

Lewisburg, Pa.

FRIDAY MORNING, JUNE 18, 1858

ADVERTISEMENTS—Manufacturers, Merchants, Mechanics, all who wish to buy or sell—will do well to employ the services of the Lewisburg Chronicle, which has a large and experienced staff of writers, and is published daily except on Sundays and holidays.

See New Advertisements.—Two columns of New Advertisements today, to which we invite general attention.

Wm. Jones, Esq., Notary Public, has built and removed into a neat Office, adjoining his residence, lower end of Market street, opposite the Presbyterian church property.

The Town Property advertised today, offers really one of the best chances for a good investment. It is but once in a long time that there is such an opening to procure both a good business place and a private residence on Market Square, Lewisburg.

Delegates from 48 of the 100 counties in Illinois—representing the Buchanan wing of the Democratic party—met in State Convention last week and nominated a SECOND State Ticket, in opposition to the REGULAR or Douglas ticket. The Administration evidently thus opposes the regular nominations in Illinois—but on killing Douglas and all his friends. Of course, the Republicans will make a clean sweep this year in Illinois.

We have frequently been called upon to do printing in colors, but the old process was too slow and expensive to be profitable. Having obtained for this county the superior manner of printing colors, invented by M. M. Kohrer, of Lancaster, we will hereafter endeavor to supply orders. [Persons wishing Job Work, will best accommodate us by calling Friday, Sat., Mon. & Tues., when our press is not occupied by the paper forms.]

Col. Eli Sifer is spoken of as a proper candidate for Congress from the Des Moines district. With such views in Congress as Secession from Union, Secession from Junia, Secession from Center, or other equally sterling men, Central Pennsylvania might well feel proud.—Lewisburg Gazette.

Aye! neighbor FRYNSINGER—practical common sense, every day, business men—who would not spend time uselessly, but would urge forward legislation—be on hand when the most important thing, voting, is to be done—and vote about right, every time. We do not know that any of them want to run, however, but none the worse for that.

Lewisburg Post-Office removed.—About Tuesday of next week the Lewisburg Post-Office, requiring larger accommodations for an enlarging and prosperous community, will be removed, about half a square, up street, to the room now Charles Penny's saddler shop. (Col. Penny goes up stairs to the late Old Fellows Hall—and the queer chaps retreat to their elegant new Hall over W. & J. H. Brown's new store, still further up street.—Westward the star!—Ae.

Charles R. Bucklew, Esq., has been rewarded for his long devotion to Slavery, by the appointment, from Pres. Buchanan, of Minister to Ecuador, in South America—\$7,500 a year. We have watched with interest the careers of GROW and of BUCKLEW since we were wont to print the "schemes" for their performances at Harford Academy, in the Susquehanna county backwoods. The former has become noted for his liberty principles, as the latter for the opposite. While we have lamented Bucklew's political career, as much as we admired his talents, we hope his health may be improved by the change of climate and of labors. His absence makes a vacancy in the State Senate and in the Commission to revise the legal code.

Our Book Bindery.—The following testimonials of the skill of Mr. DOWNING are voluntary:—We have examined some books of S. Weirick, Esq., bound by Messrs. Worden & Cornelius at their established Book Bindery in Lewisburg. The workmanship is perfect. We had an opportunity of examining a large number of books executed at that bindery, and we are compelled to say that for neatness of finish and strength of construction, the work is not surpassed by any that we have ever seen.—Sunbury Gazette.

We mean exactly what we say, when we claim to do binding as well and as cheap as it is done in the city. Over 200 books &c., have already been bound by us, and we invite these having them in possession to show to their friends and neighbors, and let them "speak for themselves."

Ever prompt and punctual is Col. Goddy with his Lady's Book. The July No. now before us, is No. 1, of its fifty-seventh volume, or the twenty-ninth year of its publication. The opening chapter—"Nothing new under the Sun"—is an interesting description of some of the domestic utensils formed in Pompeii, (which much resemble, and in some instances surpass, similar implements of the present day,) and also between 60 and 70 engraving and pictures of various matters doubtless of interest to the ladies.

Rev. Dr. Malcom has sold his Mansion property in Lewisburg, for \$7,200, to the widow of the late John Chamberlain.

A Union County Man, Murdered!—Among those who were shot in cold blood in the last inroad of the Border Ruffians upon Kansas, was announced "Mr. COLPETZER, of Pennsylvania." We are informed that Mr. Colpetzer formerly resided in Union county, where he married a Miss Onwig, some few miles from Mifflinburg. The widowed woman has written home in her distress after this cruel bereavement—this ruthless murder of the harmless husband of her youth—and asks some of her friends here to go and assist in gathering in her crops and securing the little property they had acquired since their marriage. Mrs. Colpetzer's case comes home to the public of this county with unmistakable power and point! An innocent, unoffending man, murdered only because a Free State man, and his murderers unpunished!

The Democracy of Schuylkill county met last week, in the Court House, for a County Convention, when a fight ensued between the Irish under one Cochran, and the Dutch over one Hender—both Post Office aspirants. After a long contest, the Sheriff and police turned them all out of the Court House, when they organized two separate meetings, called two County Nominating Conventions, and appointed two Standing Committees. The Dutch declare they have been ruled by the insolent and ignorant Irish Catholics long enough, while the Irish retort that they will "sell the stupid Dutch to pay the State Debt." We wish them both all possible success in their present mood.—Meanwhile the American and the sensible foreign population of the country are consolidating for action in the manner recommended by Gen. Cameron in his speech on our first page, and indicate a mighty revolution next fall.

The Buchanan pole in Lewisburg, long the sole survivor of the contest of '56, having become as destitute of every letter of its motto as the party is of genuine Democracy, was this week laid low by the willing hands of a son of Africa. It had been already sent out by the Administration, and was now being distributed by Wilson Rilly. As both are competent and faithful Editors, who have done the State some service, we are put to it to know which to throw up our caps for—pity they can't both go!

The New York Herald is deserting the Buchanan administration, whose downfall it foreshadows. The defeat of the Democracy in 1850 is assumed, and as foremost and most available for President in the Opposition ranks, the Herald places Senator CAMERON of Pennsylvania. It is about time we tried a Printer President.

The wound received by Gen. Lane in the contest in which he killed his antagonist, is very severe, threatening the lock-jaw and amputation. It was a sad affair all around, and Lane it seems to be thought resented his injury in an unnecessarily severe manner.

Joseph R. Chandler, Esq., the eminent convert to Romanism from the Whig camp, has been appointed Minister to Naples. A fit man in a fit place—but he would not have reached it if he had remained a Protestant.

Just before going to press, we received an account of the Commencement exercises at New Berlin—which, with editorial—is crowded out by long advertisements.

For the very best Ice Cream and choicest Strawberries, consult our neighbor, CHARLEY HEINER.—

Congress adjourned on Monday. A synopsis of its proceedings next week.

The Legislature of Maine at its last session submitted to a popular vote the question of "Prohibition" or "License" as to liquor selling. As far as heard from, the vote is ten to one for "Prohibition."

Congress voted to grant \$50,000 for a Post Office at Harrisburg. The Democracy think Pennsylvania is safe, anyhow, and their money must be used where sings are more uncertain.

The English carry 357 guns in the Mexican Gulf, and the Americans 182. If our hot heads want a brush, they had better get a few more guns in order to have a fair fight.

A gold medal has been presented to Mr. Grow, of Pennsylvania, by the Keystone Club of Kansas, upon which is inscribed, "First Blow for Freedom."

Birds and toads are among the best helps in the destruction of insects, and both should be protected.

They claim to have eighteen "cities" in Wisconsin.

Interesting Foreign News.—The U. S. M. steamer Arago, Capt. Lines, from Bremen and Cowes, June 2d, at 4 P. M., with passengers, mails and merchandise, arrived at New York about noon Tuesday.

In the House of Commons, June 1st, Mr. Lindsay begged to ask the Under Secretary of State for Foreign Affairs whether it was the case that several merchant vessels belonging to the United States, engaged in the trade with Havana, or with the West coast of Africa, had been fired into, boarded, searched, and detained by British cruisers; and if so, by what authority, or under whose instructions, did the commanders of those ships so act?

Mr. Fitzgerald regretted that he could not give a satisfactory answer last night to the question of the honorable gentleman, as he was aware the gentleman was anxious that some answer should go out by the mail which left this evening. He begged to say, that, in reference to the cases which the honorable gentleman stated to the House last night the Government had no official knowledge of them whatever. The statement, merely cut from a New York newspaper, had been forwarded to the Government by the British Ambassador at Washington. With regard to one case, that of the "Cortez," he had come to a different conclusion from that of the American newspapers, and was inclined to think that the capture was properly made. With regard to the other cases, he could only say that Her Majesty's Government would deeply regret that any such occurrence should have taken place, and that they were as anxious as the Government of the United States that no such occurrence should take place.

The real difficulty arose from the fact that slaves were almost invariably hoisted the American flag. Her Majesty's Government had signified to the Government of the United States that they were ready to adopt such measures as the latter might suggest, to meet that difficulty. Orders had been already sent out by the Admiralty, giving peremptory instructions to our officers to observe the utmost caution, and those instructions would again be carefully repeated. [Hear, hear.]

PLYMOUTH, SATURDAY.—The Atlantic Telegraph squadron sailed on their experimental trip this afternoon, for the purpose of testing machinery and rehearsing various operations connected with the laying of the cable. They reached the offing at ten minutes past 5 P. M., and steamed in line for the northeast, in the following order: Gorgon, Valorous, Agamemnon and Niagara. The squadron will return to Plymouth on the 4th of June, previous to its final departure to lay the cable.

Col. A. K. MCLURE, of Franklin county, and EDWARD M'PHERSON, Esq., of Adams county, are both proposed for Congress in the district now misrepresented by Wilson Rilly. As both are competent and faithful Editors, who have done the State some service, we are put to it to know which to throw up our caps for—pity they can't both go!
