are duly authorized to solicit and receive subscriptions and advertising for the *Democrat & Star*, put hished at Bloomsburg, Columbia county, Pa, Democratic State Convention. The Democratic State Committee, at its

meeting, on January 29th, at Harrisburg, adopted the following resolutions: 1st. That the regular Convention of the party, for nominating a candidate for the Supreme Bench, be held at Harrisburg, on the Second Tuesday of June, 1867, at twelve

o'clock M., and that said Convention be composed of the usual number of delegates.
2nd. In addition thereto, it is recommend ed to the Democracy of Pennsylvania to forthwith elect, in the usual manner, two delegates, of recognized position and inflaence in the party, for each Representative and Senator in their respective district, who shall meet in Mass Convention, at Harrisburg, on a day to be fixed by the Chairman of the State Central Committee.

By order of the Democratic State Com., WM. A. WALLACE, Chairman,

-One of the ablest of the Demogratic editors of New England, whose light shines even east of Boston, writes in the following spirit: "It is time for somebody to move up on the enemy's works in a different kind of style from that practiced by our stupid leaders for the past ten years. Such a cowardly, rotten set God never made before. I wonder that we have not been annihilated. But there is a cohesive principle of right controlling the masses of our party, which, if channel, would conducted into the proper be omnipotent. I wish there were some way to get rid of that poor abortion called National Democratic Committee. But the body of dubitant Democrats only embraces the northern States, and cannot aim to act for the whole Demogratic party of the country. It is substantially the same body of imbeciles who discharged the task of running the Democratic party in the last Presidential campaign. If they insist on doing the same again next year, we shall come off with a similar result. A want of pluck is as bad as a want of sagacity in a political campaign. But where sagacity and pluck are both wanting, nothing but defeat can be looked for. - Old Guard.

The above suits us exactly - it is the right kind of talk-there is more truth than poetry in it, and we hope the renders of all Democratic papers, at least, will so understand it. It is high "time for somebody to move upon the enemy's works in a diff ferent style" than that practiced by men calling themselves Democrats, who spend a great portion of their time fugling with a set of corrupt and illy designed men known as Johnson Republicans. Look over the list and you will find these Republicans to have been the worst kind of men during the war-the worst enemies the country and the Democratic party had to fear. They were the very men who caused all the arrests and imprisonments in the country and the murders. Yet these Democrats who take their counsel, to-day, would not have the Democratic press of the country abuse them. It is votes that the Democratic party want and they can't be had by abuse. Bless their poor insignificant little souls, these Johnson Republicans, such men as Bill Seward, Stanton, Blair, Dix on, Doolittle, Raymond, and lesser lights throughout the country, a number of whom co-habit in this county, do not compose the mass of the Republican party, and have very little or no influence in that or any other party. These men deserve the abuse of every Damo crat in the land and they should receive it. Make the people acquainted with their outrageous and tyrannical acts and you have effected a revolution in the minds of the masse: composing the opposition party, the result of which must be to re-place the old timehonored Democratic party into position and

A New Book.-It has been some time since we became in possession of a little publication that has afforded us as much truthful information as the work entitled "A YOUTH'S HISTORY OF THE GREAT CIVIL WAR IN THE UNITED STATES, from 1861 to 1865," by R. G. Horron, with illustrations. Published by VAN EVRIE, Houron & Co., No. 162 Nassau Street, New York. Retail price, \$1.60. Number of pages, 384. It is printed upon good white paper, with clear type, and measured off into chapters, all being arrangad under cross headings, treating upon "the Causes of the War," "the Election of Lincoln." "the Policy and Objects of Secession," "the Beginning of Secession," "Efforts of the Democracy to save the Union," "Mr. Lincoln's Journey to Washington," "the Fest Gun of Sumpter," "Fall of New Orleans," "Evacuation of Yorktown," "Battle of Williamsburg," "Reign of Plunder and Arson," "Events in the North in 1863," &c. &c. We think every body should have a copy of this truthful and ably written History. The People of this County will all have an opportunity to purchase it, as an Agent is engaged in canvassing for its sale.

Dr. John, in the last week's Republican, says: "They," (the Democratic Party,) "occupy the position of the old tory party of the Revolution." Well, well! the world does move. While the tried men of the Revolution first formed the Democratic party, and their decendents have remained in its ranks ever since, where were the ancestors of the Doctor at that time, and where are their decendents and 'spected connections now? Well, well! Loyalty forever!

The U. S. Income Tax.

the collection of the first assessments of this tax, by farmers and others, of the manner in which it was assessed in certain portions of our State. For instance, it was said, that the country Assessor would visit a farmer, to assess him, and, after ascertaining the amount of his sales of wheat, rye, corn, pork, beef, &c., this Assessor would next inquire of the farmer, how many children have you in family? what do they cost you per week for boarding? &c. &c.; and in this way an income considerably over \$600.00 was made up, because the Assessor would add the expenses of maintaining the family, clothing, education, &c., to the income from the amount of products of the farm sold.

To show how unfair this method of procedure is, let us take a ceive from them the above present, but I easq—such an one as may be only an instance of thousands in the country!

This farm-This will make a total of, say, \$700,00 of our columns. farm products sold. All this he hands in to the United States Assessor. The Assessor then makes the inquiries we have mentioned, that is to say: How much is the support of your family worth? The farmer replies. "I have five children, which, with the cost of living of my wife and myself, and the costs of educating these children in accordance with the requirements of the age, clothing them and my wife in a decent manner, &c. &c., will be about, on an average, two dollars a week, each; which will make the expenses of my family, say \$728.00. 'Now," says the farmer, "the total prolucts of my farm are about the above amount, but, as you will see, Mr. Assessor, I have nothing left from which to pay my tax on \$128.00, (the difference between \$600.00 and the amount of my total income,)-I have nothing left to pay the tax with, for the plain reason that the whole &c., of my family." But the inexorable Assessor replies, "this is no business of mine, you have shown that you have an income of \$128.00 in excess of the amount not have a penny left, you must pay the tax on this amount." The unhappy farmer cormorant, for I will have to give all my laor another year, as I have done the last year, to the support of those who are dependent upon me.

In these remarks we make no reflections upon any particular Assessors; these mistakes, or, to give them a harsher name, wrongs, may have occurred through imperfect knowledge of a new and complicated law; but it can surely be reasonably hoped that such errors will not occur again.
