"Why not, if he looks like this one, and was spirited, well-born, and amiable ? But I can hardly keep from laughing. See, he doesn't mistrust what we are saying."

In this treather it will be seen that the object has been to give the farmer that kind of information which enables hun to make practical application to bertifize his hand and increase his grain, fielder and pasturenge. The doctrines, as tanght by this manuring, and folder, and pasture cul-itation system, are rational, clear and wident, and ag-gest an improvement in the mode of agriculture hitheries unknown to our farmers, and which, if adopted, and carefully practiced can not fail to advance the interests of the farming community. Such a work has been much waveted, and thigh our farmers, and which her feth, but carefully practiced can not fail to advance the interests of the farming community. Such a work has been much wanted, as it fills a wold which has long been field, but which there has hither to been no attempt to supply.
