dred and fifty thousand men to be prepared is fit to be defended or not.

Congress !

Northern Ocean, which build up great nor very fickle. Japan, and we must of necessity, have in Central America certain factors and certain commercial agencies, who, in a very few years, with their families and relatives and dependents, will make a dense population in Central America. I say, then, that, for the interests of commerce, we want Central America, Americanized. This commercial interest is, unfortunately, a "sectional interest" in these States. It is,emphatically, a Northern interest; and therefore, as a Northern man, I advocate especiclly that Central America should be Americanized.

Now, sir, I said I was astonished that gentlemen who come from States bordersealous than the South in this movement. of 16 guns, 25 carriages of different sorts, In the State of Massachusetts we have, one hundred and twenty seven people to a square mile, by the census of 1850. In the State of Rhode Island, we have one hundred and twelve to the square mile, by the same census. In the State of Connecticut we have seventy-nine. In the State of New York we have sixty fice. So, you see, it was not poetry, it was not fiction, not a stretch of the imagination, when I told you that the descendents of the Pilgrims were in a tight place !

But how is it with the States which border on the Gulf? Look at it and see. They have, some of them, eighty-nine hundredths of a man to the square mile. In another one we have one and the forty eight hundredth part of a man to the square mile; and taking them altogether, we have just about three men to the square mile in all those States which border upon the Gulf of Mexico.

. Now, sir, it would be folly for me to argue, and there is no kind of reason for supposing, that these States expect to do anything about colonizing Central America! They can not afford to lose a man. They had better give away two thousand dollars than to lose a single honest, industrious citizen. They can not afford it. I have left out of this calculation, to be sure, the enumeration of the slaves in those States, for the gentleman from Tennessee [Mr. Maynard] informed us that the "question of Slavery did not come into this argument properly," and I agree with him there. I think he may agree with me, that by no possibility can Slavery ever be established in Central America. That is my belief. Just fix your neutrality laws, and we will fill up Central America before 1860 sufficiently to be comfort-

Mr. MAYNARD. With the permission of the gentleman, I desire to ask him whether he will pledge himself for all those he represents, that when they get down there they will not make slaves of the people they will find there?

Mr. THAYER. Certainly I will do it; and I will say more on that subject hereafter. I will say to the gentleman upon
