It will be our readers to an advertisement in this say's paper of the "Har Retorative" of Prof. O. J. Wood & Co. It will be seen that he has numerous certificates, from persons of the highest character, to the merita of his Restorative. Prom positive knowledge, we are also enabled to say, that it is in every sense what it professes to be, and we do not hesitate to pronounce it the finest preparation for the head and hair which has so far been devised by human ingenuity. We have seen it arrest threatened tabliness, and restore to the head its original profusion of natural and glossy bair; and when the latter has been prematurely tinged with gray, we have seen it like magic restore the coiers of youth and health. The distinguished propriety of this, we might truly say, miraculous flectorative, is that it gives to the person who uses it, the same head of Hair that they wore in youth, thus acting in strict compliance with the rules of the first and greatest of all toilet makers—Nature. No one who has used it will hesitate to unite with us in this testimony to its peculiar merit.—[Corington (In.) People's Friend.

Dr Vall's Galvanic On acts on the system by imparting to the diseased part a natural current of electricity, by which the restoration of all the natural functions are produced im-mediately and a cure at once obtained. This is the great secret which no other medicine in the world has got, and hence the great success this medicine has in curing diseases.

en. We wish to say to every person who reads this, that there is an article known as Dr. Sarvano's Invisoration, or Liver Remedy, which can be relied on ascertain to cure liver complaint in any of its forms, such as Juandice, Dayspeila, and numerous other complaints, described in another column, besides which it is one of the greatest preparations or cures for consumption, taken in early stages, that is now known.

We take lifter granted, as experiment has proven, that diseases of the lungs are not generally the first cause of consumption, but a debilitated system, caused by the improper action of the liver, reduces the powers of the lungs to resist or throw of diseases caused by cold and irritation, leaving the lungs at the mercy of one disease, because the liver has incapaciated them from performing their proper fection of throwing off diseased matter caused by cold, thus, to prevent consumption, care the liver, and keep the system strong enough to throw off alight diseases of the lungs.

There is not in the world a better liver remedy, or

The Great Library Offer. AGENTS GLITTING RICH!

The union of EMERSON'S MAGAZINE and PUTNAM'S MONTHLY has given to the consolidated work a circula-tion second to but one similar publication in the country, and has secured for it a combination of literary and artrade and demand from subscribers exceeded 20,000 copies, and the numbers already issued of the consolidated work are universally conceded to have surpassed, in the ichpens of their literary contents, and the brauty and richness of their literary contents, and the brauty and profuseness of their pictorial illustrations, any magazine ever before issued from the American press. Encourag-ed by these swidences of favor, the publishers have deter-mined to commence the new volume in January with still additional attractions, and to offer such inducements to subscribers as cannot fail to place it, in circulation, at the head of American magazines. With this view they now announce the following splendid programme. They have purchased that superb and costly steel-plate engra-

"THE LAST SUPPER, and will present a copy of it to every three-dollar aub ecriber for the year 1858. It was engraved at a cost of \$5,000, by the late celebrated A. L. Dick, from the origimai of Raphael Morghen, after Leonardo Da Vinci, and is the largest steel-plate engraving ever executed in this country, being three times the size of the ordinary three

dollar engravings.

The first impressions of this engraving are held at \$10, and it was the intention of the artist that none of the engravings should ever be offered for a less sum than \$5, engravings should ever be odered for a less sum than \$0, being richly worth that amount. Thus every three-dollar subscriber will receive the Magazine one year—cheap at \$3—and this splendid engraving richly worth \$5 thus getting for \$3 the value of \$5.

We shall commence striking off the engravings imme-

distely, yet it can hardly be expected that impressions of so large a plate can be taken as fast as they will be sens last year in Sunbury, 20 of whom were children.
