BALLOON ASCENSION .- Qu Monday week last, Mr. Pusey made a balloon ascension from Market Square, Williamsport. The balloon was let loose from its moorings a few minutes before two o'clock, and rising to a good height, took a northerly course. The day was clear and the air very calm. After being up a short time the aeronaut descended upon the farm of Joseph Gilmore, about a mile north of the starting point, and returned to the square.

Wm. J. Clark, who is to be hung at Danville, on the 24th of September, for the murder of his wife, Catharine Ann Clark, has published a pamphlet declaratory of his innocence. We merely glaneed over its pages, and find it a tissue of balderdash and absurdities, expressed in bad English, without a shadow of argument or reason to sustain his position.

On Monday morning, last week, the bridge of the Lehigh Valley Railroad, near Allentown, broke down with a train of empty coal cars that precipitated into the river, and the engineer and firemen by sir killed.

Dr. Wilcox, of Elmira, committed suieide by taking prussicacid on Friday week. The cause assigned for the rash act was a surgical operation unfavorable in its results.

Bupping .- This is the period for "budding" fruit trees. After this month it will be too late. The cherry, especially, is easily propagated by budding, and many, who failed to graft the pear in the spring, resort to this substitute.

65.It is a most undoubted fact that Dr. Saxford's Is violents, or layer lemedy, is one of the greatest discoveries made in modifine the past century. It has been a study of the Dr., during twenty years' practice, to find what particular organ, when diseased, caused the greatest requisitor of the system, and the most liablete disease: which if kept free from disease, the presentative of Despois, Janufiles, general distilly, Ac., white, last but far from least, we more tain consumption; for our experience it that more cause of consumption over from desased liver than from all other causes juit together.

Taking this to be a correct hypothesis, we have but to find a temody with which to correct the liver, and we have a cure of nearity all the disease we are subject to by simply using a presentative. That the Invigorator is such a reined, is beyond doubt to all who try it, for its virtues are such that for all complaints arising from liver derangement, it is an unfaining remark, while as a family medicine, for all diseases of the stomach or bowers, which are caused in a greater or less segree by liver derangement, it is the saliest, surest and most efficacions remedy known.

DOES Disease originate in IMPURITY OF THE BLOOD?

This is a question of vital importance, and one which has never been satisfactorily disposed of by the professors who teach the heating art. Some maintain (and especially the old sich of Physiciants that life lives in the blood, and therefore all discusses originate in it; but modern science avers that alments have their critic in both the solids and fluids of the body. That the inter-preparadorate however, is a fixed fact, and medical shift has clearly demonstrated that at least two thirds of the life that human fiesh is heir to, have their source in an
