The number of persons who will return incomes under the revenue law this spring will be very much less than it was last year. Cornect Speaking .-- We would advise all young people to acquire, in early life, the habit of correct speaking and writing, and to abandon as early as possible any use of slang phrases. The longer you live the more difficult the language will be; and if the golden age of youth, the proper season for acquisition of language, be passed in its abuse, the unfortunate victim if neglected. is very properly doomed to talk slang for life. Money is not necessary to procure th's education. Every man has it within his power.
