# AGRICULTURAL.

## Sociability Among Farmers.

Naturally the farmer is an unselfish man. His labors are mostly out of doors. His calling takes him much abroad, and enables him to mingle considerably with the world. Yet looking at the very large proportion of the population embraced in his pursuit, and the important infinence excercised by it over all our public affairs, it is a subject of common remark, even by agriculturists them. selves, that their social intercourse should be so much restricted. There is no other for this seclusiveness on the part of farmers that we can see than the "treading in the footsteps of their predecessors." Be this as it may, there are other causes operating which appear to be changing this for the better. Country fairs, bringing agriculturists together from districts sufficiently near to each other to make acquaintanceship pleasant and lasting, and putting them in friendly emulation in matters and things involving their agrestic skill and success, are clearly working to form more close companionships between those whose domestic comforts and family enjoyments must be greatly promoted in the future.

Little clubs among the farmers of a neighborhood, to meet once a week, to discuss or talk over the innumerable subjects connected with the intelligent prosecution of their noble profession, produce a decidedly fraternizing and socializing effect. While these local associations should not be too formal and restricted, they should have an official organization as better calculated to cause punctuality at the meetings, as well as to add to their permanency. On these occasions the wives and daughters of families should always accompany their husbands, fathers or brothers-not to participate of course in the proceedings that may take place, but to increase the agreeability of the meetings, and to share in the pleasure of these delightful interchanges of good neighborhood. Indeed, if the truth must be spoken-and we are ready to do it upon all occasions, especially upon such an one as this-there is very little social enjoyment in the world which is not refined and made doubly enjoyable by the presence of woman

- Germantown Telegraph.

SHEEP CHEESE .- We are in the habit of believing that Yankees are sharp when money is to be made ; but they cannot begin with the patient, saving, flint-skinning Europeans. The English, and even the Scotch, are improvident and wasteful in comparison. For instance, what Yankee would ever think of milking his sheep? But at Paris, in the Exhibition, is a sample flock of sheep kept expressly for milking; and their milk is more profitable than the wool or mutton. One company in the department of Avignon makes of the milk of sheep four million pound of cheese a year, which is sent all over the world from Bucharest, in Roumania, to New York, whence it is distributed, no doubt, over the Western continent. It is also sent direct to China and South America. This is the much edmired Roquefort cheese. It is made with great care, and ripened in extensive caves of a perfectly even temperature, a model of which forms one of the features of the Exhibition. We have no recollection that our model farmers in this country have turned their at ention to milking sheep. It seems it is a very profitable business. We learn that Mr. Henry Ten Eyek, of Cazenovia, is about to introduce the milking process in his flock of five thousand sheep on his farm in Iowa. We wait with anxiety to learn the result.-Albany (N.Y.) Knickerbocker.

VALUE OF OLD ROPE .- Among the n NEW RESTAURANT, In Bhive's Suliding, on Main Street. WM, GILMORE,

aforms the chizens of Bloomsburg and vicialty that to has opened a New RESTAURANT, in this place, where he invites his old friends and castomere to call and partake of his refreshments... It is his intention to heap the best LAGER BEER AND ALE,

merous worn-out and often considered worthless material, which the ingenuity of man has discovered means of re-manufacturing, and rendering of equal value with the original substance, are old tarred ropes. which have long been in use at the coal-pits. Our readers will be surprised when we inform them that out of this dirty and apparently unbleachable substance is produced a tissue paper of the most beautiful fabric, even, of surface and delieacy of color, s ream of which, with rappers anl strings, weighs two and a half pounds. It is used principally in the potteries for transferring the various patterns to the earthen ware, and is found superior to any substance yet known for that purpose. It is so tenneious that a sheet of it twisted by the hand in the form of rope, will support upwards of one hundred weight. Truly we live in an age of invention. - Liverpool Standard.

LITTLE NEGLECTS DESTROY FARM PRO **TITS.**-By neglecting to lock the stable door, the horse was stolen ; by leaving a lot of old rubbish in the barnyard, one colt broke his leg, and another got a nail in his foot; is neglecting to spend half an hour in battening up the sheepfold, a pair of twin lambs froze to death ; by carelessly tying the bull, the ox was gored and died; by neglecting to kill the ticks on the sheep, and lice on the cattle, the sheep became poor, shed their wool, gave no milk, and the lambs died, and a fine stock of cattle in high condition when they came to stall, lost all their ficsh before spring, some were helped up by the tail and survived, while others were snaked off by the neck, a sort of retributive justice to their owners, always attached in some way to human transgression.

Cattle for fattening next fall should have the advantage of good pasture during the summer, that they may have a good start. Good, pure water, with access thereto, is highly important, as is also a regular allowance of salt, or, what is better, constant access to it-no need to fear of their eating too much, as instinct will guide them in their wants. Milch cows should be cared for not to let them fall off in their milk late in the month. A feed of cut grass, clover, corn, millet, &c., morning and evening will tend to keep up a generous flow.

SGr Clear away early peas and potatoes and plant celery. Plant it in a slight furrow made with the hoe. It may be planted near other crops which will be removed in time five from for earthing up.

#### POWELL'S EMBROCATION, FOR ALL DISEASES INCIDENT TO HORSES

CATTLE, AND THE HUMAN FLESH,

requiring the use of an external application. This new Compound, prepared by a practical Chemist, haing a full knowledge of all the medical virtues of each ingredient that enters to its compo-sition, is warranted to exceed anything of the kind ever yet offered to the public as an external appli-cation for the diseases for which it is recommended. We are satisfied that it will work its own read We are satisfied that it will work its own road into the confidence of all who use it, and those who try it once will never be without it, and therefore we rely ou experience as the best test of its usefulness. It is pronounced by

TPARTERIES

and all who have tried it, to be the best application ever used. This Embrocation has been put up for over eight years, rad it is only through the increasing damand and throat request of my friends and the

over eight years, rad it is only through the increasing demand and urgent request of my friends and the public that I send it forth as the grand remedial agent for the various diseases to which that noble and useful animal, the horse is anbject. Many remedies have been offered to the public under different forms, some offered to the public offers at best of little use, and many wholly im-proper to answer the surposes for which, they are recommended. A judicious and really useful composition, free trem those objections, has heresofore long been de-aired by many gentlemen who have

VALUABLE HORSES, And are unwilling to trust them to the care of design-ing and pretruded Farriers. Their withins are at longth fully gratified, by (Dr. Geale) being prevailed upon to allow this valuable Embinecation (which has proved so effic. clour to the various diseases) to be prepared and brought out to the public This Embrostion was extensively used by the Government during the war. Address all order to DR. EDMOND BEALE. 600 Bouth Second St. Philodelphia, Ps.. March 30, 47-6mo.

## REPARATOR CAPILLI.

Throw away faise frizzes your switches, your wig; Destructive of comfort, and not worth a fig; Come aged, come youthful, come ugly and fair. And rejoice in your own luxuriant hair.

MEYERS' Newly Improved **RESPARATOR CAPILIA.** For restoring hair upon hald hends (from whatever cuties it may have fallen out) and forcing a growth of hair upon the face, it has no equal. It will force the beard to grow upon the smoothest face in from five to eight weeks, or bair upon build heads in from two to three months. A few ignorant practitioners have enserted that there is nothing that will force or hast-en the growth of the hair or beard. Their assertions are false, as thousands of itying writeesses (from they reperiance) can bear win news. But many will say, how are we to distinguish the genuine from the beard are entirely worthless, and you may have al-ready thrown away large amounts in their purchase. To such we would say, try the Reparator Capilli, it will cost you nothing unless if fully comes up to our representations. If your Druggiste does not keep it, send us one dollar and we will to over representations. If your Druggiste does not keep it, coucher with a receipt for the money, which will be faction is an grows. Address. W. L. CLARK & CO. Chemists, No 3 West Payets M., Byracuso, N. Y. This remarky has earsty failed to cure the cases of Chills and Fever, and it has this cases of a noise and rever, and it needs to is great as casing over other Ague medicines, that if subdues the complaint without is jury to the patient. It con-tains no quining or oth r de leterious substance, and think no quintum or on or or e errous substance, nor dees it product quintem or nony injurious effect what-ever. Shaking houts ref the army of the west, try it and you will enderse these anserthous. Prepared by Da. J. C. AYER & CO., i owell, Mass, and sold by all Druggists and dealers in medicine everywhere.

YER'S

CATHARTIC PILLS

OPERATE by their powerful influence on the internal viscera to purify the blood and stimu-late it into healthy action. They remove the obstructions of the stomach, bowels, liver, and other

U internal viscera to purify the blood and stimu-late it into healthy action. They remove the obstructions of the solmach, howels, liver, and other organs of the body, and, by restoring their irregular action to health, correct, wherever they exist, such derangements as are the first causes of disease. An extensive trial of their virtues, by Professors, Physicians, and Patients, has shown cures of dan-gerous diseases almost beyond belief, were they not subtantiated by persons of such exalted position and character as to forbid the suspicion of untruth. Their certificates are published in my American Almanac, which the Agents below named are pleased to furnish free to all inquiring. Amexed we give Directions for their use in the complaints which they have been found to cure. Fon Costructuresnas.— Take one or two Pills, or such quantity as to gently move the bowels. Cos-tiveness is frequently the aggravating cause of Priss, and the cure of one complaint is the cure of both. No person can feel well while under a coative habit of body. Hence it should be, as it can be, promptly relieved. Fon Dowerpsia, which is sometimes the cause of *Costiveness*, and always uncomfortable, take mild dozes.— from one to four — to stimulate the atomach and liver into healthy setion. They will do it, and the *heartburn*, bodybirn, and soulburn of dyspepsia will rapidly disappear. When it has gone, don't forget what cured you. For a Four, Stonach, or Morbid Inaction of the Bourds, Which produces general depression of the spirits and bad health, take from four to eight Pills at first, and smaller doses afterwards, until activity and strength is restored to the system. Fon NERVOUSENES, STOK HEADACHT, NAUSAA, Pain in the Stomach, Back, or Side, take from four to eight pills on geing to bed. If they do not oper-ate sufficiently, take more the next day until they do. These complaints will be swept out from the system. Don't wear these and their kindred dis-orders because your stomach is foul. Fon SCHOFULA, ERYSIFELAS, and all Diseases

of the uniclean diseases of the skin, because your system wants cleansing. To PCMIPY THE BLOOD, they are the best medi-cine ever discovered. They should be taken freely and frequently, and the impurities which sow the seeds of incurable diseases will be swept out of the system like chaff before the wind. By this property they do as butch good in preventing sickness as by the remarkable cures which they are making every where.

here. Liven Complaint, JAUNDICE, and all Bilious

Affections arise from some derangement — either torpidity, congestion, or obstructions of the Liver.

Affections arise from some derangement — either torpidity, congestion, or obstructions of the Liver. Torpidity and congestion vitinte the bile and render it unfit for digestion. This is disastrous to the health, and the constitution is frequently under-mined by no other cause. Indigestion is the symp-tom. Obstruction of the duct which empties the bile into the stomsch causes the bile to overflow into the blood. This produces Jaundice, with a long and dangerons train of evils. Costiveness, or alternately costiveness and diarrhea, prevalits-Foverish symptoms, languor, low spirits, weariness, restlessness, and melancholy, with sometimes in-ability to sheep, and sometimes great drowsiness is cometimes there is severe pain in the side; the skin and the white of the eyes become a greenish yellow; the stomach acid; the bowels sore to the touch; the whole system irritable, with a tendency to fever, which may turn to bilious fever, bilions colic, bilious diarthear, dysentery, &c. A medium dose of three or four Pills taken at night, followed by two or three in the morning, and repeated a few days, will remove the cause of all these troubles. It is wicked to suffer such pairs when you can eure them for 25 cents.

such pains when you can cure them for 25 cents. RHEUMATISM, GOUT, and c. h.f. malory Fo

REPUBLICATION, GOUT, and use befaminatory re-vers are rapidly cured by the purifying effects of these Fills upon the blood and the stimulus which they afford to the vitai principle of Life. For these and all kindred complaints they should be taken in mild doses, to move the bowels gently, but freely. As a DINNER FILL, this is both agreenble and useful. No Fill can be made nove effectual to add containing more has been made more effectual to.

and certainly none has been made nove effectual to use, the purpose for which a dinner pill is employed. PREPAGED BY
