

Lewisburg, Pa.

FRIDAY MORNING, MAY 21, 1858.

ADVERTISEMENTS.—Manufacturers, Merchants, Mechanics, all who wish to have their names prominently displayed in the columns of the Lewisburg Chronicle, will find it to their advantage to send their orders to the publishers, who will be glad to receive them.

See New Advertisements.

We have recently received interesting Congressional speeches from Messrs. Burlingame, Covode, Seward and Cameron.

We have rumor that the Northern Central Railway Company has leased the Sunbury & Erie Road as high up as Williamsport.

Among the speakers before the Sunday School Union of New York, last week, we saw the name of Rev. G. A. Peck, a last fall's graduate of the University at Lewisburg.

The case at Danville, of Mrs. Twigg, as an accomplice with Clark in the murder of his wife, was submitted to the Jury on Wednesday. Thursday afternoon Jury came into Court with a verdict of guilty of Murder in the First Degree!

The Young Men's Christian Association of Lewisburg adjourned to elect officers on Monday evening next. We understand the managers of the enterprise do not include the "Christian" Church in their organization.

At a Democratic Mass Meeting in Philadelphia before the recent Municipal Election, Benj. W. Brewster, Esq., declared, "I wish the City this Spring, were the State next Fall, and the Union the next Presidential Election!" [Hope so any way!]

Late news from Utah state that Gov. Cumming had entered Salt Lake City without opposition, and that most or many of the Mormons had retired to the mountains for safety. If this prove true, it will end the war—the most laughable "WAR" on record!

The Abolitionists, Garrison, the Liberator, &c., at their recent meetings in New York, denounce the Republicans about as much as they do the Democrats. Yet the Democratic editors all over the country—knowing they are attempting to deceive—would have their readers believe that Abolitionists and Republicans are the same party!

Mr. Downing is daily turning out specimens of Book Binding as well finished and at reasonable rates as the best City Binderies. Those who in this and other vicinities have taken home specimens of his work, will confer a favor by showing them to their neighbors and friends.

John A. Grier of Lewisburg, has returned home from the steamship Susquehanna—somewhat emaciated, yet convalescent. He reports 57 or 58 deaths from the visit of yellow fever to their ship. An epitome of the voyage, and some interesting account of the fever aboard the ship, and in the Hospital, will be in preparation for our next week's paper.

DEMOLISHED.—The Lewisburg Market Square Engine House, which in 1831 was quite an ornament, but of late has been visited by a nuisance by its more ambitious neighboring structures, was this week torn down. "Dar unclean" is now kept on South 3d St.

The old log "Academy" school house, at the lower end of Market street, has also been razed to the ground. Who can tell us when it was built? who give us a catalogue of the Teachers it has sheltered? and of all the great men who got their education and their "lickings" there?

Notwithstanding the heavy rain storm on Monday evening last, 75 or 100 persons got through it to Independent Hall, to hear the remarks of John Porter Esq., of Milton, who has recently spent four years in one of the States where Slavery exists in its mildest form. Mr. Porter's present views of the system seem to coincide with that of John Wesley—"American Slavery is the sum of all villainies"—and his condemnation and abhorrence of the system was expressed in his own unqualified and vehement manner and language. His extracts from the writings of the distinguished men of the South of Revolutionary memory, showing their views of the system, were most appropriate. He said that in politics, he was at present with no party—confessed that his only hope of checking and removing this gigantic wrong was in the arm of Omnipotence—and concluded by urging opinion of the subject, as our only means of god in this or any other cause—such agitation as Wesley bequeathed to Wilberforce, who labored 33 years to influence the public mind, before the British parliament could be forced to declare the Slave Trade to be Piracy.

NEW GOODS, May 17.—Billy Bowlegs, the Indian Chief from Florida, visited the True Delta office, and many other places to-day, and was received with great honors, attracting thousands of spectators. Mr. Maginiss made a speech, to which Billy Bowlegs responded, regretting that he had not sooner made peace with the whites.

Mr. Hackney, Doorkeeper of the H. of R. in Congress, has been turned out for fraud and perjury, and one of his assistants, Mr. Wright of N. J., elected in his place.

Called.—The Opposition State Convention meets at Harrisburg, Thursday, July 8.

Gen. Persier F. Smith, of Phila., commanding officer of the Expedition, died suddenly at Fort Leavenworth, last Monday evening. "Haynes" Harney succeeds him.

Called.—The Opposition State Convention meets at Harrisburg, Thursday, July 8.

Samuel Waldron has furnished us with a copy of the Lawrence Republican, (Kansas.) It breathes a spirit of cool defiance of all the efforts of the Slave Power (through its tool the general Government) to make Kansas a Slave State by the joint Bribe and-Threat-Bill of traitor English.

The news of the passage of the English Slavery Bill is received with scorn and contempt by the People of Kansas. Were not the machinery of the election all in the hands of the Pro-Slavery party, there is no doubt but the Lecompton juggle would be voted out of sight. But how many open friends—like Kickapoo and Oxford—how many Cincinnati Directors—how many candle-box returns—will be endorsed by Congress, Heaven only knows.

The People of Kansas have—in some sense—their own fate in their own hands, in that they can oppose force to force in all Kansas voting stations; and they should do so. The eyes of their many friends throughout the world, are upon them. We hope they will drop all minor points—all personal dissensions—and, like their fathers of the Revolution, stand firm to the great cause. QUIT YOU LIKE MEN—BE STRONG!

CHICAGO, May 18.—A fire occurred this morning in Wells street, between Van Buren and Jackson. The buildings consumed were of little value, but there was a distressing loss of life. Nine persons are known to have perished, and three others are missing.

The State of Texas has turned her Penitentiary into a cotton factory and employs all the convicts in spinning and weaving. The establishment turns out from 10,000 to 12,000 yards of cloth per week, and pays a profit to the State.

B. T. Crouch, Sr., of the M. E. Church, South, died after one hour's sickness at Louisville, a few days ago. He had been an active minister for forty years. The Methodist Episcopal Conference, convened at New York on Wednesday, passed resolutions declaring slavery "a sin for the extinction of which all wise measures should be taken."

The Chicago Democrat says that laborers in that city are not likely to get more than six shillings a day during the coming season, and that hundreds are there now out of employment.

The Choctaw Herald, of the 26th of March, says: The Legislature adjourned on last Monday night, after being in session eight days. They did a great deal of work in that time. Some very important laws were passed.

COMING! Coming!—The School Directors of the Fourth Ward in New York City, are all Democrats and mostly Irishmen. This set of men have prohibited the reading of the Bible in the schools of that ward. This is the work of the friends of Popery—shut away the Bible.

George W. Brezie, a student in the University at Ann Arbor, Mich., recently died in a drunken spree—beer and whiskey being the liquors he drank.

The Missouri Legislature ordered the purchase of Bibles for a public institution, to be of "St. James version." This is the first instance of Legislative interference with "versions" in America—old "King" James transformed into a "Saint" by act of Legislature!

Orville Gardner, the converted pugilist, has been set up in the shoe business by his friends in New York.

The Louisville Journal says that the difference between the two great parties in respect to Kansas may be briefly stated: One of them demands the submission of the Lecompton Constitution to the people, and the other the submission of the people to the Lecompton Constitution.

Twelve thousand persons have joined the Methodist churches in New Jersey within the last six months.

The "Reaper" suit between McCormick and Manny, was decided in favor of Manny, by the Supreme Court at Washington. One hundred and eighty-eight members were received into Rev. Henry Ward Beecher's church, one Sunday morning in Brooklyn.

The Wilmington (Delaware State) Journal heartily opposes the English Kansas Bill. A little work would make Delaware a Free State.

The President has received authentic information that a large body of Indians, of various hostile tribes, are collected on the head waters of the Red River.

A negro boy, only eleven years old, who confessed to the burning of Col. Bailey's residence, in Surry county, Virginia, has been sentenced to be hung.

The Kansas land sales, by order of the President, have been postponed from July to October. The postponement was asked by the people of Kansas.

Simon Benard, tried as an accomplice with Orsini in the late most atrocious murder Louis Napoleon, was acquitted. Eight persons were killed, and 120 wounded, by that diabolical attempt.

St. Paul polls over 4,000 votes on the Railroad Loan question—nearly all for borrowing, of course. We hope equal ability will be evinced in the question of paying.

A youth named BRETEL, who removed from Lewisburg to Georgia recently, we understand was subjected to harsh if not rude treatment, and insult if not danger, because a young friend here had sent him a number or so of the Chronicle. Some of the "mud sills" of that happy land having embraced an opportunity to escape from their beloved masters, and about the same time an open, un concealed copy of his home paper being seen in his possession, it was deemed a suspicious circumstance against him. (We really did not know that the Chronicle had got upon the same "national" taboos list as the Tribune.) We desire to assure the world-wide gentlemen, whose hospitality and honor so adorn the "land of liberty"—that neither the young man there, nor his chum here, nor their families, were ever suspected of being anything like that ugly scoundrel called an "Abolitionist," or as peculiarly sticklers for human rights, or as persons who would lift a finger to aid naughtily servants to bid adieu to kind masses and missuses.

But what shall be thought, at home, of the cruel and cowardly system, which produces such groundless suspicions and apprehensions? of the people so ready to alarm if not lynch a mere lad for having sent him, by a school mate, an account of certain local news, an occasional copy of a metropolitan journal? A neighborhood of free-wretches, alarmed by the gut with a newspaper! Think of a guilty, fears the system of unrequited servitude and unearned credulity inspires in the bosoms of all! "Starting at their own shadows!"—jealous, ignorant, and intolerant, they will illustrate the Scripture proverb, "The wicked flee when no man pursueth."

This onset upon a stranger lad is fully equal to the "Battle of Sumpterville," last year, when the cavalry of South Carolina, led by a Militia General, attacked and put to flight—a Yankee Woman!

RICHMOND, VA., May 16, 1858.—A terrible hail storm occurred in Chesterfield County last evening. Some of the stones were of the size of hen's eggs. Vegetation was destroyed, the ground strewn with the leaves and branches of trees, and a great many windows broken. The hail was from two to three feet deep in some places in the roads. The train from Petersburg last evening came in contact with a fallen tree, and the engine and cars were much damaged. The storm is unprecedented.
