DENTAL CARD.

The best method of inserting artificial Teeth, Gum, &c., known as Allen's Continuous Gum Work, is, without exception, the best improvement on the short-cut method. This work, when properly constructed, is the most beautiful, the cleanest, and the greatest strength with durability, and adds more to a clear and distinct articulation, than any other kind of work ever brought before the public. And not only this, but a beautiful harmony in combination with this style of work, we can give the face its natural expression, without, in the least, interfering with the usefulness of the teeth in mastication.

Important to FARMERS!

The subscriber is prepared to clean Cloverseed at the well-known Mill on the short-cut notice, and warrant no damage by breaking of the seed. For the Fifth Patent he asks a continuance of it assuring his customers that he will do his utmost to give satisfaction. Nov. 1857. GEORGE BAKER

A Call to Farmers.

Farmers, drop your tools—a little—read this, and reflect!

"FARMERS' PROMOTION BOOK."

A NEW and scientific manuring system, for the cultivation and increase of all kinds of grain, grasses, forage and pasture, upon all kinds of soil, proved by actual experiments and based upon evident truths, designed to improve agriculture in all its branches; represented by upwards of one hundred and fifty engravings of the most valuable grasses and plants connected with the system. By DR. G. REINHOLD, of Boalsburg, Centre Co., Penna.

RECOMMENDATION.

In this treatise it will be seen that the object has been to give the farmer that kind of information which enables him to make practical application to fertilize his land and increase his grain, fodder and pasturage. The doctrine, as taught by the manuring, and policy, and pasture cultivation system, are rational, clear and evident, and suggest an improvement upon the mode of agriculture hitherto known to our farmers, and which, if adopted, and wisely applied, would be a great benefit to the farmer. For sale in Lewisburg by Dr. I. BRUGGER.
