A Good old Anecdote.

One day when Dumont, a tradesman of the Rue St. Denis, was walking in the Boulevard St. Antoine with a friend, he offered to lay a wager with the latter, that, if he were to hide a six livre piece in the dust, his dog would discover and bring it to him. The wager was accepted, and the piece of money secreted, after being carefully marked. When the two had proceeded some distance from the spot, M. Dumont called to his dog that he had lost something, and ordered him to seek it. Caniche immediately turned back, and his master and his companion pursued their walk to the Rue St. Denis. Meanwhile, a traveler, who happened to be just then returning in a chaise from Vincennes, perceived the piece of money, which his horse had kicked from its hiding place; he alighted, took it up, and drove to his inn, in the Rue Pont aux Choux. Caniche had just reached the spot, in search of the lost piece, when the stranger picked it up. He followed the chaise, went into the inn, and stuck close to the traveler. Having scented out the coin which he had been ordered to bring back, in the pocket of the latter, he leaped up incessantly at and about him. The traveler, supposing him to be some dog that had been lost or left behind by his master, regarded his different movements as marks of fondness, and, as the animal was handsome, he determined to keep him. He gave him a good supper, and, on retiring to bed, took him with him to his chamber. No sooner had he pulled off his breeches, than they were seized by the dog. The owner, conceiving that he wanted to play with them, took them away again. The animal began to bark at the door, which the traveler opened, under the idea that the dog wanted to go out. Caniche snatched up the breeches, and away he flew. The traveler posted after him, with his nightcap on, and inwardly *sans culottes*. Anxiety for the fate of a purse full of gold Napoleons, of forty francs each, which was in one of the pockets, gave redoubled velocity to his steps. Caniche ran full speed to his master's house, where also, the stranger arrived, a moment afterwards, breathless and enraged. He accused the dog of robbing him. "Sir," said the master, "my dog is a very faithful creature; and if he has run away with your breeches, it is because you have in them money which does not belong to you." The traveler became still more exasperated. "Compose yourself, sir," said the other, smiling; "without doubt, there is in your purse a six-livre piece, with such marks, which you have picked up in the Boulevard St. Antoine, and which I threw down there with the firm conviction that my dog would bring it back again. This is the cause of the robbery which he has committed upon you." The stranger's rage now yielded to astonishment; he delivered the six-livre piece to the owner, and could not forbear caressing the dog which had given him such uneasiness.—*Paris Paper.*

Travels Like Pizen!

[The Electric Telegraph is "bound" to remain a mystery to the million, and the ludicrous conceptions of its *modus operandi*, which some have formed, are as mirth-provoking as any out of Rabelais or Smollett. The last illustration of this that has fallen under our eyes is the following from the Pittsburg *Journal*:]

Not long since, an old lady entered O'Reilly's office in this city, and said she had a message to send to Wheeling; her note was deposited in a dumb waiter, and ascended in a mysterious manner through the ceiling.

"Is that going straight to Wheeling?" inquired the old lady, with her eyes bent upon the ceiling.

"Yes, ma'am," answered the clerk.

"I was never there," continued she, "but it hardly seems possible that their town lies in that direction. When will I get an answer, Mr. Telegraph?"

"I can scarcely tell, ma'am; it may be two or three hours."

The old lady went away, and returned in exactly two hours. Just as she entered the door, the dumb waiter came down through the ceiling.

"There is your answer, ma'am," said the clerk.

The lady took the neat yellow envelop in her hands, with a smile of mingled gratification and astonishment:

"Now that beats all," exclaimed she. "Bless my heart! All the way from Wheeling, and the wafer still wet. That's an awkward looking box—*but it can travel like pizen.*"

AMUSING.—At Durham Assizes, a very deaf old lady, who had brought an action for damages against a neighbor, was being examined, when the Judge suggested a compromise, and instructed the counsel to ask her what she would take to settle matters. "What will you take?" asked the gentleman in the bob tailed wig of the old lady. The old lady merely shook her head at the counsel, informing the jury, in confidence, that "she was very hard o' hearing." "His lordship wants to know what you will take?" asked the counsel again, this time bawling as loud as ever he could in the old lady's ear. "I thank his lordship kindly," the ancient dame answered stoutly, "and if it's no ill convenience to him, *I'll take a warm ale.*" [Roars of laughter.]

A man in Kentucky killed a cow, and in the stomach he found a large brass ring, a hairpin, and a quantity of hooks and eyes. If there had also been a hoop, we might reasonably suppose that Brindle had swallowed the milkmaid.

SIXTEEN YEARS IN THE
WILDS OF AFRICA.

1000 Agents Wanted to sell Dr Livingstone's Travels & Explorations during a residence of 16 years in the wilds of Africa. This is a work of thrilling adventures and hair-breadth 'scapes among savage beasts and more savage men. Dr. Livingstone was alone (or unattended by any white man) traveling with African attendants, among different tribes and nations, all strangers to him, and many of them hostile—altogether forming the most astonishing Book of Travels the world has ever seen. All our Agents acknowledge it the most saleable book published. The most liberal commission made to agents in small or large quantities. For particulars, address

J. W. BRADLEY, *Publisher*,
28 North Fourth st., Philadelphia, Pa.

Copies sent by mail, free, on receipt of the price, $1.25.

NOTICES OF THE PRESS.

From among the hundreds of favorable notices, from the most respectable journals of the country, of our cheap edition of Livingstone's Travels and Explorations in Africa, we take the following:

It abounds in descriptions so of strange and wonderful scenes, among a people and in a country entirely new to the civilized world; and although we regard it as one of the most interesting books issued within the past year—*Ivory Democrat, Patterson, N. J.*

It is emphatically an edition for the people; and, judging from the rapid sale with which it is meeting, it is fully appreciated by them.—*Christian Firesides, Balt.*

The work is handsomely illustrated, well printed, and firmly bound, thus answering in every respect the demand for a popular and cheap edition of the "Journeys and Researches in South Africa." Those of our readers who would have a delightful book for reading at home, will not be disappointed in this work.—*U. S. Journal.*

With truth we can say, that so full an is presented to the reading public, a work containing such a vast amount of solid instruction as the one in question. The volume is handsomely illustrated, and presents that unique appearance so desirable, but which Mr. Bradley's publications never fail to possess.—*Home Monthly.*

This interesting work should be in the hands of every one. Its interesting pages of adventures are full of instruction and amusement. Ten thousand copies it is stated, have been sold in one month.—*Auburn Advertiser.*

Dr. Livingstone's Travels and Researches in South Africa appear to great advantage in this edition, which is an incredibly low one for the amount acceptable to the reader who wishes for practical instruction and amusement.—*Saturday Post.*

The edition of Dr. Livingstone's Travels, published by J. W. Bradley, is just what it purports to be. Like all Mr. Bradley's publications, it is excellently gotten up.—*United States Gazette, Phila.*

We can recommend the edition of Dr. Livingstone's Travels, published by Bradley, of Philadelphia, as every way worthy of public patronage. Its excellence and its cheapness recommend it over all others.—*Frank Leslie's Magazine.*

CAUTION.—The attention of the Publisher has been called to spurious editions of this work put forth as "Narratives of Dr. Livingstone's Travels in Africa." Ours is the only cheap American edition of this great work published, and contains all the important matter of the English edition, which sells at $6.

Special Notice to Agents and Canvassers!

We have recently published several new and saleable Books, including the *Tales and Poetic Effect Loose Nothings*; with Biographical Notices of his most Intimate Associates, *Governmental Revelations*, and the *Ladies Relations*, Life and Confessions of Harlan Page, of Indiana, the *Penned Bible*, "*The Angel and the Demon*," a tale of thrilling interest, by T. S. Arthur; *Life of Dr. E. K. Kane*, and the Instrumental American Explorers, &c. &c.

These, with our former Extensive Catalogue of Popular Books, active to the best and most saleable list of Publications ever offered to Agents and Canvassers, to whom we offer the most liberal terms. Send for our list, which is sent free to any part of the United States. 2m761

DOES Disease originate in *IMPURITY OF THE BLOOD?*

This is a question of vital importance, and one which has never been satisfactorily disposed of by the professors who teach the healing art. Some maintain (and especially the old school Physicians) that life lives in the blood, and therefore all diseases originate in it; but modern science avers that ailments have their origin in both the solids and fluids of the body. That the latter proposition is correct, history, as a fixed fact, and medical skill has clearly demonstrated that at least two-thirds of the ills that human flesh is heir to, have their source in an *IMPURE STATE OF THE BLOOD!*

As, for instance, in the long catalogue, such as scrofula, Tetter, Erysipelas Itch, Pimples, Blotches, Erysipelas, Ulcers, Salt Rheum, Affections from Hot Air, or Impure Water, or irregular diseases of any kind—these are ascertained by well known medical laws to arise from bad blood, while the highest medical authorities declare that most fevers originate in the same manner, and many particularly typhoid and scarlet—the former being, as internal, and the latter as external (primitive diseases; and in all persons attacked by these maladies, the blood is found to be either exhausted, or of a dark unhealthy color.

To ward off a large majority of diseases, as well as to cure a number which have already seized upon the system, it is necessary to

PURIFY THE BLOOD.

Lindsey's Improved **Blood Searcher**

does not claim to be a

UNIVERSAL PANACEA

for every disease known, but the proprietors claim for it the power not only of draining out all impurities of the blood, but, by the skilful combination of well-known vegetable remedies, it will cure all diseases arising from a deranged state of the liver, drive out dyspepsia, and give renewed tone and vigor to the stomach. That the Blood Searcher is all that is claimed for it, the proprietors can produce

THE PROOF.

It was only a few years since it was discovered, and yet it has grown into such a business that a large Laboratory has been built expressly for its manufacture—a large number of men employed in putting it up, and still the

SUPPLY DOES NOT EQUAL THE DEMAND!

We ask any rational man, could this be so, if the Medicine did not possess all the virtues claimed for it?

The Proprietors have hundreds of certificates from men of probity and standing in the community, showing what the medicine has done and daily for the suffering.

ASK ANY PERSON

who has ever used the Blood Searcher whether relief was experienced.

Let the afflicted give it a trial—a single bottle will convince the most skeptical of its efficacy.

Where he has been in successful practice for a number of years, received his education at the best Medical College in the United States, and had experience and practice in the different Hospitals for several years; a member of the Analytical Medical Institute of New York, and also a surgeon in the U. S. Navy. ☞ *Office and residence to be visited to attend any professional calls.*

THE purest medicine always on hand direct from the best Laboratories in the country and the Botanical Gardens of the World. No patent medicine prescribed or recommended. Medicines used only which will not break down the constitution, but will renovate the system from all injuries it has sustained from mineral medicines. Chronic and difficult diseases must be treated upon such principles, which is to know and ascertain what disease is. Its nature and character require a knowledge of the chemical constituent of every solid and fluid of the human body—the changes those solids and fluids are capable of undergoing. To know what medicines to employ to cure diseases, requires a knowledge of the chemical constituents of all agents, employed as medicinal principles, and if we are in possession of this knowledge, it is possible to cure any disease—no matter of how long standing—and leave the patient in a healthy and perfectly cured condition.

Melancholy, alienation, that state of alienation and weakness of the mind, which renders persons incapable of enjoying the pleasures or performing the duties of life. Hypochondriasis, distressing disease and fell destroyer of health and happiness, undermining the constitution, and yearly carrying thousands to untimely graves can most emphatically be cured.

RHEUMATISM, in any form or condition, chronic or acute, warranted curable; *Epilepsy*, or falling sickness, all chronic and stubborn cases of female diseases, relieved in a few hours. Salt Rheum, and every description of Ulcerations; Piles and Scrofulous Diseases, which have baffled all previous medical skill, can be cured by my treatment, when the constitution is not exhausted

I do say all diseases (yes, consumption) can be relieved.

CANCER CURED WITHOUT THE KNIFE OR DRAWING OF BLOOD.

I will remain in my office on Wednesdays and Saturdays, from 9 o'clock, A. M., to 4 P. M., to accommodate patients from a distance, and consult in the English and German languages; will make visits to any distance if required; may be addressed by letter, North Prince St., near Fulton Hall, Lancaster city, Pa.

FOR
WHEELER & WILSON MANUFACTURING CO'S

FAMILY SEWING MACHINE.

GREAT REDUCTION IN PRICE. On and after the 1st of October next, the RETAIL PRICES of our Sewing Machines will be as follows:

NEW STYLE MACHINE	$ 70
MEDIUM, on Plain Table,	55
" Half Case Panel	50
" Half Case, Mahogany or Black Walnut	60
" Full Case, " " "	75
SMALL MACHINE	50
LARGE MACHINE	100
HEMMERS, (extra)	5

The above prices cover which has attended the introduction of Wheeler & Wilson's Family Sewing Machines, is sufficient evidence of its merits. It is confidently believed that the full development is becoming a matter of the past, and that the public will now be supplied with the best machine in the world for one-half the price of the inferior machines now in use. At these prices the Machines are offered to every family in the land—believing that they will be found a greater blessing than the invention of the sewing machine itself. And a reference already exists in almost every neighborhood, so that the utility of the Machine is placed beyond question, and it only remains to be brought before the public to secure their universal adoption.

This Machine is constructed on a principle entirely new, is highly and admirably adapted to the most perfect work on every kind of material, and having been adopted by three years' test of the most searching character by Families and in various branches of Manufactures, with unqualified success, it is believed, Post in all the great points required in a simple and practical Sewing Machine, it can not be approached in excellence.

Among the undoubted advantages it possesses over all others, may be named the following:

1. Its simplicity of construction, and consequent freedom from derangement and liability of repair.
2. Its unequaled rapidity and ease of operation
3. Its noiseless movement.
4. The great variety of purposes to which it can be applied, which can be achieved by no other mechanical means. And,
5. The preeminent beauty and symmetry of the work

Persons ordering these celebrated Machines from the Central Agency, have only the freight to pay from Harrisburg; no charge for boxing. An operator will soon visit Lewisburg to show its great beauties and utility. Persons wishing Machines will please address

DENTAL CARD.

THE new method of inserting artificial Teeth, Gum, &c., known as

Allen's Continuous Gum Work,

is, without exception, the best improvement ever made in the art of Dentistry. This work, when properly constructed, is the most beautiful, the cleanest, combines the greatest strength with durability, and adds more to a clear and distinct articulation, than any other kind of work ever brought before the public. And not only this. By a beautiful discovery in combination with this style of work, we can give the face its natural expression, without, in the least, interfering with the use or fulness of the teeth in masticating.

I would take this method of informing those interested that I have purchased the Patent Right for this valuable improvement, of the inventor, John Allen, (now of New York,) for this and several adjoining counties, and that I am now manufacturing an article of Teeth and Gums that will compare favorably with anything in that line that has ever been made in this or any other country. I ask all, and especially those that need teeth (if they have engaged them or not,) to call, and examine for themselves.
