination, after they were first examined and marked by the Committee. The tooks and papers laken from the Sale manufactured by Evans & Watson were but elightly affected by the intense heat, while those taken from the ante manufactured by Farries & Herring were, in our judy me vt. damaged fully infeces per cent, more than those taken from Fans & Watson's Safe.

We believe the above to baxe been a fair and invartial

Watson's rafe.

We believe the above to baxe been a fair and impartial trial of the respective qualities of both sefe.
