

Lewisburg Chronicle.

W. W. WARDEN & J. R. CORNELIUS.
Published on the 13th day of November, 1857, at Lewisburg, Pa., by W. W. Warden & J. R. Cornelius.

Freedom, national: Slavery, sectional!

Wednesday's Market was much in advance of Saturday's—and we look for a still larger attendance to-morrow, of both buyers and sellers.

In addition to the articles sold Saturday we noticed Dressed Chickens, Ducks, Turkeys, Mutton, Veal, and Milk. An over-plus of Beef at 6 to 10 cents.

Some \$1 Apples and stale Butter, unsold. Not half enough Pork for a Christian people. A load of truck arrived an hour or two before the Fair' was over.

We were told a case of "forestalling"—one dealer buying of another to sell at an advanced price. This was injuriously to both buyers and sellers, and if necessary must be suppressed by law.

"Money is Money" at present, and will be for some months to come. Prices of produce are everywhere declining, and although they may never again reach the low figures recorded in the first column, first page of to-day's Chronicle, yet buyers and sellers in making up their minds what prices to "give and take," must take into view the money market.

Fottsville has been held to be one of the best of markets. The following were the wholesale prices last Saturday:

Wheat Flour \$3.50; Rye \$4.50; Wheat 1.20 to 1.35; Rye \$9; Corn 75; Oats 40; Potatoes 60; Dried Peaches 2.50 to 4; Dried Apples pared 2.20; Eggs 11; Lard 13; Butter 17; Hams 15; Shoulders 13.

MARKET HOURS.—It has been proposed that all who have to sell should be on the ground before sunrise, so that sales may be effected and the Market considered closed by 9 o'clock. An earlier hour is unnecessary and inconvenient—the whole business could be transacted within two hours—and "the greatest good of the greatest number" would in the end be greatly promoted by a rigid adherence to certain hours—say from Day light to nine.

News Items from Other Counties.

A Common School Convention will be held at Middleburg, Snyder county, 28th inst., to take into consideration an increase of the salary of the Superintendent. David Swengel of Franklin Tp., raised an ear of corn which contained 1256 grains.

Smith, who shot Carter, at Philad., alleges that Carter had seduced his wife. He is in prison. The funeral of Carter, at Tanquet, evinced that his death was greatly lamented there.

The Canal Commissioners of Penna meet on the 17th inst., to make appointments. Applicants are more thick and hungry than ever.

The Pennsylvania R. R. Company have reduced the wages of their employes about 20 per cent. The same thing is going on to some extent throughout the country.

We understand that the Furnace and iron ore land of Samuel R. Woods, at Red Bank, Point township, have been sold by that gentleman for \$200,000.

The Philadelphia & Sunbury Railroad was sold in Sunbury, at Sheriff's sale, on Monday week, to the Wheeland Brothers, of Philadelphia, who were the second mortgage holders.

A town meeting was recently held at Danville to take measures for building a market house.

The publication of the Danville Intelligence is continued by Mrs. Valentine Best as proprietress. Oscar F. Kepler is engaged as editor, and seems to discharge his duties with ability.

The Danville Poor house has proved too small for the great number of applicants, and new buildings are being erected as additions.

There are many deceptions and thefts committed by persons thrown out of employment at the Iron Works and Coal Mines.

SOMERSET COUNTY.—Moses Gashaw, Jr., of Somerset Tp., left at the Herald office, a stalk of Buckwheat, which had upon it twenty two hundred and forty grains. Hard to beat, that. About 800,000 pounds of maple sugar, were made in this county last season. Bears are unusually plenty in the mountains, in this county.

Charles Wallen, of Butler township, Luzerne county, cut his throat on Thursday the 22d ult., of which he died on the 26th. Cause assigned, derangement from intemperance.

"Van Camp" is the name of the new post office established in Fishingcreek township, Columbia Co.; George M. Howell, Post Master.

A Jordan Rockefeller, Esq., was last week admitted to practice in the several courts of Northumberland county.

The Leominster Engine, Robert Morris, blew up at Hazleton on the morning of Tuesday week, killing the Engineer and Fireman, and badly scalding several bystanders. The body of the Fireman was blown upon the top of an adjoining house.

Charles D. Phillips has been sentenced to the Penitentiary from Chester county, for six years, for killing his cousin, J. Clever Bartholomew. The young man were both in good circumstances in life, but the trial elicited the fact that liquor was kept in the house and firearms and swords; the former brought into use the latter, and a horrid deed ensued.

Rev. Dr. James Linn, who has served the Presbyterian church, Bellefonte, as pastor, for thirteen years, lately suffered an attack of apoplexy, but is again able to be at his work.

John Irwin, long time a clerk in the Auditor General's office, Harrisburg, deceased last Wednesday, after a few hours illness.

Twenty-one persons were burned to death in the late fire at Chicago, which broke out in a house of ill fame, caused by a fluid lamp broken by the drunken inmates.

We regret to learn that Rev. H. Harbaugh has tendered his resignation as pastor of the First German Reformed Church of this city, and that it has been accepted by the Consistory. We say we regret it, for his place will be difficult to fill.—Lancaster Express.

The post office in Berwick has been removed into the Office of the Berwick Gazette, and Levi F. Irwin, Editor, appointed Postmaster, vice J. M. Henry, resigned.

Another attempt is being made to take up stock for the Shamokin Bank.

HOMICIDE.—On Saturday evening last, a man named Samuel Hill and a man named William Bird, residing in Clinton township, Lyscoming county, got into an altercation about the payment of some money, when Bird stabbed Hill with a butcher knife, causing death almost instantly. After the commission of the deed, Bird gave himself up, and is now in jail at Williamsport. Both men have families.

Joseph W. Henderson had his grocery at Bloomsburg broken into and robbed of quite an amount of goods; and Mr. Gilroy of Berwick had his pocket picked of a valuable gold watch. Look out for thieves and burglars!

A young man, named William Crody, was accidentally shot by his father on Friday last while hunting in the neighborhood of Lewistown, Pa. From the accounts received by Mr. Bart Cooper, a resident of our city, and a brother of the young man shot, it appears that the father had fired his gun at a pheasant, when one of the shot therefrom glanced and struck the son in the eye, through which it is supposed to have entered his brain, and caused his almost instant death.

John Musser, son of Ferdinand Musser, of Jordan township, Northumberland county, was suffocated by the gases of a lime kiln, which he entered on Saturday week. The deceased was a worthy young man, engaged in burning lime on his father's farm, and had incautiously entered the kiln, under which he but a short time previously started the fire.

The unemployed in New York. The threats of personal violence uttered by a number of unemployed workmen at their meeting on Monday, do not appear to have been idle or unmeaning. Yesterday morning, a squad troop of men, old women, boys, and girls, tore down the wooden railings which surrounded Tompkins Square, and carried them off for firewood. Hammers and axes were vigorously plied to root up the posts which remained fast in the ground, and so successfully was the work accomplished, that, were it not for the trees, the Square would now present the appearance of a large vacant lot. Even the benches were carried off. Another party encountered a baker's wagon in avenue B, made an attack upon it, and seized some fifty loaves. Many articles were stolen from stores where they were placed upon the sidewalk for show, and a general closing of stores of all kinds was the necessary consequence throughout that quarter of the city. Deputy Superintendent Carpenter instructed the commanding officers of the different precincts not to withdraw the men stationed at the polls, on any account whatsoever, and to keep the rest of their force in the station houses, in readiness to be dispatched to any quarter where their services might be needed. The rowdiness which prevailed to some extent in some portions of the city, was looked upon as a feat to draw the police away from the polls, and in consequence the spirit of lawlessness spent itself for the want of opposition to give it to its enjoyment.—N. Y. Enquirer, 4th.

RELIGIOUS MEETINGS.—The first of a series of Protestant Episcopal meetings for humiliation and prayer, in consideration of the business trials of the times, was held at St. Philip's church, Philadelphia, on Tuesday. A very large congregation was assembled, and Rev. C. D. Cooper, Dr. Spear, Rev. Edward Leunberry, Rev. Kingston Goddard, and Dr. Newton participated in the interesting exercises. The next meeting will be held at St. Paul's church.

The Milwaukee Wisconsin says: "Thro' out the pineries of Wisconsin they are discharging their hands. Lumber has not been in so large supply, and so dull of sale, since 1850. Improvements, in cities and villages have, in a measure, suspended, and hence the glut in the market." The same is true of the pineries of Michigan, and hundreds of men are thus thrown out of employment at the commencement of winter.

Since the stoppage of the cotton mills in Amherst, N. H., the jail there has been filled to overflowing with persons charged with petty thefts—a melancholy illustration of the old adage, that "illness is the mother of crime."

It is said that the Harpers only wanted \$15,000 to carry them through, and that a Bank which had promised it broke its promise the very hour the amount was to have been loaned. They are worth a million, clear.

A stampede of thirty slaves took place at Cambridge, Md., on Saturday night last. Messrs. Patterson, Phillips and Bump, owners of seven, have offered a reward of \$200 for their apprehension.

Affairs in Kansas.

It is related that in Marshall county, Kansas, the judges and clerks sat in the second story of the house, received tickets through a hole in the floor just large enough for a man's hand to pass through! Of course the judges could not see the people offer to vote, and one man could vote fifty times if he chose! By this plan the judges and clerks could swear that they did not see any illegal voting. Marshall is a back county on the Nebraska line, where a sheriff, who was recently ordered to summon thirty-six freeholders as grand jurors, reported that there were not thirty-six inhabitants in the county! Yet a Democratic majority of four hundred was returned from this county. The vote was thrown out.

Those RETURNS.—A Leavenworth City (Kansas) correspondent states that the bogus returns of Oxford precinct, Johnson Co., were exhibited by Gov. Walker at Lawrence as a curiosity. They were written out with one hand-writing, and the slip of paper measured fifty-four feet in length. All the names, except one hundred and twenty, were copied from "Williams' Cincinnati Directory," those commencing with the same letter following each other regularly as they do upon the pages of that book! This, we think will be conceded, is decidedly ridiculous.

A drover while lately crossing the Great Plains, unnecessarily killed a woman and child, of the Snake Indians, and fired at a war chief of the tribe. In consequence these Indians are incensed. As they have heretofore been on remarkably good terms with the whites, and steadily refused to take part with the Mormons, the fear is they may now depart from their friendly policy. The Interior Department will at once take measures to repair, if possible, the mischief thus occasioned.

Attorney General Black has given an opinion that the Government of the United States has ample power, and by the highest treaty stipulations is bound to redress the wrongs of the Kansas Nation Indians, against unlawful intruders upon their reserved lands. Good!

Officers of the army stationed in Kansas, have petitioned the President for the removal of Gov. Walker, on account of his interference with the troops to induce them to vote at the late election.

KANSAS GOVERNORS.—A Governor is wanted for Kansas, (says the Albany Journal)—a Governor who will stand by and hold his tongue while ruffians stuff ballot-boxes, burn houses, steal cattle, and rob and murder men, women and children. The Federal Government has tried, four times, to find such a man, and, strange to say, can't find him yet. Governor Reed, or exposed them from town to town. Gov. Shannon confessed in his own. Gov. Geary was too honest. Gov. Walker has gone and told them in a Proclamation. All this makes tough work for the Democratic organs, whose bread and butter depend on their swearing that no such outrages exist.

The Border Ruffian Convention—representing less than 2,000 votes, yet shielded by Gov. Walker and the U. S. arms against the indignant yet patient people of Kansas—has, after some days' delay obtained a quorum at Leecompton, and is planning how to preserve Slavery there. Some are proposing to have the Convention appoint the Governor and other State Officers, and elect U. S. Senators and Representatives, at once. "Better not try that!"

Gov. Walker is said to be on his way to Washington, to soothe the excited Southern Democracy, who are unanimous in denouncing the only right and honest acts that mark Walker's administration!

WASHINGTON, Nov. 2.—It has been decided to await the reception of official advices from Gov. Walker before acting further in reference to his rejection of the Oxford returns.

There will be a fight, in the next Congress, among the Democracy. The Northern adherents of that party can yield no more without ruining themselves; and the south will not be satisfied unless they keep on the path of making the slave interest the only interest worth looking after. The alienation is already commencing.

ELIMINA, N. Y., Nov. 10.—The river at this point is very high, and still rising. The water runs over the New York and Erie Railroad bridge, and it is feared that structure will give way soon. The New York and Erie Railroad track at Corning is washed away, so that no trains can pass, and the town of Corning is nearly swamped. It is reported that several buildings have been washed away there.

ROCHESTER, Nov. 10.—Great damage has been done here, and further up the Genesee Valley. At Dansville eight dams and six bridges were swept away last night. The river is very high, and still rising. Numerous culverts on the New York Central Railroad, between here and Syracuse have been washed away. The track is inundated in many places, and no trains can pass.

WILLIAMSPORT, Pa., Nov. 10.—The Susquehanna river at this point has raised ten feet, and still rising.

New York, Nov. 10.—Much anxiety has been felt about the proceedings to-day of the idlers and demagogues who professed to be the organs and mouth-pieces of the unemployed workmen.

The police, however, have stopped all speech-making, and all attempts to inflame the assemblages. Thus far there has been no serious disturbance at any of the meetings.—N. Y. Sun.

THE PUZZLER.

Answer to Arithmetical Problem in Chronicle of Nov. 6th.—
A's share is \$292.47, B's share \$265.864, C's share \$241.691, 8800.

Answers to Miscellaneous Enigma, Nov. 6.—
Claude Duval and Sixteen String Jack (Answered by M. L. D. Lewisburg; C. F. S. and R. F. B.—, East Buffalo.)

Answer to Biblical Enigma, Nov. 6.—
"Go and sell that thou hast and give to the poor." (Answered by J. P. S. and R. F. B.—, East Buffalo; M. L. D. Lewisburg.)

For the Lewisburg Chronicle. ARITHMETICAL PROBLEM. Three men—A, B, and C—buy a ball of yarn, 9 inches in diameter, for which A pays 3 shillings, B 2 shillings and C 1 shilling. It is agreed that A shall take his part first from the surface of the ball; B next; and C last. How much of the radius of the ball must each take down, in proportion to the money he paid, allowing in the center a ball of waste 1 inch in diameter?—Answer requested.

A GRAVE GOOSE QUESTION. Two women go to market with thirty geese each. Mrs. A's geese are good for \$1; Mrs. B's geese are better, and sell two geese for \$1. A realizes \$10 and B has \$15—100, \$25. Next market day Mrs. B is sick and requests Mrs. A to take along her thirty geese with Mrs. A's own thirty. Mrs. A had then sixty geese to dispose of, and as she had sold the rate of five for \$2 she concluded to sell them all in that way; but when sold she found she had only \$24 for the lot.—What became of the missing dollar?

Messrs. Editors—I find the above in print, and desire some of your ingenious readers to explain it. "Give us the!"

ELECTIONS.—N. P. Banks' triumph in Massachusetts is complete. He has near 70,000 votes for Governor—Gardner, the American incumbent, 37,000—and Beach, Dem., over 20,000. Council, Senate and Assembly, overwhelmingly Republican.

MARYLAND.—Only two persons killed on the day of election, but others wounded. Col. Hicks (Opposition) is elected Governor, in place of T. W. Ligon, the Democratic incumbent. The Americans have the Legislature, but lose a Congressman.

The Louisiana election shows the choice of 3 Dem. and 1 Am. Congressmen—no change.

CALIFORNIA.—The official vote for Governor, compared with the popular, stands: 1856—Democrat 250,000; Republican 200,000; Union 20,000; Total 470,000. Increase 27; Decrease 22; Difference 5,000.

Wisconsin and Minnesota are still in doubt—very close.

NEW YORK ELECTION.—"The Erie Canal" has overturned parties, every few years, ever since the day of De Witt Clinton. The Republicans last year were obliged to levy a tax to carry on the enlargement of the Canal, and the Democrats took advantage of that fact to raise a hue and cry about "Republican extravagance," and to good effect. The Democratic vote is about as last fall's, giving the Democrats a majority of 100,000.
