

The Cuba Expedition

The expedition for the invasion of Cuba, from this city, has, for the present at least, been broken up. The parties concerned in it have declared their purpose of abandoning it entirely, as they are convinced the course they have pursued has been illegal and unjustifiable.

After publishing the particulars of the breaking up of the Cuban expedition, by the seizure of three steamers in New York harbor, the Washington Republic goes on to remark—

Fatal Casualty.

Jacob Bodine, of McIntyre township, Lycopony county, and son of John Bodine, formerly of Turbot township, Northumberland county, came to an awful and sudden death, by the accidental discharge of a rifle gun, on Friday the 7th inst.

On the evening of the day referred to, the deceased had gone up the Railroad to invite some of his neighbors to a logging bee, which he intended to have the next day; and while at the house of Henry Aker, he desired to try an old State rifle which Mr. A. had in his possession, in order to see how it would do for target shooting.

Lafayette College.—The annual commencement of Lafayette College at Easton, will take place on Wednesday next. The Rev. James I. Lewis, A. M., of New Jersey, will deliver an address before the Literary Societies on Monday evening, and the exhibition of the Junior Class will take place on Tuesday evening.

Calvin Fairbanks of Genesee, N. Y., was convicted in Kentucky five years ago of aiding the escape of a slave and sentenced to the Penitentiary for 12 years. Yielding to petitions signed by Mr. Clay and other distinguished citizens, Gov. Crittenden pardoned him and he is now on his way home.

A Wisconsin Orator, who was delighting his audience with illustrations of our country's progress, used the following emphatic remark—"Fellow citizens—the tail of civilization is now exactly where the front cars was, no more than sixty years ago." That's not getting along very fast.

In Chillicothe, Ohio, a horse was feeding quietly, when he was suddenly snatched forth from their lives, in an adjoining lot, and unsaddled him at every point, and the beast died in less than three hours.

Canadian Independence.—The spirit of independence is increasing in Canada. A paper is to be started for the object of hastening the peaceable separation from the mother country.

The price of flour at San Francisco, California, at the latest dates, was 70,40 or 8,09 per barrel. This is something less than \$10, the price a few months ago!

Gov. Johnston left Kittington on the 5th inst., with his family for Harrisburg, intending to stop a few days at the residence of his father, in Westmoreland county.

The Chicago Tribune says: It has been suggested that David Wilson may be elected Speaker of the House. We think it can, and we hope it will be.

Father Matthew visited Lawrence on Saturday, and Lowell on Tuesday, and at both places was most generously received by immense gatherings.

Latest from California.

The steamship Empire City, Capt. Wilson left Chicago on the 1st inst. and arrived at her wharf on the North River, on Friday.

The South Carolina was ready to sail for New York next day, and the Sea-Queen was taking in ballast for the same destination. Sailors' wages were \$120 to \$150 per month; firemen, \$150. Sailors were plenty at these rates, and the steamers had no difficulty in getting away regularly.

The usual fever of the season was just beginning to prevail on the coast, and old residents of California estimated that at least 5,000 deaths would occur during the Summer among the unacclimated.

At San Francisco prices of every article of produce and manufacture had fallen off, although from second hands at retail large profits were still realized. The Californian stores on her last voyage here bought cheaper of ships in the harbor than were her stores in New York on her voyage out. Salaries were also much reduced, and clerks could be hired as cheap as in New York, excepting the better class of book-keepers.

China goods were extremely abundant and selling very low.

A letter from Sacramento City, dated July 24 contains the following intelligence:—Emigrants from Missouri, over the Mountain, are now arriving daily.

The Alta California vote of the 21 ult. contains the particulars and results of the election held there on the day before.

The election ordered by J. R. Riker took place yesterday. It was one of the most animated and spirited contests which San Francisco ever witnessed. Between the hours of 11 A. M. and sunset, 1,819 votes were taken. The following are the names of the officers elected.

Judge of Superior Court—Peter H. Burnett. Prefect—John W. Hayes. Alcaldes—John W. Geary. Second Alcaldes—Frank Turk, John T. Vinton.

These officers elected as above, will continue in office until the first of January, 1850, when their places will be supplied by the officers elected at the regular election to be held next November. The salaries are fixed by the Governor, but can not exceed, for superior Judges, \$4,000 per annum; for Prefects, \$2,500; and for Judges of the peace, \$1,500.

The Alta California of the 21 ult. has later news from the American River gold washings, from Cuba and from Feather River. News discovers every day occur, and since the floods have abated miners have had good luck.

I have only time to say, that I believe no one in ten who leaves the State for California, would undertake the journey did they have the remotest idea of the hardships, exposure and consequent imminent risk they incur by the undertaking.

Washington, Sept. 15, 1849.

The following appointments have been made in the office of the First Auditor of the Treasury:

Mitchell H. Miller, of Mississippi, to be Chief Clerk, in the place of Geo. H. Jones, of Virginia, removed. (Salary \$1400) Isaac S. Reed, of Kentucky, to a clerkship, in the place of Rapdale, deceased. (Salary \$1400.)

Mason Barnes, of Virginia, and M. Reddick, of North Carolina, have been appointed to clerkships.

Erasmus Monkland and George Weed, of Virginia, have been removed.

LIFE INSURANCE.—The subject of Life Insurance has not yet gained the public attention it deserves. Attention will insure its favor. For our own part, we do not see how any man in moderate business and circumstances, who knows that in case of his early death, his family would be left with narrow means, can deliberately refuse a few dollars, each year, to secure them a competence. See our advertising columns for terms of one of these Institutions.

The proceedings of the Northumberland Whig County Convention will be found in another column, by which it will be seen that no nominations were made, but the field was left open for volunteers. This is by far the most Democratic way of choosing our officers, and we have no doubt but that there will be volunteers out for every office to be filled at this election.—Miltonian.

Wm. B. Foster, Jr. has been appointed by the Canal Commissioners, engineer for the construction of the extension of the North Branch Canal. He is at present engaged on the Pennsylvania Railroad.

Hon. Theodore Frelinghuysen has been elected by a unanimous vote of the Trustees to the Presidency of Rutgers College, at New Brunswick, N. J.

Edgar A. Poe has joined the Sons of Temperance at Snocklee Hill, Virginia.

THE CHRONICLE.

Lewisburg, Pa.

Wednesday Afternoon, Sept. 19

An Examination of the Students of the Academy will take place on Wednesday next, (Sept. 26.) The Patrons of the school and the public generally are respectfully invited to attend.

The Dog days have passed—and the measures taken to preserve the public health have generally been much blessed. But there is need of caution still. The warm days of Autumn, and the luxuries of fruit, still exist to render the system liable to disease. Care should still be taken by clothing warm, temperance, and fresh lime as needed.

We are told there was no Poor House meeting at New Berlin on Monday. The Whig meeting on Tuesday was a "crowder"—all and spirited. Addresses were made by Col. Sifer, Hon. J. Cassady, and Henry M. Fuller, Esq., candidate for Canal Commissioner.

Mr. Fuller's was a calm and sensible affair, and commended itself—as the man himself does—to public respect and attention. Mr. Cassady's effort is allowed by friends and foes was a brilliant affair, directed principally against M. J. Cummings. Col. Sifer's was short, but creditable.

Two things Printers often have to tolerate, until they sometimes get tired of it. But here goes again—

- 1. Anonymous communications do not merit any attention whatever.
2. Editors do not enforce either the sentiments or language of all they publish.

P. H. Bell, Esq., has been elected Governor of Texas. M. B. is a Whig, but the issue in the election was local political. A Whig (for error of Texas) then John Cummings may carry Union county.

The National Intelligencer says Mr. Bell promised, before being elected, to be a Democrat hereafter. If that's the case M. J. Cummings' chance (like his colleague, is rather slim.

This new Military Company paraded for the first time on Saturday last—nearly 40 strong—and made a very creditable appearance. A company of this kind will come up to the design of the Constitution. It shows the happy tendency of the new system over the old—the superiority of a real military organization over the flood-word trainings. Who can wish such a system as raised up this Company to be abandoned for a useless Battalion?

The Guards have the U. S. regular uniform of blue, and when their plumes are added will make a still better display. The Officers elected were as follows:

Captain—E. A. Donohy. 1st Lieut.—Henry Farway. 2d "—F. A. Donohy. Old Sergeant—Nathan Angstadt.

May the "Guards" be always ready for service—and never be wanted!

New York Politics. The coalition between the Old Hunkers and Free Soilers of New York is now complete. The union ticket then will be as follows:

Judge of Appeals—Frederick G. Jewett. Comptroller—John A. Lott. Secretary of State—Henry S. Randall. Attorney General—L. S. Chatfield. Treasurer—Benj. Welsh. State Engineer—Alex. Campbell. State Prison Inspector—Darius Clark. Canal Commissioner—Fredrick Follett. Van Buren and Cass' vote last fall was nearly 17,000 over Taylor's. Probably 40,000 of Van Buren's votes were cast by Free Soil Whigs. How many of these will go over with the new combination, is yet to be seen. It is evident there will be an animated contest.

The varied tints, incoherencies, and charges, that an effort is or has been making to divide Union county and get a county seat at Lewisburg, are all new to the Lewisburgians, and they would not believe them if they did not see them in the Union Times! The story is circulated abroad, for effect against Col. Sifer, and is about as true as the Book of Mormon. A print must be desperate indeed that will invent and repeat such news, whole-cloth fabrications, to give its "soldiers and alone" ticket some hope of a chance! The "Times" in former days at least received as good support from a people it now seeks to excite prejudice against, as from any other.

M—never came to hand—Nos 23, 39, 45, Vol. 3 and Nos 21, 33, 35, 39, 41 and 46, Vol. 4, of that excellent journal, the "Scientific American." The Publishers are requested to forward these missing numbers.

We learn that the Whigs of Columbia county have nominated Mr. Partner for Representative, and Phineas Welcher, of Jerseytown, for Sheriff.

Rev. Henry Harbaugh of Lewisburg has received the honorary degree of M. A. from Marshall College, M. Cressburg.

Absent—The Jersey Shore Republican.

For the Lewisburg Chronicle.

There are many persons who are attempting to be witty or sarcastic only to lose their folly and wickedness. In this ridiculous position that Strucosman who in the last Chronicle sets out with an attempt to defend circus, but forgetting that aim launches forth a torrent of abuse on those who call or attend or approve of meetings for religious purposes in camps. It is to be hoped that the rejection of so much life from that stretched being, as such, has left him convalescent. My 6th impulse on reading his article was to be justly indignant—but on second thought I considered it too foolish and vulgar to be worth a decent person's contempt. But on turning in my own mind the matter over again, it occurred to me that probably this writer has gathered all that can be said in favor of circuses and against camp-meetings, and therefore his poor subterfuges might be worth exposing. In this view of the case I do not regret its publication, for as a pious divine once remarked, "It is well enough to read enough of the devil's works to know what he is about," as it is best to guard against poison by knowing exactly what reasons operate on the minds of those who entertain them. And the wise man says it is well at some times to smother a fool according to his folly." I ask the attention therefore of a Subscriber and his friends, and a Subscriber allows others to be his enemy, I will also admit him to be honest in his errors.

In the first place, you condemn yourself and overlook all your own arguments—perhaps unobviously—by taking what you allege to be the most times Christians do, to smother your answers from condemnation. The true standard to judge men's conduct is Character, and the best deeds of his best disciples.

You do not take into consideration the character of the meetings of the two. The circus performers you know are the most degraded and vicious beings that come among us, and the worst men are invited by many of our best men, and the promoters are of acknowledged good standing among all men. The two classes can be no more compared together than Cain and Abel. They are no more commingled than oil and water.

In the next place, the motives of the respective persons are widely different. The best object of circuses is to make money, and that they do, at the sacrifice of themselves, soul and body, at the cost of much pain and private misery and happiness. Camp-meetings are of no pecuniary advantage to those who attend them, and their design and tendency is to exalt the character and purify the hearts of all. Any comparison whatever of the two in this particular, is grossly unjust.

And the effects of circuses and camp-meetings are more widely different. Those who attend and hear the one, and then the other, can easily see which has the best effect on the heart, the mind, and the reputation. All the circuses ever in existence never benefited one immortal soul, while tens of thousands of immortal spirits will bless God through a blissful eternity for the institution of camp-meetings. One is a favor of life unto life, and the other of death unto death.

But it is alleged that had men gone to camp-meetings for bad purposes. But this is not the fault of camp-meetings, for all other good things are abused. The second being of our race tempt her husband to the destruction of parental happiness, and brought sin into our hearts. "When the sons of God came to present themselves before the Lord, Satan came also among them." And while the husbandmen slept, the enemy came and sowed tares among the wheat. And "I have I not chosen you twelve, and one of you is a devil?" Wicked men always endeavor to frustrate God's dealings with men, whether in more public or private worship; and the arch-enemy of souls generally increases his rage as efforts to do good are increased.

And Subscriber says, "We unto him whom the office cometh." Yet, we unto those who disturb the sanctity of the Sabbath, whether there is a compensation where they might go or not. It is the fault of those who do wickedly (and not of those who endeavor to do righteously) when evil is practiced, whether around a camp-ground, or in a house of worship, or privately, and the sin can not be laid to the innocent instead of the guilty. Camps like Bibles, preaching, and all other means of grace may indeed be perverted; but why? And those who prevent them, "it shall be better in the day of judgment" for the heathen than for them!

One would judge from "Subscriber's" gibberish of language (but lack of common learning) in his crazy attempt at composition, that he is himself one of disreputable characters he describes, for he labels the majority of those who composed the late camp-meetings. We saw one of that horrid profanation of the day of rest which he affects to denigrate: the blessed sun smiled among the cool leaves on hundreds of respectable people of all denominations, and respectable people of no religious professions—and all was order and propriety. What the "circus" may have done in bye-corners or three miles away, "the camp is no more responsible for than for what was done ten miles away. The reasonable inference is that Subscriber was outside instead of inside the ground, and therefore is a very poor and unjust judge of the good done.

In conclusion allow me to hope that subscriber and his sympathizers will see from this some what hurried sketch that there is no resemblance whatever between the two matters of comment, but both must stand or fall upon their own merits. The camps are not responsible for the sins of the circus, nor can the circus plead them in defence. And every one is accountable for his own sins. Therefore, as you love your present and eternal interests, do you remember that "the comparison of fools shall be destroyed." Cast in your lot with those who seek the face and favor of God, and it shall be well with them and they shall prosper. Insult not your friends and neighbors by such false and unkind comparisons, and do not imagine that such attempts at argument will injure any one but yourselves. For we must all stand before the judgment seat of Christ, to give an account of all the deeds done here in the body, whether they be good or whether they be evil.

Remains of Gen. Worth.—The A. O. Picayune notices the arrival in that city of Capt. Darling, on his way to Texas, to bring to New York the remains of the late Gen. Worth. He will also bring to the North from Mobile, the remains of the late Col. Duncan. The city councils of New York have voted one thousand dollars for the purpose of bringing back for interment the remains of those brave officers.

There was no Governor elected in Maine, but the Democrat is well ahead—Legislature divided.

For the Lewisburg Chronicle.

Mr. Enron: If there is such a thing as turning a thing into the ground, it seems to me there are some ULTRA, POOLISH Temperance men would do it. How any man with a thimble full of brains would want such a thing printed as that called PLAIN TALK in your last, for the life of me I can't see, and I'm sure no sensible man ever wrote it. Whoever did write it was ashamed to own it, and put it upon a woman—Miss Swizzle—Swizzle—Swizzle instead of her own name and her tongue is sharp as her pen for husband is a drunkard with the time with us out.

Well then Miss Swizzle goes in for burning down taverns that add liquor to any of her family—yes sir ARISSON recommended and founded as a Temperance measure!! Now I for one protest against any such doctrine being laid to Temperance people—for no sane sensible people believe or advocate any such thing, and nobody who does ought to put it under his own name so as not to injure the cause. To burn a tavern to stop men from drinking would be as foolish—yes more foolish—a thousand times—than the man who set fire to his own barn full of grain to kill the rats in it!!

Miss Swizzle need not deny that she is an avowed, for nobody would accuse her of a rascal's deed, reading her piece, unless she is a rascal's wife, for there is very little of the reasonableness of woman about it. Many men have been reformed and kept from evil by a kind and virtuous wife, while a harsh and scolding and unforgiving woman is the ruin of many men. The Scripture makes infinitely the only guard for a divorce, which is a sufficient cause, and is a duty to expose the immoralities of which were taken till death parts you. I hope such doctrine may never be put in print again.

The Taylor party of Philadelphia has nominated Samuel H. Rochester for next Sheriff. The Whigs and Natives appear to be united again.

EQUITABLE LIFE INSURANCE Company and Trust Company. Office 74, Walnut Street, Philadelphia.

THE Company are now prepared to transact business upon the most liberal and advantageous terms. They are authorized by their charter (sec. 3) "to make all and every insurance appertaining to life risks of whatever kind or nature, and to receive and execute trusts, make endowments, and to grant and purchase annuities." The Company sell annuities and endowments, and act as trustees for minors and infants.

Table of Premiums required for the Assurance of \$100 for the whole term of Life.

The premiums are less than any other company and the policies afford greater advantages. Married women and female children can insure the lives of either a husband or parent for one year, or for 99 years, or secure to them \$1,000, or for 1300 annually for seven years, or secure to them \$1000 should he die in seven years, or for 20 40 paid yearly during his life he secures \$1000 to be paid when he dies—the insurer securing his own losses by the difference in amount of premium from those charged by other offices. For 19 50 the heirs would receive \$5000.
