☞ The *Atlantic Monthly* for October, has the following poetic gem. The author's name is not given, but it breathes the spirit and puts on the peerless garb of JOHN G. WHITTIER.

THE TELEGRAPH.

Thou lonely Bay of Trinity,
Ye bosky shores untrod,
Lean breathless to the white-lipped sea,
And hear the voice of God.

From world to world, His couriers fly,
Thought-winged, and shod with fire;
The angel of his stormy sky
Rides down the sunken wire.

What saith the herald of the Lord?
"The world's long strife is done!
Close wedded by that mystic cord,
Her continents are one.

"And one in heart, as one in blood,
Shall all her people be;
The hands of human brotherhood
Shall clasp beneath the sea.

"Through Orient seas, o'er Afric's plains,
And Asian mountains borne,
The vigor of the Northern brain
Shall nerve the World outworn.

"From clime to clime, from shore to shore,
Shall thrill the magic thread;
The new Prometheus steals once more
The fire that wakes the dead!

"Earth, gray with age, shall hear the strain
Which o'er her childhood rolled;
For her the morning stars again
Shall sing their songs of old.

"For, lo! the fall of Ocean's wall,
Space-mocked and Time outrun!
And 'round the world the thought of all
Is as the thought of one!"

Oh, reverently and thankfully
The mighty wonder own!
The deaf can hear, the blind may see,
The work is God's alone.

Throb on, strong pulse of thunder! beat
From answering beach to beach!
Fuse nations in thy kindly heat,
And melt the chains of each!

Wild terror of the sky above,
Glide tame and dumb below!
Bear gently, Ocean's carrier-dove,
Thy errands to and fro!

Weave on, swift shuttle of the Lord,
Beneath the deep so far,
The bridal robe of Earth's accord,
The funeral shroud of War!

The poles unite, the zones agree,
The tongues of striving cease;
As on the Sea of Galilee,
The Christ is whispering, "Peace!"

Quite Cool:

The Editor of the *Ouachita (Ark) Herald*, is a defeated candidate for Congress, and takes a philosophical view of the case in a leader, thus:

"We—that is to say, James A. Jones, editor of the *Ouachita Herald*, and late candidate for Congress—are ingloriously defeated. To use a classical and entirely original expression, 'we have met the enemy and we are theirs.' We evidently cast our pearls before swine. We magnanimously, and at a considerable sacrifice of our habitual self respect, offered to serve a people who had no appreciation of the offering. We can't help it. We didn't make the people, and are not under contract to supply them with brains. If they were wilfully blind to our merit, the fault is theirs. If they are opposed to receiving, individually, 160 acres of land apiece, they have a perfect right to reject it—they ought to know whether they deserve it. If they don't want the right of the South 'preserved inviolate,' why they may have them *pickled*, for all we care. We did our duty, and our conscience is easy."

Horse-Racing.

At some of our Agricultural Exhibitions, heretofore, where more attention was paid to the receipts at the gates than to the interests of agriculture or the character of the exhibitions—great complaint was made by many of their best friends, against the prominent importance bestowed upon the horse course, and the "trials of speed" indulged in upon them. No one objected to a horse ring, where these noble animals could be properly displayed, and even their speed tested, when done singly; but a persistence in the practice of overslaughing, as it did, the other branches of the exhibition, would undoubtedly have entirely extinguished these useful annual displays of the farmer. Generally a reform has been introduced in this respect, greatly to the benefit of all.—*Bloomsburg Democrat.*

THE COMET.—This traveling luminary, the great comet of Charles V., as it is sometimes called, but better known to astronomers as that of Fabricius, is now visible to the naked eye, in the northwestern part of the heavens. It is one hundred and forty millions of miles distant, and is rapidly approaching the earth. We are told that during the first week in October the comet will be of the most striking brightness, possibly the largest of the century, and at that time will be seen near Arcturus, perhaps even surpassing that brilliant star in splendor.

A frightful accident occurred at the State Fair ground, in Sandusky, Ohio, on the 13th. An excited horse in a contest for the prizes, broke through the barriers of the arena, and dashed in among the people, injuring five persons, two so badly that they died soon after the accident.

STRANGE.—The powder that was used at the late Cable Celebration in Sandwich, Mass., is the same that was purchased during the war of 1812, to fight the English enemy. It has been kept in a close cask in the old Magazine, in that town, ever since.

M. Poitevin, a famous aeronaut, whose aerial excursions on horseback have caused so much excitement in London, lately fell into the sea, near Malaga, when descending with his balloon, and was drowned.

At St. Paul's, a few days ago, one James Buchanan was badly whipped—but not the right one.—*Louisville Jour.*

DR. W. H. WITMOR,
of Lancaster City, (late of Philadelphia.)

Where he has been in successful practice for a number of years, received his education at the best Medical College in the United States, and had experience and practice in the different Hospitals for several years; is member of the Analytical Medical Institute of New York, and late a surgeon in the U.S. Navy—now offers himself to the public to attend any professional calls.

THE purest medicine always on hand direct from the best Laboratories in the country and the Botanical Gardens of the World. No patent medicine prescribed or recommended. Medicines used only which will not break down the constitution, but will renovate the system from all injuries it has sustained from mineral medicines. Chronic and difficult diseases must be treated upon analytical principles, which is to know and ascertain what disease is, its nature and character, require a knowledge of the chemical constituent of every solid and fluid of the human body—the changes these solids and fluids are capable of undergoing. To know what medicines to employ to cure diseases, requires a knowledge of the chemical constituents of all agents employed in medicines, and if we are in possession of this knowledge, it is possible to cure any disease—no matter of how long standing—and leave the patient in a healthy and perfectly cured condition.

Melancholy, aberration, that state of alienation and weakness of the mind, which renders persons incapable of enjoying the pleasures or performing the duties of life.

Dyspepsia, that distressing disease and foil destroyer of health and happiness, undermining the constitution, and yearly carrying thousands to untimely graves can most emphatically be cured.

RHEUMATISM, in any form or condition, chronic or acute, warrants a cure here. *Epilepsy*, or falling sickness, all chronic and obstinate cases of Female diseases, radically removed; Salt Rheum, and every description of Ulcerations; Piles and Scrofulous Diseases, which have baffled all previous medical skill, can be cured by my treatment, when the constitution is not exhausted.

I do say all diseases (yes, consumption) can be cured.

CANCER CURED WITHOUT THE KNIFE OR DRAWING OF BLOOD.

I will remain in my office on Wednesdays and Saturdays, from 9 o'clock A. M., to 3 P. M., to accommodate patients from a distance, and consult in the English and German languages; will make visits to any distance if required; may be addressed by letter, North Prince St., near Fulton Hall, Lancaster city, Pa.

Sworn statement of David M'Creary, of Napier Township, Bedford county:

In April, 1856, as near as I can remember, a small pimple made its appearance on my upper lip, which soon became enlarged and sore. I used poultices of sorrel, and a wash of blue vitriol, without effect. Finding the sore extending, I called on Dr. Ely, of Schellsburg, who pronounced it CANCER, and prescribed a wash of sugar of lead and bread poultices. Finding these remedies of no avail, I called upon Dr. Sheffler, of Davidsville, Somerset county, who also pronounced the disease Cancer, and gave me internal and external remedies—the latter consisting principally of caustics; but all to no purpose, as the disease continued spreading toward the nose. I next used a preparation of arsenic, in the form of salve. This for a time checked the disease, but the inflamation soon increased. I next called upon Dr. Statler, of St. Clairsville, Bedford county, who also pronounced the disease Cancer, and applied a salve said to be a never failing remedy, but it had no effect whatever in checking the spread of the sore. In December of the same year, the disease had eaten away a greater part of my upper lip, and had attacked the nose, when I went to Cincinnati, where I consulted Prof. R. S. Newton, of the Electic Medical College. He pronounced the disease "a cutaneous Cancer, superinduced by an inordinate use of mercury." He applied mild zinc ointment and gave me internal remedies. My face healed up, but the inflamation was not thoroughly removed. In February, 1857, he pronounced me cured, and I left for home. In April the disease again returned and so violent was the pain that I could not rest at night. Late in May I returned to Cincinnati, and again placed myself under the charge of Dr. Newton, with whom I remained until September, during which time he used every known remedy, and partly succeeded in checking the disease, but when I returned home there were still three discharging ulcers on my face—I continued using Newton's preparations, and also medicine that I got from Dr. Ely, but the Cancer continued growing until it had *eat off the left side of my nose, the entire portion of my left cheek*, and had effected *my left eye*. I had given up all hope of ever being cured, since Dr. Ely said he could only give relief; but that a cure was impossible. In March, 1858, I bought a bottle of "Blood Searcher," but I must confess that I had no faith in it. I was very weak when I commenced taking it; but I found that I gained strength day by day, and also that the ulcers commenced drying up. I continued, and when the third bottle was taken my face was healed as if by a miracle. I used a fourth bottle, and I have been healthier since than I have been for the last seven years. Although my face is sadly disfigured, I am still greatful to a benign Providence who has spared my life, and which has been done through the instrumentality of LINDSAY'S IMPROVED BLOOD SEARCHER.

NEW EVIDENCE.

Being afflicted with a grievous tetter on the arms and face—after trying many remedies which utterly failed to cure—I was persuaded by W. M. Barth & Co. to try Lindsay's Improved Blood Searcher; and now, six weeks after finishing the *second bottle*, pronounce myself cured.

The tetter broke out, something over a year ago, on the inside of my arms, extending from the elbows down to the wrists; also, on my face, immediately round the mouth and chin, and continued to be a *perfect torment* to me until *cured by the Blood Searcher*. My arms, at times, were almost useless, owing to the cracks and sores on them, liable to bleed at any time on the least exertion to lift or work, and sometimes so much so that I could scarcely prevent tearing off my flesh. I have now been cured six weeks, and feel it due to Mr. Lindsey, and to the public generally, to make this statement, in hope that others like myself may be benefited by using his valuable medicine.

KIRBY'S MOWER & REAPER.

WE are Manufacturing the above mentioned excellent Machine for Eastern Pennsylvania and the neighboring counties in New York, and invite the particular attention of Farmers to the following features of KIRBY'S Mower & Reaper, which we believe to be superior to all others in use in the following particulars: It is the lightest in use—strong and durable—simple in construction—easily worked—adapted for horses or oxen—requires much less draught than ther machines—has no side draught, yet it cuts a wide swath—works on rough ground where no other machine can follow it—very difficult to be clogged in any kind of grass, be it wet or dry—not liable to get out of repair—is composed principally of iron—*is a perfect combined machine, working equally well whether mowing or reaping—and is the cheapest in price*, the Mower being only $100, and the combined machine $120—making it altogether the most desirable Mower and Reaper in the market.

☞ Farmers wanting RELIABLE Mowers and Reapers, should by all means see ours before making up their minds to buy any other. DENTAL CARD.

THE new method of inserting artificial Teeth, Gum, &c., known as
Allen's Continuous Gum Work,
is, without exception, the best improvement ever made in the art of Dentistry. This work, when properly constructed, is the most beautiful the closest, combines the greatest strength with durability, and adds more to a clear and distinct articulation, than any other kind of

work ever brought before the public. And not only this. By a beautiful discovery in combination with this style of work, we can give the face its natural expression, without, in the least, interfering with the usefulness of the teeth in mastication.

I would take this method of informing those interested that I have purchased the Patent Right for this valuable improvement, of the inventor, John Allen, (now of New York,) for this and several adjoining counties, and that I am now manufacturing an article of Teeth and Gums that will compare favorably with anything in the line that has ever been made in this or any other country. I ask all, and especially those that need teeth (if they have engaged them or not,) to call, and examine for themselves.

ARE YOU INSURED AGAINST LOSS BY FIRE?—There are but few who receive sympathy who incur loss by neglecting this most *necessary* and *substantial* precaution. We often see it announced that persons have lost their stocks of Goods and Furniture, and results of years of industry swept from them by the devouring element over which they have no control but by being insured.

Insurance protects you from the inconsiderate, negligence of servants and the carelessness of your neighbors. It will impart confidence to your locks, and fulness character to prudence and promptness to all your business transactions.

It requires but a very small sum to insure in sums ranging from $100 to $5000, and we few many thousands who have no insurance upon their property or any thing else! If your Stock is small, still the Loss upon it might be serious.

This Company insures *BUILDINGS, MERCHANDIZE, GOODS, FURNITURE, MACHINERY and STOCK* FROM $100 TO $5000,
at the Lowest Rates and upon the most Liberal Terms, and PROMPT PAYMENT on the adjustment of loss.

MREA'S CELEBRATED
LIQUID GLUE!

THE GREAT ADHESIVE. Most useful article ever invented, for home store or office, surpassing in utility every other glue, gum, mucilage, paste or substance known. ALWAYS READY FOR APPLICATION, adhesive on Paper, Cards, Leather, Furniture, Pottery, China, Glass, Marble or Glass. For manufacturing Fancy Articles, Toys, etc., it has no superior, not only possessing great strength than any other article, but adhere more quickly, leaving no stain where the parts are joined. Never Fails.

Within the last three years upwards of 200,000 bottles of this justly celebrated LIQUID GLUE have been sold, and the great convenience which it has proved in every case, has deservedly secured for it a demand which the manufacturer has found it, at times, difficult to meet; acknowledged by all who have used it, that its merits are far above any similar article ever offered to the public.

☞ *The GLUE is constantly manufactured at the Laboratory of* MREA, CHEMIST, *No. 827 Chestnut St., Philadelphia.*

Take no other. TWENTY-FIVE CENTS A BOTTLE.
Manufactured and Sold, Wholesale and Retail, by
