Lewisburg, Pa.

FRIDAY MORNING, FEB. 4, 1859

ADVERTIZE!—Manufacturers, Merchants, Mechanics Public Officers in City and Country, Publishers—all who wish to buy or sell—would do well to employ the columns of the *Lewisburg Chronicle*, which has a large and increasing circulation in a community containing a large proportion of active, solvent producers, consumers and dealers, as any in the State.

☞ **See New Advertisements.**

NOTICE!—*Until the close of February Court, Agents and others holding subscription papers for the* CHRONICLE *may add to Clubs at $1 each for a year. AFTER that date, Clubs of* TEN *must come with the cash,* ($10) *all at one time—Clubs of* FOUR ($5) *all at one time—or they can not be received as clubs.*

☞ *$1.50 is our price to all, except to Clubs as above designated.*

☞ It is to *accommodate* as many as we can in these hard times—to *reward* those who take the trouble—and NOT for the *profits*, that we offer cheaper terms to clubs. We should make much more with fewer subscribers at $1.50, than with many more at $1. There is little or no profit on $1 subscriptions. Look at it—the blank paper, in the first place, costs about 50 cents. Then a man and a boy to print it, both sides—104 impressions, all of which takes some ink; then, the wear of types, rollers and press is something; and each of the 52 papers has to be folded, directed, and sometimes put in a wrapper. After all this expense, it will be guessed that the profit on a paper at $1 is nothing. It is true, where they print *thousands* of papers instead of hundreds, by *steam* power instead of by hand, they can make money on larger papers than ours at $1, but it is little or no advantage, otherwise.—We have been thus particular, that all may know *why* we are so decisive in requiring clubs to be full, and all at one time, in cash—and hope this notice will be sufficient.

☞ NEXT WEEK is the *Adjourned Court*—see programme on the first column, first page of to-days paper. WEEK AFTER NEXT is the *regular February* Court—see particulars in the middle column second page. Either week affords a good chance to send in new subscriptions or renew old ones—to forward a job to the Book Binder—or to get something new to read these long evenings and do nothing days, from Murray's.

(N. B. Those indebted to CHRONICLE on *old* accounts, need *not* come or send in—we shall send the Constable after them.)

☞ A valuable Farm, in Chillisquaque township, is offered for sale among our new advertisements to-day...also some excellent, full building lots, in the centre of our town.

Mr. PEIFER, of Harrisburg, has established a train of freight cars to deliver goods without transshipment, from Philadelphia to Lewisburg and other points along the line—a safer and more speedy mode of sending and receiving than the haphazard way of railroad management in general. We direct attention to his advertising card.

PUBLIC LECTURES.—Next Tuesday evening, (8th inst.,) Wm. H. Armstrong, a son of Hon. Jas. Armstrong, of Wmsport, will lecture in our borough, on a most interesting subject. The observant editor of the Sunbury *American* speaks of it as follows:

"While in Williamsport, on Tuesday evening last, we embraced the opportunity of listening to a lecture on Egypt, by Wm. H. Armstrong, Esq. Mr. Armstrong is a gentleman of refined taste and a cultivated intellect, and we felt assured that a description of his travels in that interesting country last year, could not be without interest. The lecturer was listened to by a large and intelligent audience for one and a half hours with undagging interest. Mr. Armstrong and his two companions, were seventy days on their voyage up the Nile to the Second Cataract. His description of the famed Pyramids, the ancient city of Thebes and other hallowed spots in ancient history, the splendid ruins, colossal statuary and the manners and customs of the present population, was highly interesting. With the exception of Edw'd Everett's lecture on Washington, this was the most interesting we have listened to for some years."

A week from next Tuesday—viz: Feb. 15—Rev. THOMAS K. BEECHER, of Elmira, (one of "the Beecher Family") is engaged to speak at Independent Hall, Lewisburg.

Lecturers from a distance require pay, which—with the incidental expenses—must be met by those who listen. Last year, the collections hardly met the cash outlays. On this acount, the very small sum of 10 cents will be required of every person for admission. There is no one who can not contribute this sum, and we hope there will be a large attendance from town and country, both evenings.

☞ Quite a number of stores and private houses, with three of our houses of public worship, are now lighted with gas. The quality of the article is not as good as it will be upon a little further use, but answers very well. As the "institution" becomes better known, doubtless very many will make arrangements for its introduction, and when times improve, and the rates suit, a few corner street lights will be inaugurated. Some of our citizens move cautiously in the matter, because they wish to be first well posted up as to rules, expenses, economy, and other important particulars. "Be sure you're right, then go ahead."

SERIOUS ACCIDENT.—On Tuesday of this week, Mr. John Benner, of Buffaloe Tp., on the Turnpike above Biehl's Hotel, was engaged in thrashing, when the cylinder of the machine exploded, portions of the wood-work striking him on one side of his head, near the top, tearing the scalp and forcing blood from the ear. The wound, we understand is severe, and the result still uncertain. We do not learn that any one else was injured. The machine was not driven too fast, and it is conjectured the break was caused by a flaw in the iron cylinder.

☞ The Freeburg Vocalists will give a Concert at Freeburg, Friday evening, Feb. 11, for the benefit of the Academy Library.

Death of Thomas Curtis, D. D.

The "Rev. Mr. Curtis," lost in the North Carolina, (as detailed on the opposite page) was the father of Rev. Thomas F. Curtis, Professor of Theology in the University at Lewisburg. Rev. Dr. Curtis was a resident of Limestone Springs, in the upper part of South Carolina, where himself and another son conducted a classical school. He came on to Philad., intending to pay a visit to his son in Lewisburg, but last Friday—the day he expected to reach here—he had received a telegraphic despatch, announcing the death of one grand child by scarlet fever, and the illness of others at Limestone Springs, when he postponed his visit to Lewisburg until July, had supper with a friend in Baltimore, and about 5, P. M., of that day took passage in the ill-fated boat.

With the first bare news of the disaster, Prof. Curtis hastened southward to ascertain more particulars, but found only what the public have learned. His father was a man of giant frame, courageous, clear-minded, active, healthy, with all his faculties in full vigor. Whether he was suffocated by the smoke—whether he was prostrated by a blast of hot flame—or whether the alarm may have thrown him into an apoplectic fit, are conjectures which may never be confirmed. Having at first no acquaintance on board, the late hour they set sail prevented his forming any. It may at least be hoped that his death was neither painful nor protracted.

Dr. Curtis was a native of England, a much esteemed preacher of the Baptist denomination, and a man of more than ordinary literary acquirements. Among his early associates and friends were Coleridge and Southy, and one of his literary tasks was a part in the preparation of one of the standard English Encyclopædias. About the year 1833, he emigrated to America—suffering shipwreck on the way, and displaying great coolness of mind in the emergency—and was something like 72 years of age when he closed his earthly career.

☞ Among the escaped passengers on board the North Carolina, was John A. Green, formerly of Lewisburg, Pa.

VENDUES.—Public sales will soon become the order of the day, and we again give our candid opinion, that any one who wishes to get the THE HIGHEST PRICES for his or her articles, can not do better than to expend $1 or $5 in advertising them. "Good Bargains" will no doubt be made this season, for there are some who *must* sell at any sacrifice, and there are as *many* who *have money* to spare. These facts increase the *necessity* and the *policy* of making generally known the articles thus exposed. People pay very little attention to written notices, (except, often, to make fun of the incorrect spelling and grammar,) and they are seen by comparatively few. Printed bills are easily read, and if some pains are taken to stick them up, in many public places, the information is widely diffused. But advertisements are most extensively perused in newspapers. We print over 900 copies weekly, most of which are circulated immediately around and west of Lewisburg. Counting 6 or 7 readers to every paper—which is a low estimate, considering the numbers in most families, with the neighbors, &c., into whose hands it falls—the *Chronicle* is read by 6 or 7,000 persons weekly—comprising the most prompt, independent, reliable business men in the community. As no one can tell when a thing he wants may be had unless it is *advertised*, we are certain no man acts wisely without letting everybody, for miles around him, know *what* and *when* he intends to sell.

—To aid in fixing the times of sales, so that they do not interfere with each other, we will keep up a table of all advertised at our office (and will insert any others in our list at 25 cents a line:)

INSURANCE COMPANY.—The Harrisburg Commonwealth Fire Insurance Company have been doing a large and prosperous business for some years. We observe among its Directors Messrs. Eli Slifer, Wm. Dock, Lauman, Gov. Packer, Kepner, Warford, Boas, and others of the most careful business men of Harrisburg. J. BROWN M'LAUGHLIN, has been appointed agent for this place and vicinity, of whom particulars can be ascertained, and with whom insurance can be effected.

☞ We observed Ex-Senator R. P. MACLAY in our town a few days since—looking very well, albeit a most venerable, flowing beard, rivaling any Greek patriarch's, makes him appear a century or two older than he is. Mr. M. now hails from Mifflin county, but likes to see his former home in Buffaloe Valley, occasionally.

☞ ALEM B. TATE, late of the Bloomsburg *Democrat*, has taken charge of the Berwick *Gazette*. With his industry and ability, we doubt not he will make it a living, paying paper—if anybody can.

☞ John H. Vincent, Jr., we recently saw announced to preach in the M. E. Church, Freeport, Ill's.

☞ John S. Gittings of Baltimore was on Wednesday last elected President of the Northern Central railroad company.

On Thursday morning last, the Northern Central Railroad train, was thrown from the track, about two and a half miles above the Muncy Station, by a broken rail, and a number of the passengers were more or less bruised and scratched. Judge Lyman, of Potter county, was brought to this place soon after the accident, and is still lying at the Union Hotel, unable to travel, though he is improving. His injuries are about the head and shoulders.—*Muncy Luminary.*

ELECTION.

An election will be held at the office of J. A. Mertz in the Borough of Lewisburg, on Tuesday the 14th day of February next, between the hours of 1 and 4 o'clock, P. M., for the purpose of electing officers for the Union County Agricultural Society, for the ensuing year.

Also there will be a meeting of the Executive Committee on the 14th February next, between the hours of 9 and 11 o'clock, A. M., for the purpose of making a general settlement for the past year.

Any person in this county over 16 years of age, desiring admission to the Farmers' High School, should make application on that day, as the Society have the power of selecting one who shall have a first chance for admission. J. A. MERTZ, Rec. Sec'y.

Dr. WITMOR, of Lancaster City,

will be at the RIVIERE HOUSE, Lewisburg, Monday on to Thursday, 7th to 10th February, 1859, to consult with patients free of charge and successfully treat all diseases of the human body. Private parlors for ladies. ☞ See his regular card on our last page.

HOLLOWAY'S PILLS.—Almost every invention has itsenemies. We have heard locomotives denounced, and the magnetic telegraph called a nuisance. The world, however, seems to have agreed unanimous in relation to this great cosmopolitan remedy. There is nothing surprising in this. The human race everywhere have the same internal organization—their stomachs, livers, circulation, nerves, all their vital organs, are a prey to countless diseases, and all these diseases are controlled, and cured by Holloway's Pills. This, in substance, is the testimony of the old World. It has been echoed and emphasized in this country. No man contradicts it. The interference is irresistable—it is true.

As the truly wonderful merits of the Oxygented Bitters in curing Dyspepsia in its worst developements, become known and appreciated, orders for it are pouring in from all parts of the country—North, South, East and West. This tells the story.

EPILEPSY, OR FALLING FITS.

We believe we can not do our readers a more important service, than by again calling their attention to that most remarkable preparation, discovered by *Dr. Seth S. Hance*, of Baltimore, Md., which possesses the power of alleviating and curing that horrid visitation of man—Epilepsy, or Falling Fits. In recommending this preparation to our readers, we do so with a conviction that we are not degrading our columns to puff a common patent medicine, but are placing before them a discovery, which, if fully known, would probably do more to alleviate human suffering, than any invention of modern times. Dr. Hance, in asking us to notice his preparation favorably in our editorial department, has sent us for perusal a number of letters from persons who have used his Pills, and have been cured thereby. All of them speak in the most grateful and eulogistic terms. One great advantage this medicine possesses is the fact, that it can be transported through the mails, thereby affording every one an opportunity of dealing directly with the inventor, and also precluding all possibility of being imposed on by a worthless counterfeit. Dr. Hance pays the postage on his pamphlet, mailed to all who send for it, and will forward them by return of mail, on the receipt of a remittance. His prices are as follows: One box, $1; two do., $5; twelve do., $24. All orders for the medicine should be addressed to SETH S. HANCE, 108 Baltimore street, Baltimore, Md.

DU VALL'S GALVANIC OIL,

Prepared originally by PROF. H. DU VALL, formerly of the College of Surgeons, Paris, IS NOW OFFERED TO THE PUBLIC *as a sure Remedy for the Cure of all Sore and Painful Diseases.*

FOR instance—Pain or soreness in any part of the system, Rheumatism, pain in the back, breast or sides, healed breasts, Neuralgia, Burns, Sprains, Headache, Cramp in the Stomach or any other disease that is SORE and PAINFUL, and it is only over this class of diseases we claim a PERFECT VICTORY. We say positively to our patrons, we can relieve the sufferer 99 times out of 100. We would just say to the public, Prof. Du Vall was 25 years in bringing to this medicine superiority over all others. Price 50 cts per bottle—1 sent off to the trade. ☞ All orders must be addressed to J. D. STONEROAD, Sole Agent for U.S., July 28, y *Lewistown, Mifflin Co. Pa.*

Dr. Wistar's Balsam of Wild Cherry.

Where the above preparation is known, it is so well established as an infallible Remedy for the *cure of Coughs Colds, Sore Throat, Hoarseness, Bronchitis, Spitting of Blood, Pain in the Breast, Croup, Whooping Cough*, and every form of Pulmonary Complaint, that it were a work of supererogation to speak of its merits.

Discovered by a well known physician more than twenty years since, it has by the wonderful cures it has effected been constantly appreciating in public favor, until its use and its reputation are alike universal; and it is now known and cherished by all (and their "name is legion") who have been restored to health by its use as the GREAT REMEDY for all diseases which it professes to cure.

Sir James Clark, physician to Queen Victoria, has given it as his opinion that

Consumption can be Cured!

The whole history of this Medicine fully confirms the opinion of that eminent man. Thousands can testify and have testified, that when all other remedies had failed, this has completely cured; that when the sufferer had well nigh despaired, this has afforded immediate relief; that when the physician had pronounced the disease incurable, this has removed it entirely.

The virtues of this *Balsam* are alike applicable to cure a slight Cold, or a *Confirmed Consumption*, and its power as a *safe, certain, speedy, pleasant* and *effectual remedy* cannot be equalled.

☞ CAUTION!—*Purchase none unless it has the* WRITTEN *signature of* "I. BUTTS" on the wrapper, as well as the printed name of the proprietors.

☞ It is a most undoubted fact that DR SANFORD'S INVIGORATOR, or Liver Remedy, is one of the greatest discoveries made in medicine the past century. It has been a study of the Dr., during twenty years' practice, to find what particular organ, when diseased, caused the greatest number of ills or pains; and his conclusion is, that the liver is the greatest regulator of the system, and the most liable to disease: which if kept free from disease, is a preventative of Dyspepsia, Jaundice, general debility, &c., while, last but far from least, we mention consumption; for our experience is that more cases of consumption occur from diseased liver than from all other causes put together.

Taking this to be a correct hypothesis, we have but to find a remedy with which to correct the liver, and we have a cure of nearly all the diseases we are subject to by simply using a preventative. That the Invigorator is such a remedy, is beyond doubt to all who try it, for its virtues are such that for all complaints arising from liver derangements, it is an unfailing remedy, while as a family medicine, for all diseases of the stomach or bowels, which are caused in a greater or less degree by liver derangement, it is the safest, surest and most efficacious remedy known.

Sir James Clark, physician to Queen Victoria, has given it as his opinion that
