Rich Scene at Zanesville.

[Dan Rice had the misfortune to show his Show up at Zanesville, Ohio, on that peculiarly unlucky day, Friday—the day noted in all the newspapers for tornadoes, deluges, thunder-storms, and all the promiscuous deviltries of the elements. We will let the *Aurora* tell how the "Show" showed:]

Now the canvas gives a jerk to leeward; circus man shouts out "guy rope broke!" and out breaks Madam, fine horse and all. Another circus man shouts, "Out of this, all of ye, as soon as you can!" Then, helter skelter, down off the seats, pitching, tumbling, crowding, tearing, swearing, tugging, dragging, screaming women, crying children—everybody making for the door—while the great old rag was jumping and swinging about overhead upon its tall poles like a crazy balloon; an extra heavy blast of wind, and down came the wet, dirty, heavy thing, trailing over the people, while the women gave one grand scream, and the men dodged each other and everybody else out of the way of the falling poles. At this point in the performance, people began to "see the Elephant" distinctly, when the lightning flashed upon the scene. Then and there were bonnets and dresses, which once were gay in their bright colors, now, alas! crushed, mussed, muddy, and altogether ridiculous looking. Ladies who had just crawled from under the prostrate canvas were holding their dresses just as high as they pleased, and doing their best through about a foot deep of mud and water. Men and boys went about in the pelting rain without hats, which were taken off by the falling tent, and the mud and water running off the ends of their noses. Friends were hallooing to each other in the night and storm. "Sarah Jane" was crying for "Mary Ann," who she said was dead! "Polly" was stuck fast among the seats, and many others of the girls were in unfortunate and unbecoming situations. Parents were seeking for their children, children were crying for their parents, any of whom at that moment might be floundering under the canvas like a polly-wog caught in a coffee-sack seine. While in this last scene, in walked the brigandish-looking showmen with flaming torches stuck upon poles, illuminating a picture which, could it be described, would clap the climax of the ridiculous, and—the rest of this thrilling story will (we hope) be found in the New York *Ledger*. Price, five cents a copy.

MEDICAL EPITAPHS.

A prolonged medical statement of the disease of which the departed may chance have died, is extremely popular. At Acton, in Cornwall, says a writer in *Household Words*, there is this particular account of how one Mr. Moreton came by his end:

"Here lies entombed one Roger Moreton,
Whose sudden death was early brought on;
Trying one day his corn to mow off,
The *razor* slipped and cut his toe off;
The toe, or rather what it grew to,
An inflammation quickly flew to;
The parts then took to mortifying,
And poor dear Roger took to dying."

And here is a still more entertaining one, upon a certain lady in Devonshire, singularly free from any nonsensical pretence or idle bravado:

"Here lies Betsey Cruden,
She would a leaf'd but she cooden,
'Twas no grief on sorrow as made she decay,
But this bad leg as carri'd she away."

There is a distressing inaccuracy of metaphor in the following South Country elegy; but the meaning is painfully distinct:

"Here lies two babes as dead as nits,
They was cut off by ague fits."

A doctor of divinity, who lies in the neighborhood of Oxford, has his complaint stated for him with unusual brevity, as well as his place of interment:

"He died of a quinsy,
And was buried at Binsy."

To complete these medical extracts, I may quote this warning cypress flower, culled from a Cheltenham Cemetery:

"Here lies I and my three daughters,
Killed by drinking the Cheltenham waters.
If we had stuck to Epsom salts,
We'd not been lying in these here vaults."

Negrophobia getting "Wuss."

A member of the California Legislature, who believes in the Dred Scott decision and thinks Buchanan both a statesman and a patriot, lately introduced the following bill, in good faith for passage:

AN ACKT

To prevent niggers kummin to Kallyforny.

The people of the Stait of Kallyforny, represented in Seanit and Assembly, do enact as follers:

Section 1. No nigger not now an inhabitent uv, in, and legal voter, in this stait, shall be pemitted to liv, reside, or stay in this stait enny longer.

Sec. 2. Enny nigger hoo willfilly or axidently violates the furst seckshun uv this ackt shell be trunsported from this stait and sold to the lowest bidder, Chinamen not excluded.

Sec. 3. Niggers who kum with their masters tu sojourn temporarily shell not be inklewded in the provizions uv this: *provided*: such sojourning don't exseed 40 years. If engy ship get recked on the shoars uv this stait with a nigger on borde; and if such nigger shed tri tu swim, he shell be pushed under the wotter.

Sec. 4. All ackts or parts uv ackts contravenin this, is repeeled.

Knockting Clairs.—A nigger is herebi deklared an obnoxshus newsans, not to be permited, and every Sherif in this stait may be a nigger driver if he chuses.

A sensible "down east" female is decidedly opposed to the interference of women in politics. She pointedly asks, "If men can't do the voting, and take care of the country, what is the use of them?"

A country editor thinks that Columbus is not entitled to much credit for discovering America, as the country is so large that he could not well have missed it.

A Call to Farmers.

Farmers, drop your tools—pause a little—read this, and reflect!!

"FARMERS' PROMOTION BOOK."

A NEW and scientific manuring system, for the cultivation and increase of all kinds of grain, grasses, fodder and pasture, upon all kinds of soil, proved by actual experiments and based upon evident truths, designed to improve agriculture in all its branches; represented by upwards of one hundred and fifty engravings of the most valuable grasses and plants connected with the system, by DR. C. G. REINHOLD, of Bealsburg, Centre Co., Penna.

RECOMMENDATION.

In this treatise it will be seen that the object has been to give the farmer that kind of information which enables him to make practical application to fertilize his land and increase his grain, fodder and pasturage. The doctrines, as taught by this manuring, and fodder, and pasture cultivation system, are rational, clear and evident, and suggest an improvement in the mode of agriculture hitherto unknown to our farmers, and which, if adopted, and carefully practiced can not fail to advance the interests of the farming community. Such a work has been much wanted, as it fills a void which has long been felt, but which there has hitherto been no attempt to supply. And as farmers of Centre and Huntingdon counties we recommend the work to every farmer, as they will reap the greatest possible benefit from it.

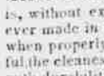
DENTAL CARD.

THE new method of inserting artificial Teeth, Gum, &c., known as

Allen's Continuous Gum Work,

is, without exception, the best improvement ever made in the art of Dentistry. This work, when properly constructed, is the most beautiful, the cleanest, combines the greatest strength with durability, and adds more to a clear and distinct articulation, than any other kind of



work ever brought before the public. And not only this, by a beautiful discovery in combination with the Gum, we can give the face its natural expression, without, in the least, interfering with the usefulness of the teeth in mastication.

I would take this method of informing those interested that I have purchased the Patent Right for this valuable improvement, of the inventor, John Allen, (son of New York,) for this and several adjoining counties, and that I am now manufacturing an article of Teeth and Gums that will compare favorably with anything in the line that has ever been made in this or any other country. I ask all, and especially those that need teeth (if they have engaged them or not,) to call, and examine for themselves.

M'REA'S CELEBRATED
LIQUID GLUE!

THE GREAT ADHESIVE. Most useful article ever invented for home, store or office, surpassing in utility every other glue, cement, mucilage, paste or prepared gum ever known. ALWAYS READY FOR APPLICATION, and will adhere on Paper, Cloth, Leather, Wood, Glass, Porcelain, China, Marble, or Stone. For manufacturing Fancy Articles, Toys, etc., it has no equal, and every possessing greater strength than any other article heretofore known, thereby leaving no chasm where the parts are joined. Notice Well.

Within the last three years several persons have boiled off this justly celebrated LIQUID GLUE and have vended it, and the great convenience in which it has been put up in most cases, has deservedly secured for it a demand which the manufacturer has found it, at times, difficult to meet; surrounded by all who have used it, that its merits are far above any similar article ever offered to the public.

☞ The GLUE is extremely economical—one of the bottles of M'CREA'S CELEBRATED LIQUID GLUE will go as far as *twenty-five cents a bottle* of any other. *TWENTY-FIVE CENTS A BOTTLE.* Manufactured and Sold, Wholesale and Retail, by

WM. C. M'REA, Stationer,

HOVER'S LIQUID HAIR DYE.

THE testimony of Prof. Booth and Dr. Brinkle having previously been published, the following is now added:

From Prof. M'CLOSKEY, formerly Professor of Theory and Practice of Medicine in the Female Medical College of Pennsylvania, and late Professor of Surgery in the American College of Medicine, &c.

PHILADELPHIA, Nov. 27, 1856.

Mr Joseph E. Hover—A trial of your Liquid Hair Dye will convince the most skeptical that it is a safe, elegant and effectious preparation. Unlike many others it has in several instances proved serviceable in the cure of some cutaneous eruptions on the head and I have no hesitation in commending it to those requiring such an application.

Very respectfully, J. F. S. M'CLOSKEY, M. D.

HERRING'S SAFE.

THE ACKNOWLEDGED
CHAMPION!
THE RECENT TRIALS at Reading have endued it the current of public opinion, and confirmed the verdict of more than eight years' standing, in favor of its having conclusively that "Herring's" is the ONLY SAFE THAT WILL NOT BURN.

Extract from the Committee's Report on the Trial of Iron Safes at Reading:

"On the 26th of February all the members of the Committee met by witness the Safes and locks and papers, (placed in them) and were perfectly satisfied that all was right. The day following, the burning took place, under the superintendence of the Committee. After a hot and impartial burning for five hours, the Safe of Messrs. Evans & Watson was first opened, the Safe being on fire inside, and the contents partially consumed, while the contents in the Safe of Messrs. Farrels & Herring were in good condition, and no fire inside."

A. H. PEACOCK,

And endorsed by over 50 of the best men of Reading. The above Safes can be inspected at 34 Walnut Street, where the public can satisfy themselves of the great superiority of the "Herrings Patent Champion," over the defeated and used as "inside Iron Door Salamander."

BAILEY & HERRING,
34 Walnut Street, Philadelphia.

Only makers in the State of Herring's Patent Champion Safes.

The attempt made by other parties to bolster up the reputation of a safe which has failed so signally in accidental fires in Philadelphia, (Samstead Place,) by taking one out of an agent's store, (H. A. Lantz,) made almost thickened, (different from those they sold to "turn up" one of Herring's, that is thick) has met with its true reward. Herring's Safe has passed through, and is positively that the only reliable Safe now made in "*Herring's*," of which over 1,000 are now in actual use, and more than 200 have been tried by fire without a single loss.

Truth is Mighty, and Must Prevail.

Report of the Committee appointed to superintend the Burning of the Iron Safes, at Reading, February 27, 1857.

Reading, March 4.

The undersigned, members of the committee do respectfully report, that we saw the two Safes originally agreed upon by Farrels & Herring and Evans & Watson, placed side by side in a furnace, viz: The Safe in use by the Pay master of the Philadelphia and Reading Railroad Company, in his office at Reading, manufactured by Farrels & Herring, and the Safe in use by H. A. Lantz, in his store, manufactured by Evans & Watson, and put in books and papers precisely alike.

The fire was started at 8½ o'clock, A. M., and kept up until four cords of green hickory, two cords dry oak and half a bushel of tar wood were entirely consumed, the whole under the superintendence of the subscribers, members of the Committee. After the fire was put out with water, after which they were opened, and the books and papers taken out by the Committee and taken to H. A. Lantz's store for public examination, after they were first examined and marked by the Committee. The books and papers taken from the Safe manufactured by Evans & Watson were but slightly affected by the intense heat, while those taken from the Safe manufactured by Farrels & Herring were, in our judgment, charred fully fifteen per cent. more than those taken from Evans & Watson's safe.

We believe the above to have been a fair and impartial trial of the respective qualities of both Safes.

JACOB H. DYSHER,
DANIEL S. HUNTER.

Having been absent during the burning, we fully coincide with the above statement of the condition of the papers and books taken out of the respective Safes.

G. A. NICOLLS,
B. H. MUHLENBERG,
JAMES HILBOLLAND.

Evans & Watson have now on hand **300,000 pounds** of the above SAFES, which they offer for sale on better terms than any other manufacturer in the United States
