"I don't want to go West—I don't—I don't want to leave—and I won't leave. If there's a man among ye that has spunk enough to ask me to stay." Scarcely had she finished her patriotic address, when there was a general rush. The less active were trampled over like puffed goat skins at a bacchanalian festival.

"Miss Sally, I axes you."

"Miss Sally, I spoke first."

"I bespeak her for my son Bill," squeaked an octegenarian, struggling forward to seize her arm.

To hide her confusion, Sally covered her face with her apron, when she felt a strong arm thrown around her, and heard a stentorian voice shout, "She's mine, by gauley!"

Sam Bates cleared a swath as if he had been in a grain field, bore his unresisting prize into the house, and slammed the door on the cheering crowd.

The wedding came off that night, and on the following morning Sam rode home, driving his white cow before, and carrying his wife behind him.

A PHRENOLOGICAL JOKE.

[When the controversy on Phrenology was at its height, some one, desirous of a joke, sent the cast of a turnip to the late Mr. George Combe, requesting him to give a phrenological estimate of the character. To this Mr. Combe replied by returning the turnip cast, with the following parody on a well-known nursery rhyme attached :]

There was a man in Edinburg,
And he was wondrous wise,
He went into a turnip field,
And cast about his eyes.

And when he cast his eyes about,
And saw the turnips fine,
"How many heads there are," said he,
"That likeness bear to mine!

"So very like, indeed, they are,
No friend, I'm sure, could know
This turnip head, that I have on,
From those that here do grow."

He took a turnip from the field,
A cast from it was thrown,
He sent it to a Spurzheimite,
And passed it for his own.

And so, indeed, it truly was
His own in every sense,
For cast and joke alike were made
All at his own expense!

The Lord they never Heard of.

[GRANT THORBURN ("LaurieTodd") appears now and then in a New York paper with a reminiscence, or a bit of an old story. Here is his last :]

In 1774, Dr. Webster was a popular preacher of the Kirk of Scotland, Edinburg. Business brought him to London, and one day when passing the House of Lords, his curiosity induced him to make an effort to step in and see them. None were admitted without an order, except noblemen's servants. Webster, being ignorant of the rule, requested admittance. "What Lord do you belong to?" said the doorkeeper. "To the Lord Jehovah," replied Webster. "The Lord Jehovah," repeated the keeper, "I have kept here seven years, but I have never heard of such a Lord—Jack," said he to his fellow-keeper on the front steps, "here's a chap who says he belongs to the Lord Jehovah; do you know such a Lord?" "Never heard of him," says Jack. "But," said Webster, (willing to keep up the illusion,) "there is such a Lord." "Pass 'im in," said Jack, "I s'pose it's some poor Scotch Lord."

[This occurred at a period when there was not one in twenty of all the manufacturing and rural districts in England who could read the Bible, or write his own name. Sabbath schools were introduced in 1783.]

The graduations of political turpitude are strongly marked in the career of J. Glancy Jones. He commenced life creditably as a preacher, then was afflicted with negrophobia, and advocated the extension of the right of suffrage to the blacks, next he became a Loco Foco rampant partisan and member of Congress, then a Presidential parasite, was then rejected as an unfaithful steward, and now receives the reward of his infamy in a foreign mission. The only deeper depth is to put him in Buck's Cabinet.—*Louisville Journal.*

That is a mistake, neighbor. Johu commenced business in a very honest way, as a saddler's apprentice; but he did not make a good workman, and soon left his useful employment to study theology and enter the Gospel ministry, from which he has declined to the ministry of Mr. Buchanan. It is a great pity that he had not courage and perseverance enough to learn to be a good saddler. However, it is probable that the Government will be *saddled* with the expense of his salary as Minister to Austria.

"Are man and wife both one?" asked the wife of a certain gentleman in a state of stupefaction, as she was holding his aching head in both hands.

"Yes, I suppose so," was the reply.

"Well, then, I came home drunk, last night, and ought to be ashamed of myself."

CHARCOAL FOR HOGS—A little charcoal is good for fattening hogs. A friend recently told us that he had received much benefit from ashes thrown into his pen. Ashes are known to be good for hogs and for cattle, since they serve to keep off the usual summer complaints; but he attributes much of the benefit received to the charcoal found in the ashes.

DOES Disease originate in *IMPURITY OF THE BLOOD?*

This is a question of vital importance, and one which has never been satisfactorily disposed of by the professors who teach the healing art. Some maintain (and among them the oldest Physicians) that life lives in the blood, and therefore all diseases originate in it; but modern science avers that ailments have their origin in both the solids and fluids of the body. That the latter proposition, however, is a fixed fact, and medical skill has clearly demonstrated that at least two-thirds of the ills that human flesh is heir to, have their source in an

IMPURE STATE OF THE BLOOD!

As, for instance, in the long catalogue, such as Scrofula, Tetter, Ulcerated Sores, Pimples, Blotches, Erysipelas, Ulcers, Salt Rheum, discharges from the Ear, Fever Sores, or irruptive diseases of any kind—these are ascribed to the well known morbid laws to arise from bad blood, while the highest medical authorities declare that most fevers originate in the same manner, and more particularly Typhoid and Scarlet—the former being an internal, and the latter an external irruptive disease; and in all persons attacked by these maladies the blood is found to be either coagulated, or of a dark unhealthy color.

To ward off a large majority of diseases, as well as to cure a number which have already seized upon the system, it is necessary to

PURIFY THE BLOOD.

Lindsey's Improved Blood Searcher
does not claim to be a

UNIVERSAL PANACEA

for every disease known, but the proprietors claim for it the power and ability of cleansing out all impurities of the blood, by the skilful combination of well-known vegetable remedies, it will cure all diseases arising from a diseased state of the liver, drive out dispepsia, and give renewed tone and vigor to the stomach. That the Blood Searcher is all that is claimed for it, the proprietors can produce

THE PROOF.

It was only a few years since it was discovered, and yet it has grown into such a business that a large Laboratory and a large number of men employed in putting it up, and still the

SUPPLY DOES NOT EQUAL THE DEMAND!

We ask any candid man, could this be so, if the Medicine did not possess all the virtues claimed for it?

The Proprietors have hundreds of certificates from men of credit and standing in the community, showing what the medicine is doing daily for the suffering.

ASK ANY PERSON

who has ever used the Blood Searcher whether relief was experienced.

Let the afflicted give it a trial—a single bottle will convince the most skeptical of its efficacy.

DR. W. H. WITMOR,
of Lancaster City, (late of Philadelphia.)

Where he has been in successful practice for a number of years, received his education at the best Medical College in the United States, and had experience and practice in the different Hospitals for several years; a member of the Analytical Medical Institute of New York, and late a Surgeon in the U. S. Navy—*now offers himself to the public to attend any professional calls.*

THE purest medicine always on hand direct from the best Laboratories in the country and the Botanical Gardens of the World. No patent medicine prescribed or recommended. Medicines used only which will not break down the constitution, but will renovate the system from all injuries it has sustained from mineral medicines. Chronic and difficult diseases must be treated upon analytical principles, which does know and ascertain what disease is, its nature and character requires a knowledge of the chemical constituents of every solid and fluid of the human body—the changes these solids and fluids are capable of undergoing. To know what medicines to employ to cure diseases requires a knowledge of the chemical constituents of all agents employed in medicines, and if we are in possession o this knowledge, it is possible to cure any disease—no matter how long standing—and leave the patient in a healthy and perfectly cured condition.

Melancholy, aberration, that state of alienation and weakness of the mind, which renders persons incapable of enjoying the pleasures or performing the duties of life, Dyspepsia, that distressing disease and fell destroyer of health and happiness, undermining the constitution, and yearly carrying thousands to untimely graves can most emphatically be cured.

Rheumatism, in any form or condition, chronic or acute, warranted curable; *Epilepsy*, or falling sickness, all the horrible and stubborn cases of female diseases, radically removed: Salt Rheum, and every description of Ulcerations; Piles and Scrofulous Diseases, which have baffled all previous medical skill, can be cured by my treatment, when the constitution is not exhausted

I do say all diseases (not of consumption) can be cured.

CANCER CURED WITHOUT THE KNIFE OR DRAWING OF BLOOD.

I will remain in my office on Wednesdays and Saturdays, from 9 o'clock A. M., to 3 P. Sworn statement of David M'Creary, of Napier Township, Bedford county:

In April, 1856, as near as I can remember, a small pimple made its appearance on my upper lip, which soon became enlarged and sore. I used poultices of sorrel, and a wash of blue vitrol, without effect. Finding the sore extending, I called on Dr. Ely, of Schellsburg, who pronounced it CANCER, and prescribed a wash of sugar of lead and bread poultices. Finding these remedies of no avail, I called upon Dr. Shaffer, of Davidsville, Somerset county, who also pronounced the disease Cancer, and gave me internal and external remedies—the latter consisting principally of caustic; but all to no purpose, as the disease continued spreading toward the nose. I next used a preparation of arsenic, in the form of salve. This for a time checked the disease, but the inflamation soon increased. I next called upon Dr. Statler, of St. Clairsville, Bedford county, who also pronounced the disease Cancer, and applied a salve said to be a never failing remedy, but it had no effect whatever in checking the spread of the sore. In December of the same year, the disease had eaten away a greater part of my upper lip, and had attacked the nose, when I went to Cincinnati, where I consulted Prof. R. S. Newton, of the Electic Medical College. He pronounced the disease "a cutaneous Cancer, superinduced by an inordinate use of mercury." He applied salve after salve to it and gave me internal remedies. My face healed up, but the inflamation was not thoroughly removed. In February, 1857, he pronounced me cured, and I left for home. In April the disease again returned and so violent was the pain that I could not rest at night. Late in May I returned to Cincinnati, and again presented myself under the care of Dr. Newton, with whom I remained until September, during which time he used every known remedy, and partly succeeded in checking the disease, but when I returned home there were still three discharging ulcers on my face—I continued using Newton's preparations, and also medicine that I got from Dr. Ely, but the Cancer continued growing until it had *eat off the left side of my nose, the greater portion of my left cheek, and had attacked my left eye.* I had given up all hope of ever being cured, since Dr. Ely said he could only give relief; but that a cure was impossible. In March, 1858 I bought a bottle of "Blood Searcher;" but I must confess that I had no faith in it. I was very weak when I commenced taking it; but I found that I gained strength day by day, and also that the ulcers commenced drying up. I continued, and when the third bottle was taken my face was healed as if by a miracle, and a fourth bottle was not needed. I have been healthier since than I have been for the last seven years Although my face is sadly disfigured, I am still greatful to a benign Providence who has spared my life, and which has been done through the instrumentality of Lindsey's Improved Blood Searcher; and now, six weeks after finishing the *second bottle*, pronounced myself cured.

The latter broke out, something over a year ago, on the inside of my arms, extending from the elbows down to the wrists; also, on my face, immediately round the mouth and chin, and continued to be a *perfect torment to me until cured by the Blood Searcher.* My arms, at times, were almost useless, owing to the cracks and sores on them, liable to bleed at any time on the least exertion to lift or work, and sometimes so itchy that I could scarcely prevent tearing off my flesh. I have now been cured six weeks, and feel it due to Mr. Lindsey, and to the public generally, to make this statement, in hope that others like myself may be benefited by using his valuable medicine.

DENTAL CARD.

THE new method of inserting artificial Teeth, Gum, &c., known as **Allen's Continuous Gum Work,** is, without exception, the most improved ever made in the art of Dentistry. This work when properly constructed, is the most beautiful the cleanest, combines the greatest strength with durability, and adds more to a clear and distinct articulation, than any other kind of work ever brought to for the public. And not only is this a beautiful discovery in combination with this style of work, we can give the most natural expression, without, in the least, interfering with the usefulness of the teeth in mastication.

I would take this method of informing those interested that I have purchased the Patent Right for the valuable improvement, of the inventor, John Allen, (now of New York,) for this and several adjoining counties, and that I am now manufacturing an article of Teeth and Gums that will compare favorably with anything in that line that has ever been made in this or any other country. I solicit, and especially those that need teeth (if they have engaged them or not,) to call, and examine for themselves.

RIVIERE HOUSE.
LEWISBURG, Union Co., Pa.
R. G. HETZEL, Proprietor.

THIS house is located in the very center of the business portion of the town, and the only Hotel in Market Square. It is by odds the largest and most spacious in Lewisburg, and is kept in the cleanest and best possible manner. The *ROOMS* are large and airy—*BEDS* neat and clean. The *TABLE* is spread with every luxury the season affords. The *BAR* is furnished with pure unadulterated liquors bought by the Proprietor out of the Custom House in Philad. The *STABLE* and Hostler will recommend themselves.

The Proprietor, having gone to a great expense in re-fitting and furnishing his house—employing at large cost a first-rate Cook and other servants who are attentive and obliging—hopes by unremitting attention on his part to receive a share of the public patronage—The public will please accept the sincere thanks of the Proprietor for the very generous patronage he has received during the four months he has lived in Lewisburg.
