Freedom, national: Slavery, sectional!

A Union and a Victory!

Pennsylvania State Convention.

The united American Republican, and People's Committee of Superintendence for the City of Philadelphia, earnestly desirous to extend and perpetuate that union of the elements of Opposition to the present National Administration which in the City has lately resulted in such brilliant success, do hereby respectfully suggest and recommend to the State Committees representing those several elements of opposition, that they call upon the citizens of Pennsylvania, who are opposed to the present National Administration, especially to its despotic and fraudulent Lecompton policy, and its wilful neglect of the just claims of domestic industry, and who are in favor of the Sovereignty of the People over their own local concerns, of American institutions as against the policy and intrigues of foreign Governments, and of adequate protection to our home labor, to assemble in their respective Senatorial and Representative Districts, to choose Delegates to a State Convention, to meet at Harrisburg, in the Hall of the House of Representatives, at 2 o'clock, P. M., of Wednesday the 14th day of July, 1858, to nominate candidates for Judge of the Supreme Court and Canal Commissioner.

LEONARD R FLETCHER, President.
Jos. R Flanigen,)
Geo. A. Coffey,) Vice Presidents.
Wm. J. P. White,)
Martin V. B. Summers,)
Jos. R. Lyndall,) Secretaries.

Philadelphia, May, 20, 1858.

In view of the above recommendation and its general acceptance, I hereby withdraw the call for a State Convention, issued by me, for the 8th of July next, and earnestly request the American Republicans of the State to accept it, and participate in the election of Delegates to said Convention.

By order of the State Committee.

SAMUEL TODD, Chairman.

Attest—Edward M'Pherson, Secretary.

Carlisle May 31, 1858.

To the Americans of Pennsylvania:

The above recommendation having been submitted to me for my approval, after consultation with the majority of the members of the American State Committee, and a large number of the prominent Americans of the State, I cheerfully adopt it as our call for a State Convention, and urge the members of the American party throughout the State to participate in the election of delegates.

H. BUCHER SWOOPE,
Chairman of American State Com.

Clearfield, May 29, 1858.

Inasmuch as the above recommendation and calls point out the plain road to practical, decisive, and enduring victory over the present National Administration and its treasonable and sectional policy, I therefore request the Republicans of Pennsylvania to unite in the election of delegates to the above Convention. WM. B. THOMAS

Chairman of the Republican State Committee.

Philadelphia, June 1, 1858.

Opposition State Convention.

We publish above the call for a State Convention to be held in Harrisburg, on Wednesday, the 14th day of July next, for the purpose of nominating State Officers and the transaction of such other business as the exigencies may demand. In remarking upon this call, the Harrisburg *Telegraph* says that the ground upon which action is desired, and co-operation invited, is broad and comprehensive. There is in it no policy broached that should not secure for it a hearty and generous response, and that is not eminently just, conservative and national.

In the next State contest, the result will be upon the issues forced upon the people by the Kansas policy of the Administration, and will be deemed, both at home and abroad, either as an *endorsement or condemnation* of the President's course. As to the sentiment of the people of the State, there can be no misunderstanding—it is overwhelmingly opposed to the Lecompton swindle; and were the direct issue presented to them, there would be a decided rebuke given, by their decision, to the political leaders of the North who have aided the South in foisting upon the people of Kansas a Constitution which is not their choosing, and entailing upon the country at large all those evils which have grown out of renewed and unnecessary agitation. All, then, whatever may have been their political proclivities, who are opposed to the Administration policy, should rally upon the broad platform presented by the call. The time has gone by for hair-splitting adherences to the names or tenets of party. Political Democracy has drifted far from its ancient landmarks, and in its confession of faith presents to its disciples but one creed, and that is SUBSERVIENCY TO THE SLAVE POWER. The Kansas policy of the Administration is the embodiment of that creed, and upon it the President's party have staked their all. Those of the Democracy who were compelled to take issue with the President upon this Kansasism have been denounced, and forced without the pales of the party; and their acquiescence in Mr. Buchanan's policy is now boldly announced as the only condition upon which they can be again taken into fellowship.

In view of these things, then, the importance of a union of all citizens opposed to the Lecompton swindle, must be apparent; and the hope is expressed that there may be an action corresponding with the universal sentiment of the Opposition. The question—and the only one—involved in the approaching canvass, is, Shall Pennsylvania *endorse* the series of outrages which have been perpetrated by the Administration, at the bidding of the Slave oligarchy, upon the people of Kansas? Or shall our proud old Commonwealth, in response to the heartfelt sentiment of her people, speak out a bold and indignant *rebuke?* These are the views, as near as we can gather them, of the entire Opposition to the Administration policy with regard to Kansas; and such are the inducements which will be urged for a thorough organization.

Shall we divide and be defeated, as we have been for three years past? or shall we unite and be victorious, as they did this Spring in Philadelphia, and as we did in 1848 and in 1854? Shall we quarrel, and again elect other men like Buchanan? or shall we harmonize, and again elect men like Taylor and like Pollock?

We speak for little Union, and say that she will hail this united effort with rapture, and will present—as she has ever done—a united front against a common foe to Policy and Right. ☞ And remember that under all the circumstances, PENNSYLVANIA IS THE BATTLE GROUND OF NEXT FALL'S CAMPAIGN. If Buchanan is sustained, he and his party will feel emboldened to yield to any new demand of Slavery; if defeated, it will check and paralyze their movements.

THE ATLANTIC TELEGRAPH.

It is probable that the Atlantic Telegraph Squadron, having aboard their wonderful piece of mechanism, are about leaving the shores of Great Britain. As there is scarcely a person among your readers who does not feel somewhat interested in this great international enterprise, I tho't this short article might be read with interest. The latest news from the squadron leads us to infer that by this time they have completed their experimental trip, testing their new paying out and recoiling machinery. After thus experimenting it was expected that they would rendezvous in the harbor of Cork, in order to make any necessary alterations in their machinery, and to complete their preparations for a final departure. It was thought that by about the 10th of June they would all be ready for sea. They will sail for the middle of the proposed route, and there joining the two portions of the cable they will separate—the Agamemnon, of the English Navy, sailing towards Valentia, Ireland, and the Niagara, of the U. S. Navy, towards Trinity Bay, Newfoundland. Each of these vessels has over fourteen hundred miles of the cable aboard. A powerful steamer will accompany each of these paying out vessels, so that in case of any derangement of their engines the escort will take its crippled partner in tow. The Niagara will have a steamer of the English Navy to accompany her. Our country would have been saved the mortification of showing our poverty to the world in such a conspicuous manner, had it not been for the unfortunate attack of the yellow fever aboard the Susquehanna. But, as an exposure of poverty among individuals often lead to renewed exertions to avoid future mortification, so let us hope that this may assist in awaking Congress to a sense of duty.

The present plan of laying the cable, differs from the one adopted last year, as, then, the attachment was made first to the coast of Ireland with the Niagara's portion of the cable, and from thence all the vessels sailed together along the route intending to connect with the Agamemnon's portion as soon as the Niagara's became exhausted. As the greatest risks are caused by rough weather, it is easily seen that by the adoption of this plan the vessels will be engaged but half as long in the act of laying the cable, and of course the chances of success, other things being equal, vary as two to one in favor of the present plan. In case of any interruption of the electrical current by the cable being damaged, but not parted, then the old plan has the advantage, being better adapted for finding the flaw. Each has its special advocates.

It is probable that by the 17th of this month the squadron will reach the proposed point of junction. If the weather be favorable, the connexion would be made immediately. About the later part of this month, we may be expected to listen with anxiety to the swift words as they rush along their trembling path announcing to the whole enlightened world the success or failure of this perhaps the greatest and most daring contest ever undertaken between mind and matter.

Last year, as it was my lot to gaze on the signal bunting flying in the Niagara's rigging announcing to a thousand anxious hearts the thrilling sentence, "*The Cable has parted,*" I felt as if I never wished to witness a scene like that again. We could not have felt worse if we had just lost some near and dear friend. All our pride and honor seemed for a time to depend on the strength of that frail thread, as it reeled from the Niagara's decks and passed into the deep blue sea. "The Cable has parted!" The interest of the occasion made those few and simple words reach the very acme of eloquence. It is to be hoped the same fate does not await the present expedition. Truly, the chances of success are more than overbalanced by the chances of failure. If the Cable does part again, although each time it involves such enormous pecuniary loss, I have no expectations of its being the last attempt. Although the difficulties are great, they are not insurmountable. "The Cable must be laid." The Anglo-Saxon race have said it, and it must be done. With the favors of Providence together with the true scientific skill of the present age, we have the most lively hopes of the final success of the enterprise.

If successful in this trial, Americans may have the pleasure of reflecting that some of our own countrymen have been leading men in its accomplishment. The latest intelligence from England states that Professor Hughes, an American Electrician, has had much greater success in transmitting a rapid electrical current through the Cable than the most earnest effort of any other electrician. If he is entirely successful, his method will probably be adopted, and he be placed at the head of the electrical department. Cyrus W. Field, Esq., is at the head of the financial department, and W. E. Everett, Chief Engineer U.S. Navy, is at the head of the engineering department. Let us wish them success, and wait patiently for the result. G.

DEATH OF COM. JONES.—A Morse cograph from Washington announces the death of Captain Thos. Ap Catesby Jones, of the U. S. navy. He was born in Virginia, and entered the service in 1805. In the war of 1812, he commanded a gunboat flotilla of 23 guns, which engaged a British force of 50 barges or boats, carrying 42, operating against New Orleans, in the action with which he was disabled by a shot. He had command of the Pacific squadron in 1842, when, believing that Great Britain was about to take possession of Monterey, Mexico, he anticipated the design and took possession himself, supposing that war had been declared. He was recalled for this act, but again held command of the Pacific squadron in 1848.

A Washington correspondent of Forney's *Press* says, "The war upon the friends of Judge Douglas continues with unabated bitterness. There is a combination here resolved to persecute Judge Douglas to the uttermost, and they manage to surround the President all the time. What renders their course more infamous is the fact that at this moment the office-holders of the Administration in Illinois are hard at work making a coalition with some of the Republicans to defeat Douglas and the regular Democratic ticket.

The Iowa State University is so severely straightened in its finances that the trustees have resolved to suspend operations for a year.

Sunday newspaper selling is to be suppressed by the new Mayors of New York and Philadelphia.

MUSIC PORTFOLIOS, &c., made to suit customers.

Lettering and Binding heretofore done by the Milton Binders, can be executed by us in a *corresponding style,* as we have their tools, types, and designs.

☞ A good Bindery has long been desired in this vicinity, and we can therefore most respectfully solicit the public patronage, trusting that it will be sufficient to repay the outlay and risk. ☞ Rent, tools, stock, and workmen all requiring money, we shall expect *PAY ON DELIVERY* of all work. ☜ We intend to charge moderate, REASONABLE and uniform prices, on the "Live and Let Live" principle—and hope to make it a *permanent* business.
