The union of EMERSON'S MAGAZINE and PUTNAM'S MONTHLY has given to the consultated work a circula-tion second to but one similar publication in the country, and has secured for it a combination of literary and ar-tistic talent probably unrivaled by any other magazine in the world. Encouraged by these evidences of favor, the publishers have dete mined to commence the new volume in January with still additional attractions, and to offer such inducements to subscribers as cannot fail to place it, in circulation, at the head of American magazines. With this view they new announce the following splendid programme. They have purchased that superb and costly steel plate engra-
