ORIGIN OF THE F. F. V's .- Many of our readers have heard of the "First Fam-ilies of Virginia;" but few, we take it, know how the term originated. An exchange explains it thus :

In the early settlement of that State, it was found impossible to colonize it unless women went there. Accordingly a ship load was sent out, but no planter was allowed to marry one of them until he had first paid one hundred pounds of tobacco for her passage. When the second ship load came, no one would pay more than seventy five pounds for the matrimonial privilege, except it were a very superior cause you can't get a Virginian to admit pounds of tobacco !

### The Courtship of SAM JONES AND SALLY BATES.

Nathan Jones, a small farmer in our vicinity, had a daughter, as preton the flea-bitten mare, or helping to stir apple butter at a boiling frolic, or making a long reach at a quilting, or sitting demurely in the log meeting house on a Sunday-in short, wherever you saw ber, she always looked as pretty, if not prettier, than she had

But this many a sober youth got drunk because lucky adventure was too much for of her, and many a sighing bachelor would gladly have given his riding horses, or even a share in Dad's farm, for her. There was, indeed, no lack of ill will on their part; the difficulty was in mustering up courage to make it should not be put down for at least two the proposal. Sam essayed to dismount, but, inso doing, found that both feet were hopelessly fast in the stirrups. His face swelled and reddened like a turkey gobler's. In vain he twisted and kicked: the crowd was expectant; Sally was waiting.

The bystanders began to snicker. Sally was grieved and indignant. At last, the saddle was unbuckled, and Sam dismounted with his feet still in the stirrups, looking like a criminal in foot hobbles. With some labor he pulled off his boots, squeezed them out of the stirrups, and pulled them on again. Sally stood by, all the while manifesting the tenderest concern: and when he was finally extricated, she took his arm and walked Sam ; he sneaked out of the meeting during the first prayer, pulled off his boots, and rode home in his stockings.

From that time, Sam Bates disap-peared from society. Literally and metaphorically, he shut up shop and hung up his fiddle. He did not take to liquor, like a fool, but took to his axe, and cleared I don't know how many acres of rugged, heavy timbered land, fer from this that Sally was prudish thereby increasing the value of his or unapproachable.
