Combination Portable Steam Sam-Mill, and other Improved Machinery.
They have purchased the entire machinery business heretofore carried on by J. M. Emerson & Co., also the Montgomery Works at Yonkers, on the Hudson, near this city, and with the experience and facilities combined in its organization are prepared to furnish machinery of all kinds at more liberal sates than has ever been offered at any other establishment.

The Combination Saw-Mill was patented October, 1856, and is now generally acknowledged to be the cheapest, most practical, and efficient lumber manufacturing nucleins in the world. A large number of them are in successful operation in different sections of this country, Canada, Cuba, and South America, and wherever their merits have been tested they are being adopted by lumber manufacturers in preference to all other mills.

The following letter expresses the general opinion of those who are using the Combination Mill:

those who are using the Combination Mill:

Mizzaz, Extrasor & Co.—Gentlemen: I have tried the saw-mill purchased of yon, and will say that it performance may be preciations. I am well piezased with its performance. I set itup on a small stream that afforded constant water about we thick as my little fluger, which was much more than sufficient to supply the holler. We are able to cut 3,000 feet of beautiful ismber in 12 hours, with something less than one cord of wood. It is the very thing we have so much needed in our county for a long time. With a little trouble and expense, we are able to move it from five to ten miles per day, and set it up in the heart of the timber, which saves the great burden of hauling the logs a long distance to the mill. Yours respectfully, JESSE KNR, Ja.,

The Company have purchased Lund's Patent Feed Ar.

The Company have purchased Lunis ville, Tennessee, the Company have purchased Lund's Patont Feed Arrangement, which is illustrated and described in the Scientific American for October 24. This adds greatly to the efficiency of the mill.

The Combination Mill, with all the recent improvements, and steam power of 15 horses, is capable of sawing from 3,000 to 4,000 feet in 12 hours, and is sold for 41,650.

THE NEW YORK CIRCULAR SAWMILL THE NEW YORK CHECKLEAR SAFE SEASON THE MANUFACTURE only by this Company. It is of superior construction, and sold for 25 per cent. less than other mills of no greater capacity. A mill with 36 to 24 luch saw can be sold for \$250 to \$500, and with a 20 horse engine and boiler is sold for \$2,200.

Steam Regimes and Boilers: Engines of from one to 100 horse power; Lecomotive, Tubular, Fine and Cylinder Boilers furnished at greatly reduced prices from former constaling.

Boilers turnshou at greaty toustee your quotations.

Drawings, with plans and specifications for buildings and machinery, furnished grain to our customers.

Competent mechanics are sentout to put up and set in operation our machinery, when required.

We also manufacture Shingle Machines, Flaning Machines, Sugar-Jillis, and Machinery in general.

Special attention paid to getting up Shafing and Pullies for manufactories, and all kinds of Mill-Wright work.
