HISTORY OF

BABYLON,

And incidentally of Egypt.

Mr. L. DAVIS

will Lecture on this subject

in the basement of the Baptist ch.,

FRIDAY and SATURDAY EVENINGS, OCT. 12 and 13.

☞ Lecture to commence at 7 o'clock——Admission 12 1-2 cts. ☜

These Lectures embrace many deeply interesting facts connected with sacred and profane History, oriental Travels, &c, and are illustrated with a numerous collection of

SPLENDID Illuminated PAINTINGS,

Exhibiting BABYLON in its GLORY and in its RUINS!

Each more than 20 feet in circumference, 50 of which will be used in the illustration of each Lecture, and introduced in the following order: A Map of Egypt, Arabia Petræa, Palestine and Persia—the Temple and broken Statue of Memnon at Thebes: another view of the same, together with the Temple of Luxor—Pyramids; the Nile, and Vessels sailing on its smooth waters, with a group of Arabs in the fore ground—a view of the Nile by Moonlight; the Ruins of Alexandria—two Obelisks; Ruins of Tyre—Palmyra; the Tadmor of Solomon, in the midst of a Desert—Persepolis—View of the spot ever memorable as the location of ancient Babylon—specimens of Persian Sculpture, taken from the Ruins—a Plan of the City—the Walls, Towers, Gates, Streets, and Infernal Scenery—the river Euphrates passing through the city—the Outer security—the Old Palace—the New Palace, Nebuchadnezzar sitting upon his Throne judging the three Hebrews—Tunnel under the Bed of the River—the Temple of Belus and Tower of Babel—Golden Idols and Golden Table—the Hanging Garden, a splendid Painting admired by all—Daniel in the Den of the Lions—Belshazzar's Feast, with 70 figures as large as life—the Artificial Lake, 40 miles square, excavated by the hand of man—the Persian Army entering the City—the King slain at the Gate of his Palace—Departure of the Children of Israel—Specimens of Natural History.

☞ Such a large number of very superior Paintings, beautifully illustrating a subject in itself of the highest order—is seldom to be found. A sight of these alone, it has been said, richly repays, and the Lecture upon this grave subject does not fail to give entire satisfaction to the most intelligent mind.

That these Lectures are interesting, instructive, and of practical utility to all, is evinced by numerous letters from the Clergymen, Editors, Teachers, professional and literary men of different States, who strongly recommend them to public favor.

DR. TRASK'S Magnetic Ointment!!

BALD HEADS.

What young man wants to wear a wig! We all know the value of a good head of hair. A young man with a bald head, is a sort of walking caricature of his species. Hence the many various attempts to remedy or conceal the deficiency. Hundreds of the young men of this country, after trying the thousand and one chemical preparations and nostrums for restoring the hair, are driven the necessity of wearing a wig! a practice as little conducive to cleanliness, as it is dangerous to health! Now, we happen to know from practical experience that Trask's Magnetic Ointment will restore the hair on a bald head, when all other remedies have failed.

Fever and Ague.

WHAT is the mode of treatment best adapted to the cure of Fever and Ague? It has usually been treated by medical men as a disease of itself. Strictly speaking it is not a disease, but a *symptom* of disease. It is the result of a derangement of the *liver*. Here lies the difficulty, and here is the disease. It is therefore the liver to which the remedy should be directed. Here the cause exists and it is the cause which is to be removed, or a permanent cure will not be effected. By addressing remedies to the symptoms we leave the cause untouched, ready to produce a return of the chill and fever, or the first over exertion of mind or body. The success of Dr. O-good's India Cholagogue in effecting *permanent* cures of such affections is explained by its well known deobstruent effect upon the biliary organs.

Imitations are abroad! Be particular to enquire for "Dr. Osgood's INDIAN CHOLAGOGUE."

Important Information!

FOR the difficult respiration and debility attending diseases of the Lungs, or Throat and Breast, *Thomson's Compound Syrup of Tar and Wood Naptha* has been found an invaluable remedy. Besides its power as an Expectorant to relieve the lungs from the accumulated matter which results from the relaxed state of the system in hot weather, it also acts as a healing balm to the ulcerated parts and a strengthener to the system.

So salutary is the action of the Syrup in this respect, that many of our most respectable Physicians employ it in their practice, and we have daily evidence of cures effected in pulmonary diseases where skill has utterly failed.

Persons wishing to procure pure and fresh Medicines, are particularly invited to give me a call before purchasing elsewhere, as all Drugs are carefully inspected before offered for sale and all Medicines manufactured by myself are warranted good. Having a practical knowledge of the business from upwards of ten years' experience, I flatter myself that I am a competent judge of the same.

All orders entrusted to me will be promptly attended to, and my friends may rely upon getting everything of the very best quality.
