The balance of trade against us, during the current year, having to be sojusted in cash, is more than One Hundred and Twenty Millions of Dollars. And what caused this excessive importation of articles of merchandise, the most of which we ought to have made ourselves? Common sense tells us that it is the tariff policy which has prevailed since 1917. And who dietated this policy? The Souththe growers of cotton, whose great staple find its chief markets in England. And who enable this single interest, this small minority of the American people to control the policy of the government in re-"Charles D. Roush, of Union County !" Mr. rial interests? The so called Democratic

Three times, now, have the foundation of our national prosperity been undermined precisely in the same way. From the close of the war with Great Britain in 1815 until 1824, we had a period of free trade and large importations, and some of us are old enough to remember the distress and utter prostration of the country during that shin plaster period, when wheat was less per bushel than oats have been in ordinary good times, and when ten bushels of oats were often soid for one dollar cash. Well, in 1824, a protective tariff law was enacted, and the country at once began to recuperate. The currency soon became good, exchange regular and very low, manufacturing establishments sprung up everywhere, and the farmers, having the substitute of the substitute of the greatest remedy in the greatest remedy in the world. and utter prostration of the country durup everywhere, and the farmers, having conspirators deserved the sore defeat they a home market, began to prosper too. Perhaps there never was a more smooth and comfortable time since we became a

Four years afterwards, (1828,) so pleased were the people with the protective policy, that Congress was induced to make it still stronger. This led to violent opposition on the part of the cotton growing portion of our people, and ended in the Nulification movement in South Carolina, and the unfortunate tariff Compromise of 1832, by which the rates of import were slowly reduced, until, in 1840, they should be only twenty per cent. Most of us remember the crash of 1837, and the distressing depression that followed, and which was only relieved by a return to the protective policy in 1842.

In 1846, the policy was again changed In 1847 the famine in Ireland, and a general scarcity in Europe, gave us high prices for our surplus breadstuffs, and that bore us very well over one year. In 1848, gold was discovered in California, and that kept us up for a few years; but all things find their level, and they have found it, for we now see that our sixty or seventy bor as it is worse, to smallowed up an lost, like our cotton, tobacco and flour, in the overwhelming flood of European fabpours upon us.

To sum up in a single sentence, we have never had a general breakdown under the protective policy; nor have we ever recovered from a reverse like the present except by the return to protection. These are historical facts. - Pittaburg Despatch.

KANSAS .- It is beyond dispute that the real Settlers of Kansas elected a Free State Congressman and Legislature by a very large majority, notwithstanding the Border Ruffian and other illegal votes polled. Astonisned at the result, it is now believed the Democracyhave manufactured fraudulent returns, with which and by cutting off Free State counties entirely they (aided by Gov. Walker) can secure the Legislature, which is now the most important point. The future will show how long the oligarchy in power trample down the free people of Kansas. ## The Real Bribers.

The Fulton Republican, which the conspirators placed on the Ford list, after giving a history of its course last year, thus disposes of two beauties:

"And now, to conclude this statement, we do most emphatically aver, and are willing to be qualified to its truth before any magistrate or other proper officer, that the only money ever tendered to us, in any campaign since we have been engaged in politics, was by SAN-EERSON and SWOPE! Of the former we have evidence in Philadelphia, and in our possession, and of the latter we state upon our honor, or will do so upon our oath, that he offered, in conversation with us, in this town, to indemnify us against any loss we might sustain by taking down Wilmot and supporttime that the knew how we were situated and, in our circumstances, have persued the same course."
