least, long before we bothered our brains about electing Presidents or Governors, or for any "good cause" except good eating, good playing and good reading or storytelling-we were intimately conversant with the drama, somewhat poorly illustrated in Vol. I of 'Mother Goose's Melodies,' entitled " The House that Jack Built" It seems we were not alone in knowledge of that famous poem, for a chap four feet some inches high informs us he knew it when he was a boy! No doubt, our great grandfathers also knew it by heart - King Alfred probably repeated it when himself a lad-and perhaps some of Adam's grandsons sung it long before him. Many were the tongue-races run with rivals of our "airly days," in seeing which could first recite the concluding stanzas-

THE COUNTERFEIT DOLLAR.

A penny saved is two pence clear-

A rich dressed lady, followed by-a man servant, etopped at a market stall one Saturday, and bought a pair of chickens of the old huckster woman. The lady offered a five dollar bill which the buckster could not change. A man making some purchases at the same time, offered to oblige the huckster by taking the bill, and giving five gold dollars for it. He gave them to her, and she returned the just change to the lady. The latter had not walked a square before she discovered that one of the gold coins was counterfeit. She took it back to the market woman, who insisted upon her taking a gold dollar instead, saying that she would see the man who had given her the bad one, the next time he passed, and make him pay it back. Quite willing not to lose the dollar, the lady consented. A few days afterwards she passed the stall again, and stopped to ask if the woman had yet seen the man who had given her the counterfeit dollar.

"Laws, no, honey," was the reply. " wasn't going to let you keep it, being as you are my best customer, but I just pass ed it the very pext time I had to make change, and no fuss. Never you mind honey, the woman as I gave it to served me the very same trick last week. I was glad to get a chance to pay her off."

"I am very sorry it is going any furth er." said the lady. "I came here on pur pose to get it and destroy it. I thought could better afford to lose it than many another. Now I shall always be sorry did not do my duty when I had it in my

She must have given it to some other man. The lady was so sure that she besitated, and was nclined to urge the matter, when the unlucky wife said to her husband :

"George, you put a gold dollar on the poor-plate; that must be it."

Shame and anger suffused his face; but he said, plausibly, "Oh, perhaps so! I did not think of that! Now what a pity! I should have observed more closely.

The New York Post gives some excelfrom which we take the following scusie and timely remarks:

"The revolt in India is the harbinger of famine; one hundred and eighty milions of human creatures will need larger supplies of food from the products of other regions. The army of India, the transort fleet for that army and its supplies, the necessities growing out of the disturbed state of that great English dependency, will call for much of our surplus boef, pork, and flour. The two last named aricles are the product of every year, but ouef requires years of nourishment before it is ready for use. The wicked, wanton waste of breeding power, which is the besetting sin of American farmers, should be stopped. He ought to be required to give an account of himself who kills a fepale calf. We ought to preserve every "cow calf" for five years to come. By this method we might soon have a supply of beef, not only for ourselves, but for any emergency abroad.

WARNING TO PORK SPECULATORS .-The number of hoes in this section, says the Abington (Va.) Democrat, is about as large as usual, so a well informed friend sources us, vet the prices asked by sellers,

and offered by buyers, are quite "tall." We incline to the opinion that some of the speculators will burn their fingers if they are not cautious. Stimulated by the high price of pork last season, and the prespect of an abundant corn crop, many farmers, things is likely to prevail in other quarters.

In our judgment the day of reckonness, has come, and the sooner the unpal-
