THE LIGHT IN THE WINDOW.

BY W. E. EATON.

In a lower room in one of those narrow alleys of a great city, where poverty has her dwelling place, were a poor widow and her son. The boy stood at the window, gazing out into the murky darkness, thinking perhaps who would take care of his poor mother when he was gone, or looking forth into the future with youthful hopes and bright anticipations. But he saw not his mother bending over the little trunk and arranging, with a mother's care, each article; he saw not the doubts and fears which filled her breast, and, like harbingers of evil, weighed heavily on her own heart and filled her eyes with tears. No; and it were better that he should not.

The boy's dreaming was at length broken by his mother's voice: "Charlie, I have forgotten one thing. Won't you run down to the store and buy it?"

The boy seized his hat and opened the door, but as he looked out into the heavy darkness he turned and said:

"Mother, it is dreadful dark! PLACE THE LIGHT IN THE WINDOW, so that I can find my way back."

The morn had come, and the time when the mother must take leave of her boy—her only child: when she must give him up to the cold, unfeeling world, and see him breasting with its angry surges.

"Charlie," she said, "take this—it is your mother's last gift. It is hard to send you forth into the world all alone, but forget not the lessons you have learned at home. Beware of evil companions! Meet the scoffs and jeers of those around you with a firm heart and turn not from the true way! Beware of the intoxicating cup! a drop may prove fatal—touch it not!

"Charley! do you recollect the LAMP I PLACED IN THE WINDOW last night to direct you home? When temptations assail you, when evil ones are around you, remember the pages of this sacred Book, and let them be as a lamp in the window, not only reminding you of a mother's instructions and a mother's love, but guiding you heavenward to that holier and happier home above."

More she would have said, but tears were filling her eyes, and she would not make heavier his heart at parting. So placing her hand upon his head—it might be for the last time—she gave him her benediction:

"God bless and preserve thee, boy—good bye."

Noble, TRUE mother! Would that all were such! Where, then, would be all this intemperance, destroying thousands of young men, and crushing? Where, then, would exist all this crime, which conceals not itself at midnight, but stalks abroad openly at noonday?

Mothers! on you rests a great responsibility. To you is given the mighty work to moralize the world. Now, in the susceptibility of youth, must those influences be brought to bear, which will fit them for true manhood.

"Little feet will go astray,
Guide them, mother! while you may."

Impress upon their minds, now, those noble, elevating truths, which, when the darkness of sin envelopes them, shall be as lights in the window, leading them onward in the straight and narrow way.

Necessity of Exercise.

The benefits of exercise, to those whose occupation does not lead them to make any physical exertion, can not be too highly estimated. The body must undergo a certain amount of fatigue to preserve its natural strength, and maintain all the muscles and organs in proper vigor. The activity equalizes the circulation, and distributes the blood more effectually through every part. The muscles, during exercise, press on the veins, and help forward the current by quickening every vessel into activity. The valves of the heart are in this way aided in the work of sending on this stream, and relieved of certain labor. When exercise is neglected, the blood gathers too much around the central region, and the oppression about the heart, difficulty of breathing, lowness of spirits, anxiety and heaviness, numerous aches and stitches, are evidence of this stagnation. People are afraid to take exercise because they fancy they want breath, and feel weak. But the very effort would free the heart from burden, by urging the blood forward to the extremities; it would ease their breathing by liberating the lungs from the same superabundance; it would make the frame feel light and active, as the effect of equalized circulation and free action.

A Large Colony.

Twelve hundred Welsh Baptists recently left New York on their way to settle upon a large tract of land near Knoxville, Tenn., purchased for them by agents previously sent over. Several entire churches came, and three of their pastors. These preachers are educated men, and able to preach in English as well as Welsh, but most of the colony speak and read only Welsh.

Sound Advice.

DON'T WORRY.—It is not work that kills men; it is worry. Work is healthy; you can hardly put more upon a man than he can bear. Worry is rust upon the blade. It is not the revolution that destroys the machinery, but the friction. Fear secretes acids, but love and truth are sweet juices.

JOB PRINTING!

We have recently added a number of varieties of JOB TYPE to our former large assortment, making

of type, large and small, with a good variety of borders, and most respectfully solicit a trial of them by those wanting anything in the way of

HANDBILLS,

Tickets, Blanks, Labels,

CARDS, Circulars, Bills, &c. The use of these by merchants and business men generally, is more common in most communities than in ours. A larger range of operations may be gained by a constant "keeping before the people" of the TRADE, OCCUPATION or PROFESSION of any man: and a nearer approximation to a Cash business may be made with patronage attracted by this means.

We think we have the materials and the experience—the taste and the tact—to execute all kinds of Jobbing expected from a Country Office, in a style not excelled—on reasonable terms—and in prompt time. CALL AT THE "Chronicle" Office.

Great Trial of Reapers

At LIMESTONEVILLE, June 25, 1858. By especial request and written challenge of the agent sent to us to meet MANNY'S Patent Grass and Grain Reaper with WOODS' great Improvement, we met on Mr. Weidenhamer's farm at Limestoneville, Montour Co. Pa. on the above date. We also met a KETCHUM Machine, belonging to Mr. Eshbach, which worked very well.

The machines went to work in the forenoon and worked untill noon, when the Manny men slipped off, brought another Manny's Reaper with Wood's great(?) improvement, worked for some time, and then positively refused to finish the piece of mowing allotted to them! Mr. Weidenhamer went in with the LEWISBURG Machine and finished the field.

Being no book publishers, we do not deal in "yaller kivered" pamphlets filled with pretty pictures and glowing certificates, some of which are of questionable propriety, especially such as are referred to in the Manny "primer," dated June 30, 1857, respecting a trial in Lebanon county, signed by John A. Shaffner and Michael Eby, the balance of the Committee, four out of six, viz: Peter Ashinger, Abraham Reichhill, Michael Lenhart and John Stoufer, having given their certificate decidedly in favor of the LEWISBURG Reaper.

We respectfully refer to the following persons who have secured LEWISBURG Machines, some of which have been delivered and started, and the balance to be delivered this week:

KIRBY'S MOWER & REAPER.

WE are Manufacturing the above mentioned excellent Machine for counties in New York, and invite the particular attention of Farmers to the following features of KIRBY'S Mower & Reaper, which we believe to be superior to all others in use in the following particulars: It is the lightest in use—strong and durable—simple in construction—easily worked—adapted for horses or oxen—requires much less draught than ther machines—has no side draught, yet it cuts a wide swath—works on rough ground where no other machine can follow it—very difficult to be clogged in any kind of grass, be it wet or dry—not liable to get out of repair—is composed principally of iron—*is a perfect cumbrard machine, working equally well whether mowing or reaping—and is the cheapest in price*, the Mower being only $100, and the combined machine $120—making it altogether the most desirable Mower and Reaper in the market.

☞ Farmers wanting RELIABLE Mowers and Reapers, should by all means see ours before making up their minds to buy any other. Additional and interesting information concerning the KIRBY Machine is contained in our *Illustrated Catalogue*, which describes also our other Machines and Implements, among which are

A Call to Farmers.

Farmers, drop your tools—pause a little—read this, and reflect!!

"FARMERS' PROMOTION BOOK."

A NEW and scientific manuring system, for the cultivation and increase of all kinds of grain, grasses, fodder and pasture, upon all kinds of soil, proved by actual experiments and based upon evident truths, designed to improve agriculture in all its branches; represented by upwards of one hundred and fifty engravings of the most valuable grasses and plants connected with the system, by DR. C. G. REINHOLD, of Boalsburg, Centre Co., Penna.

RECOMMENDATION.

In this treatise it will be seen that the object has been to give the farmer that kind of information which enables him to make practical application to refine his land and increase his grain, fodder and pastureage. The doctrines, as taught by this manuring, and fodder, and pasture cultivation system, are rational, clear and evident, and suggest an improvement in the mode of agriculture hitherto unknown to our farmers, and which, if adopted, and carefully practiced can not fail to advance the interests of the farming community. Such a work has been much wanted, as it fills a void which has long been felt, but which there has hitherto been no attempt to supply. And as farmers of Centre and Huntingdon counties we recommend the work to every farmer, as they will reap the greatest possible benefit from it.

DENTAL CARD.

THE new method of inserting artificial Teeth, Gum, &c., known as **Allen's Continuous Gum Work,** is, without exception, the best improvement ever made in the art of Dentistry. This work, when properly constructed, is the most beautiful the cleanest, combines the greatest strength with durability, and adds more to a clear and distinct articulation, than any other kind of work ever brought before the public. And not only this. By a beautiful discovery in combination with this style of work, we can give the face its natural expression, without, in the least, interfering with the re-balance of the teeth in mastication.

I would take this method of informing those interested that I have purchased the Patent Right for the valuable improvement, of the inventor, John Allen, now of New York, for this and several adjoining counties, and that I am now manufacturing an article of Teeth and Gums that will compare favorably with any thing in the line that has ever been made in this or any other country. I ask all, and especially those that need teeth (if they have ever tried them or not,) to call, and examine for themselves.

ARE YOU INSURED AGAINST LOSS BY FIRE?—There are but few who receive sympathy who incur loss by neglecting this most *necessary and substantial precaution*. We often see it announced that persons have lost their stocks of Goods and Furniture, and results of years of industry swept from them by the devouring element over which they have no control but by being insured.

Insurance protects you from the incendiary, negligence of servants and the casualties of your neighbors. It will impart confidence to your creditors, and often enables you to produce and procure to all your business transactions.

It requires but a very small sum to insure in sums ranging from $100 to $1000, and yet how many there are who have no insurance upon Goods, Furniture, or any thing else! If your Stock is small, call the Loss to you might be serious.

M'REA'S CELEBRATED

LIQUID GLUE!

THE GREAT ADHESIVE. Most useful article ever invented, for home store or office, surpassing in utility every other glue, mucilage, paste or cement now known. ALWAYS READY FOR APPLICATION, sets in fifteen Paper Cloth, Leather, Furniture, Porcelain, China, Marble or Glass. For manufacturing Fancy Articles, Toys, &c., it has no superior, not only possessing greater strength than any other cement, but adhering so quickly, leaving no stain where the parts are joined. Never Fails. Within the last three years thousands of bottles of this justly celebrated LIQUID GLUE have been sold, and the great convenience which it has proved in every case, has deservedly secured for it a demand which the manufacturer has found it, at times, difficult to meet; and to what he will be able to meet in the future, he refers to all who have used it, that they will not be induced to allow any similar article ever offered to the public.

Directions HOW TO USE the LIQUID GLUE accompany each bottle. Price 25 cents a bottle, or Three Bottles in a neat Case for 50 cents. Sold by Druggists, Fancy Goods Dealers, Stationers, and Toy Stores throughout the United States and Canadas. Three hundred and twenty-five Gross sold in one month, or THIRTY-FIVE GROSS A DOZEN.
