Look Before you Kick.

A minister recently, while on his way to preach a funeral sermon in the country, called to see one of his members, an old widow lady, who lived near the road he was traveling. The old lady had just been making sausages, and she felt proud of them, they were so plump, round and sweet. Of course, she insisted on her minister taking some of the links home to his family. He objected, on account of not having his portmanteau along. This objection was soon overruled, and the old lady, after wrapping them in a rag, carefully placed a bundle in either pocket of the preacher's capacious overcoat. Thus equipped, he started for the funeral.

While attending to the solemn ceremonies of the grave, some hungry dogs scented the sausages, and were not long in tracking them to the pocket of the good man. This was a great annoyance, and he was several times under the the necessity of kicking those whelps away. The obsequies at the grave completed, the minister and congregation repaired to the church where the funeral discourse was to be preached. After the sermon was finished, the minister halted to make some remarks to his congregation, when a brother, who wished to have an appointment given out, ascended the steps of the pulpit, and gave the minister's coat a hitch, to get his attention. The divine, thinking it a dog having a design upon his pocket, raised his foot, gave a sudden kick, and sent the good brother sprawling down the steps.

"You will excuse me, brethren and sisters!" said the minister, confusedly, and without looking at the work he had just done, "for I could not avoid it. I have sausages in my pocket, and that dog has been trying to grab them ever since I came upon the premises!"

Our readers may judge of the effect such an announcement would have at a funeral.

THE RAREY FAMILY.—The "Rarey family" consists of four brothers, who have been raised from boyhood in Groveport, Ohio. Their father was of German descent, a farmer and raiser of stock, and all of the boys were brought up on the farm, and they have followed that pursuit more or less to the present time. They are all, however, in possession of the art of "horse taming." The eldest is William H., who made the first discovery of the principles of the nature of the horse that led to the perfection of the system that is now astonishing the world. The second is Charles W., who is teaching the system in the western part of Ohio. The third is Frederick, who now lives on a farm about two miles from Groveport. The fourth and young is John S., who, together with his oldest brother William H., has devoted his life to the study of the horse, is now teaching the nobility of Europe the results of his experience.

Daniel Webster penned the following sentiment: "If we work upon marble, it will perish; if we work upon brass, time will efface it; if we rear temples, they will crumble into dust; but if we work upon our immortal minds—if we imbue them with principles, with the just fear of God and of their fellow men, we engrave on those tablets something which will brighten to all eternity."

ORTHOGRAPHICAL.—A shoemaker received a note from a lady to whom he was particularly attached, requesting him to make her a pair of shoes, and, not knowing exactly the style she required, he dispatched a written missive to her, whether she would have them "*Wround, or Eq. Toad.*" The fair one, indignant at this nice specimen of orthography, replied "*Knether.*"

FOLEY TURNED LOOSE.—Mr. Foley, the Ohio member of Congress who "rit a letter," expressing an ardent desire to be "turned loose" in his district, has been gratified in that wish. The democratic convention to which Mr. Foley looked for a re-nomination, forgot to give him any votes. An anti-Lecompton democrat was nominated.

The Albany Evening Journal says that a Democratic paper in the interior of the State thinks they could carry the next election, easy enough, "if the Kansas question was only out of the way." Perhaps they could. A man might row from Lewistown clear up to Buffalo, if Niagara Falls was only out of the way.

Prentice of the Louisville *Journal*, says: "One of the Administration papers in Pennsylvania speaks very despondingly of the prospects of its party in that State. It evidently thinks them blue as indigo, as blue as the sky, as blue as a Highlander's naked legs in the winter, as blue as a dead man's nose, almost as blue as Mr. Buchanan's old federalism."

Gen. Calhoun's commission, as Surveyor General of Kansas and Nebraska, having expired on the third of July, the President has tendered the office to Gen. Ward B. Burnett, of New York. The latter can not possibly contrive to do as much mischief in his term as the former tried to accomplish.

The following dispatch, says the Toledo Blade, went through by Telegraph a month or two since: "Charley and Julia met at S———'s yesterday—quarreled and parted for ever—met again this morning, and parted to meet no more—met again this evening, and were married."

"You are an Irishman," said a fellow tauntingly to his neighbor.

"Well sir, I am no more responsible for having been born an Irishman than you are for having been born an ass."

JOB PRINTING!

We have recently added a number of varieties of JOB TYPE to our former large assortment, making

of type, large and small, with a good variety of borders, and most respectfully solicit a trial of them by those wanting anything in the way of

HANDBILLS,

Tickets, Blanks, Labels,

CARDS, Circulars, Bills, &c. The use of these by merchants and business men generally, is more common in most communities than in ours. A larger range of operations may be gained by a constant "keeping before the people" of the TRADE, OCCUPATION or PROFESSION of any man: and a nearer approximation to a Cash business may be made with patronage attracted by this means.

We think we have the materials and the experience—the taste and the tact—to execute all kinds of Jobbing expected from a Country Office, in a style not excelled—on reasonable terms—and in prompt time. CALL AT THE "Chronicle" Office.

NORMAL SCHOOL,
Freeburg, Snyder County, Pa.

THE Fourth Semi-Annual Session of this Institution will commence on *Tuesday, July 5*, and continue **22** weeks. Its location is pleasant and healthy. Buildings new and commodious, and Terms low. It is the constant aim of the Teachers to impart sound instruction, and carefully develope and direct the Mental, Moral and Physical energies of the students. The course of study will thoroughly prepare those pursuing it for College, the study of a Profession or business pursuits. The

NORMAL DEPARTMENT

Of last Session exceeded beyond expectation, and its members passed creditable examinations. Many young ladies and gentlemen attended it who have procured schools and are now among the most successful teachers. In response to affording others the same facilities for thoroughly preparing themselves to become Teachers, this Department will be re-opened—on the 22d of MARCH—under still more favorable auspices. The Public School system will receive a mighty impetus unless some Teachers are provided for it, and this can only be done by the exertions of Directors, Teachers, and friends of Education. Their cooperation is therefore respectfully solicited.

Great Trial of Reapers

At LIMESTONEVILLE, June 25, 1858. By especial request and written challenge of the agent sent to us to meet MANNY'S Patent Grass and Grain Reaper with WOODS' great Improvement, we met on Mr. Weidenhamer's farm at Limestoneville, Montour Co. Pa. on the above date. We also met a KETCHUM Machine, belonging to Mr. Eshbach, which worked very well.

The machines went to work in the forenoon and worked untill noon, when the Manny men slipped off, brought another Manny's Reaper with Wood's great(?) improvement, worked for some time, and then positively refused to finish the piece of mowing allotted to them! Mr. Weidenhamer went in with the LEWISBURG Machine and finished the field.

Being no book publishers, we do not deal in "cooler covered" pamphlets filled with pretty pictures and glowing certificates, some of which are of questionable propriety, especially such as are referred to in the Manny "primer," dated June 29, 1857, respecting a trial in Lebanon county, signed by John A Shaak and Michael Ebersole, the balance of the Committee, four out of six, to wit: Peter Kellinger, Abraham Brendell, Michael Bomiger and John Stauffer, having given their certificate decidedly in favor of the LEWISBURG Reaper.

We respectfully refer to the following persons who have received LEWISBURG Machines, some of which have been delivered and started, and the balance to be delivered this week:

I had a Manny Machine on trial last season, and it is at my home now, and the York State gentlemen can come and take it away as soon as convenient.

KIRBY'S MOWER & REAPER.

WE are Manufacturing the above mentioned excellent Machine for Eastern Pennsylvania and the neighboring counties in New York, and invite the particular attention of Farmers to the following features of KIRBY'S Mower & Reaper, which we believe to be superior to all others in use in the following particulars: It is the lightest in use—strong and durable—simple in construction—easily worked—adapted for horses or oxen—requires much less draught than ther machines—has no side draught, yet it cuts a wide swath—works on rough ground where no other machine can follow it—very difficult to be clogged in any kind of grass, be it wet or dry—not liable to get out of repair—is composed principally of iron—*is a perfect combined machine, working equally well whether mowing or reaping—and is the cheapest in price*, the Mower being only $100, and the combined machine $120—making it altogether the most desirable Mower and Reaper in the market.

☞ Farmers wanting RELIABLE Mowers and Reapers, should by all means see ours before making up their minds to buy any other. Additional and interesting information concerning the KIRBY Machine is contained in our *Illustrated Catalogue*, which describes also our other Machines and Implements, among which are

A Call to Farmers.

Farmers, drop your tools—pause a little—read this, and reflect!!

"FARMERS' PROMOTION BOOK."

A NEW and scientific manuring system, for the cultivation and increase of all kinds of grain, grasses, fodder and pasture, upon all kinds of soil, proved by actual experiments and based upon evident truths, designed to improve agriculture in all its branches; represented by upwards of one hundred and fifty engravings of the most valuable grasses and plants connected with the system, by DR. C. G. REINHOLD, of Bealsburg, Centre Co., Penna.

RECOMMENDATION.

In this treatise it will be seen that the object has been to give the farmer that kind of information which enables him to make practical application to fertilize his land and increase his grain, fodder and pasturage. The doctrines, as taught by this manuring, and fodder, and pasture cultivation system, are rational, clear and evident, and suggest an improvement in the mode of agriculture hitherto unknown to our farmers, and which, if adopted, and carefully practiced can not fail to advance the interests of the farming community. Such a work has been much wanted, as it fills a void which has long been felt, but which there has hitherto been no attempt to supply. And as farmers of Centre and Huntingdon counties we recommend the work to every farmer, as they will reap the greatest possible benefit from it.

DENTAL CARD.

THE new method of inserting artificial Teeth, Gum, &c., known as **Allen's Continuous Gum Work,** is, without exception, the best improvement ever made in the art of Dentistry. This work, when properly constructed, as the most beautiful the cleanest, combines the greatest strength with durability, and adds more to a clear and distinct articulation, than any other kind of

work ever brought before the public. And not only this, it is a beautiful dentistry in connection with this style of work, as one can give the face its natural expression, without, in the least, interfering with the usefulness of the teeth in mastication.

I would take this method of informing those interested that I have purchased the Patent Right for the valuable improvement, of the inventor, Dr. Allen, (now of New York,) for this and several adjoining counties, and that I am ready to furnish on artificial Teeth and Gums that will compare favorably with anything in that line that has ever been made in this or any other country. Ask all, and especially those that need teeth (if they have engaged them or not,) to call, and examine for themselves.

ARE YOU INSURED AGAINST LOSS BY FIRE?—There are but few who receive sympathy who incur loss by neglecting this most *necessary* and *substantial precaution*. We often see it announced that persons have lost their stocks of Goods and Furniture, and results of years of industry swept from them by the devouring element over which they have no control but by being insured.

Insurance protects you from the incendiary, negligence of servants and the casualties of your neighbors. It will impart confidence to your creditors, and give a character of prudence and promptness to all your business transactions.

It requires but a very small sum to insure in sums ranging from $100 to $1000, and yet less to those who have no insurance upon Goods, Furniture, or anything else. If your stock is small, still the loss to you might be serious.

MUREA'S CELEBRATED

LIQUID GLUE!

THE GREAT ADHESIVE. This useful article now invented, for mending, repairing, &c., in use in nearly every other place, and in every family, is now known. ALWAYS READY FOR APPLICATION. Sold wholesale and retail at the Manufactory, No. 48 North Ninth St., Philadelphia. Also, Agents for Lewisburg, Union Co., Pa. Muckle & Fellows, Lewisburg; Fetterolf & Arthur, Troy, etc. It has been proved by actual experiment to be of greater strength than any other article in the market, and will resist the action of boiling water for days, leaving no stain where the parts are joined. Sold in Cases, containing 1 dozen bottles, with brush in cork, for $3. Within the last three years upwards of 100,000 bottles of this justly celebrated LIQUID GLUE have been sold, and the demand is increasing daily. Manufacturers have found it to answer well in the manufacture of furniture, &c., and it is now used by one of the largest manufacturers in Philadelphia. Directions accompany each bottle, so that all may use it with success. Manufactured and for sale wholesale and retail by WM. C. MUREA, Proprietor,
No. 48 North Ninth St., Philadelphia.
