Dr. David Jayne & Son have with commendable enterprise recently caused to be the new frauds found necessary to uphold crected in the basement of their immense granite buildings, below Third street. a powerful steam pump. Located in the vault under Carter's alley, by means of a six inch main laid through the cellar the differt was suspended under the belief that the pump draws water from a well near the Chestnut St. front. This well is supplied by springs furnishing about 300 gallons a minute, or two-thirds the amount required by the pump when working full speed. By means of a 4 inch main, also laid thro' the cellar, water is forced to the Chestnut St. front and may there be distributed by two hose attachments. On the pump itself are four other hose attachments for distributing the water. The steam cylinder of the pump takes steam either from boilers on the premises or from those of Messrs. you had undertaken to bolster up this Hardings, in the basement of the P.
