

W. M. JACOBY, Editor. Wednesday, Aug. 21, 1867.

For Judge of the Supreme Court, HON. GEO. SHARSWOOD, OF PHILADELPHIA. ASSEMBLY. CAPT. THOMAS CHALFANT, of Monroe County.

THE SHARSWOOD "OPINION."

The Republican boasting calls upon the Democratic papers to print the opinion of Judge Sharswood on the legal tender question. Why, in the name of common sense, don't the man publish it himself, instead of giving his readers garbled extracts from the document—especially if it is of such a terribly disloyal character as to completely annihilate Judge Sharswood's reputation as a patriot? Come, Doctor, it is your thunder machine here! We dare you to print the opinion in full, so that your readers may have a proper understanding of the case. Why call upon us to furnish the (supposed) proofs of the unworthiness of our candidate when you, as you allege, have them at hand? The opinion will be found published verbatim in the Philadelphia Age of the 14th inst., a paper which penetrates every nook and corner of Pennsylvania where a Democrat is to be found. Why does the Republican keep it back? It is our opinion that the Republican will not accept our challenge, and publish the opinion in full. That journal is afraid of the light. But we shall see whether it will longer insult the common sense of its readers by withholding from them what it claims to be ample proof of the unworthiness of Judge Sharswood to sit on the Supreme bench. Let the "opinion" appear in the columns of the Republican, otherwise let that journal "dry up" on the subject.

Stanton Kicked Out.

Leas Deo! Johnson has done one good thing. He has kicked Stanton out of the Cabinet. He would not go out until he was kicked out. In this respect we fear he represents the Mongrel party. It is doubtful whether they will give up power until compelled to. Mr. Johnson asked Mr. Stanton to resign, when he sent a most insulting letter, telling him that he would not, whereupon Mr. Johnson suspended him, and made General Grant acting Secretary of War. We would fondly hope that the linch-pin being knocked out, the whole wagon will fall to pieces. There has been a mysterious influence surrounding Mr. Johnson, which no theory has been able to unravel. Why he should retain Stanton, who has opposed him at every step, and why Seward should be the defender and supporter of Stanton, though pretending to differ from him, and support the President, all these are curious facts, and difficult to be understood by outsiders.

Would that Andrew Johnson would rise like a giant refreshed, and hurl the enemies of our country to perdition. All he has to do is, simply to obey his oath of office. He is Commander in Chief of the army. Let him withdraw it at once from the southern States and send it to Gen. Sherman to protect our western settlers; let him administer the government on the Constitution pure and simple, and pay no attention whatever to the so-called laws of Congress, that presume to wipe out States. Is he to turn traitor because Congress has? That is the question for him to ask himself, and answer if he can. With one grand effort now he could right the ship of State. Let him put Seward in the same boat with his friend Stanton, and get rid at once and forever of the whole gang of plotters, conspirators and architects of ruin, who have dragged our country into its present abyss of woe.

In our next we intend publishing the able speech of Hon. Benjamin H. Hill, of Georgia. It was delivered on the 16th of July last at Atlanta, before a large assemblage. The Bellfante Watchman says: "It is the ablest thing we have seen from the South on the situation, and exactly embodies our ideas in regard to what ought to be the policy of the South. We have been utterly astonished that any man of decency or intelligence in the South would willingly accept the shameful and despotic government which Congress would force upon them. We wonder that more feeling is not expressed on the subject for we did not believe the Southern people to be of those who 'lick the hand that smites them,' and we are glad to see this indication of their waking up."

Frank Leslie's Magazine is on hand for September, looking as tempting as a large fine luscious peach. Its fashion plates cannot be surpassed. If we were a lady (and we often wished we were—for awhile anyhow), we certainly should not do without this Magazine. We can't see how any one can. There is an immense amount of labor and money expended on this publication for which the proprietor is entitled to a liberal support.

ARRESTED.—J. H. Bradley, Esq., the senior counsel for the defense in the Surratt trial, was arrested on Thursday morning upon the affidavit of Major Richards, Superintendent of the Washington Police, for handing a letter supposed to be a challenge to Judge Fisher. He was taken before a magistrate, waived an examination, and gave bonds in fifteen hundred dollars for his appearance when required.

Republican Convention.

Between the hours of one and two o'clock on Monday afternoon last, the Republican Blockhead Convention of this County was held in the Court House in Bloomsburg. It was decidedly the almost affair, to be called a Convention, ever held in this County; and if we may take this Convention as a fair indication of the dwindling away of the Blockhead Party in Columbia County, there will be but few of the party left after the 8th day of October next.

On motion of Col. Knorr, a Delegate from Bloom, the Convention came to order by the calling of Benjamin P. Fortner, of Catawissa, to the Chair; and on motion, Capt. Jackson, of Berwick, and M. W. Monroe, of Montour, were chosen Secretaries.

The wheels of the Convention now being slightly in motion, Col. Knorr offered a resolution appointing John Hartman, of the "Buckhorn" in Homelock, and some "other man," as Representative Conferences, which was accepted without a dissenting voice.

A motion was then made to the effect that the Convention proceed to the nomination of a full County Ticket, which was agreed to.

For the office of Sheriff the Convention nominated Silas Conner, of Orange, without opposition. There being no time taken up by applause, the Convention immediately proceeded to nominate a candidate for County Treasurer. That worthy individual was our townsman, I. W. Hartman, who, we have no doubt, would make a creditable officer if he had an opportunity of serving; but while the Democratic party choose to manage the financial affairs of the County, Mr. H. will be obliged to occupy an uninteresting seat. The Democracy propose to handsonely elect Mr. Jacob Yohe, of Millfin.

The next man put up was Silas Johnson, of Locust, for County Commissioner. Of course David Yeager, the Democratic nominee, will distance Mr. Johnson. These Johnson Republicans who are interested in running a paper, swear that they will not support this man; so what will be done? We can see nothing left for the nominee in that event but to suffer defeat.

For Auditor, a very important office but little sought after, especially in the Republican ranks, the Convention nominated—Yetter, of Maine. He most likely will be elected—to stay in Maine, and attend to his present vocation.

The last and only nomination, that might be considered almost a "sure pop" for an office, was that of Elisha Hayman, of Greenwood. This nomination was made to the great disappointment of quite a number of the more ardent workers of the blockhead party. This nomination was for the office of Jury Commissioner.

An entire ticket having been nominated, Col. Knorr rose to his feet and stated to the Convention that Dr. John was present, and that he (John) had a lot of resolutions in his pocket, drawn up for the express purpose (by the request of several delegates) of having them read at the Convention, and therefore, he (Knorr) would move that Dr. John be requested to read them. The Convention took favorable action on the matter. The great "I AM" of the Republican arose, drew forth from his pocket a roll of paper, and read therefrom a string of resolutions as long as the moral law, complimenting and endorsing the Abolition Congress for their (dis)unionism, Gov. Geary for his (dis)honesty, and Judge Williams for his not disapproving of their ruinous and high-handed measures.

It is not necessary for us to say that these resolutions were adopted, when there was nobody in the Convention who dared oppose them, after the great letter-vice had finished reading, putting in them all the vim, force, emphasis and phlegm he could produce. The President, Andrew Johnson, who P. John once boasted of having voted for in the Baltimore Convention, was given the complete go-by. A Johnson may consider himself honored by their silence; while, on the other hand, Senator Cameron was belabored all over with their saliva, not at all complimentary to a statesman of acknowledged ability and true worth, but the old Winchago may take it all right.

Some one made a motion to adjourn, and Ben-jam-in put the motion to the Convention and adjourned *hunc in die*.

Death of Judge Armstrong.

WILLIAMSPORT, Pa., August 13.—The Hon. James Armstrong died this evening, aged 75 years, after a long illness. He was one of the most distinguished members of the bar in this part of Pennsylvania, and has not missed a Court in Lycoming County for the past forty years, except during the time he was on the bench of the Supreme Court. He was employed in all important cases in our courts, and aided in the conviction of every criminal who was ever executed in this County. He was highly esteemed for his moral worth and was beneficial to many commencing business life. He was a full member of the Presbyterian Church, and gave liberally to its support.

A GOOD EXAMPLE.—An exchange thus records the good example of a prominent Democrat in the proper dissemination of Democratic principles: "One of our subscribers came to our office one day last week and renewed his subscription for another year. He then ordered a copy of the paper to be sent to his two brothers and his workman, and then paid for them a year in advance, remarking that 'these were times when men ought to read the truth.' We record this example of a humble but earnest Democrat with pleasure. It is worthy to be followed by others. Let the people read sound papers and understand fully the aim and object of the Jacobin leaders, and there will be a change in the public opinion. Old men should encourage the young men to take and read Democratic papers. Let them grow up with correct principles. We commend the above to the consideration of our friends in the County."

A GAL-LANT AFFAIR.—On Sunday night one of our merchants was aroused from his slumbers by hearing some one on the kitchen roof of his house. Taking his revolver he went to the place and discovered a young man coolly attempting to get in a window. As his actions were hardly those of a burglar the merchant spoke to him before shooting, and the young man like Crockett's com, was very glad to "come down." In reply to his questions, the young man stated that he had come to pay a friendly visit to the servant girl, and utterly disclaimed all burlesque intentions. His capor, however, marched him to jail, and yesterday he was taken before a Justice of the Peace. The girl was sent for and, much as she regretted the necessity, she admitted the "soft impeachment" that he was visiting her with her consent. The young gent was fined \$15 and costs under the city ordinance, and warned to be more circumspect in his midnight rambles.—Lycoming Gazette.

Two weeks ago last Saturday evening, we lost our Portunonia, with all its contents, at Bloomsburg, as per notice in the last Standard. Last Friday evening's mail brought us an envelope, post-marked Bloomsburg, enclosing and returning to us the Notes, Receipts, and Railroad Passes, minus the paper money and gold coin, without a word of explanation. Not satisfied with the reward of \$10.00, we offered the finder of the book for its return, with the contents, he has very very modestly appropriated all the money and the wallet to his own use and behoof.—Lycoming Standard.

RAILROADING.—The strong rivalry existing among the different railway companies to direct travel to their respective roads has been the means of securing many improvements conducive to the safety and comfort of passengers. And now experiments are being made with coal oil as a fuel for generating steam, which, if found practical, will abolish another disagreeable annoyance in the shape of cinders from the engine, which not only begrim and foul our clothes and persons, but frequently cause serious injury by burning.

DEAD.—Mr. Robert Winter, an old and esteemed citizen, was found drowned in a rain barrel, on Friday morning last. It is supposed he had had an epileptic fit, to which he was subject, and had gone there for the purpose of bathing his head, when becoming overbalanced, fell in. He was very highly respected, and his death has cast a gloom upon the community. His remains were taken to their final resting place, on Sunday afternoon, followed by a large concourse of friends. Peace to his remains.—Montour American.

HORSE KILLED.—On Saturday evening last, as a valuable horse belonging to Mr. James Sponenberg, of Briarclerk, was passing through this borough, it stumbled and fell, breaking the bone of the left fore leg, near the elbow joint. The animal lived until Monday morning, when it was killed, to put it out of misery. An examination was had which established the above fact. Mr. Sponenberg has been quite unfortunate of late.—Berwick Gazette.

Men have an average of thirty pounds of blood in their frames, and two hundred and forty-eight bones. Women have the same number, not including whale bones.

The Luzerne Union, says it is able to state upon authority that Hon. Geo. W. Woodward declines to be a candidate for Congress in the Luzerne District.

MARRIED.—On the 18th inst., by the Rev. William J. Eyer, Mr. Jacob Fetterman, to Miss Mary Ann Elizabeth Keller, both of Locust Township, Columbia County, Pa.

IN MEMORIAM.

The following resolutions were adopted at a regular meeting of Jackson Lodge No. 72 I. O. of U. T. of Pennsylvania, August 17th, 1867. Whereas, It has pleased Almighty God to remove very suddenly from our midst, our beloved Brother, Steward P. Sterner, therefore, Resolved, That in the death of our Brother we have sustained an irreparable loss and most painful bereavement, the anguish of which-time alone can assuage.

Resolved, That we bow in submissive resignation to the dark and mysterious visitation which has taken from our midst a dutiful member and a kind Brother, feeling that what is our loss is his gain. Resolved, That we tender our deep sympathy to the family of our lamented Brother, praying that He that doeth all things well, may sustain them in their bereavement. Resolved, That a copy of these resolutions be transmitted to the family of our deceased Brother and that they be published in each of the County papers, the Templars Banner, and the monthly Circular.

J. N. BARKLEY, L. N. LEIDY, L. MARTMAN, Committee.

TROUBLE IN THE VEGETABLE LINE.—A one-armed soldier who brought a carload of vegetables to this place the latter part of last week, got into a snarl with some of our grocery men for not having a license. He had to close up but on Monday was open again and disposed of his cargo. We are not thoroughly conversant with the difficulty, which was much talked about at the time. It is said the soldier was selling for other parties. A law was passed last winter giving disabled soldiers the privilege of peddling, provided they make affidavit that they are the sole owners of the property they wish to dispose of.—Danville Intelligencer.

FIRE.—A new barn on property belonging to Mr. James Hall, at the Muncy Farms and occupied by Geo. W. Dewald, was destroyed by fire on Sunday night between 8 and 9 o'clock, together with the contents. Mr. Dewald lost all his crop of wheat, hay and oats, also, harness, wagon, some sheep and a calf. The light from the burning building was distinctly seen by our citizens, and the fire appeared to be much nearer town than it was. Mr. Hall had an insurance of \$600 on the building, in the Lycoming Mutual, and \$300 on his interest in the crops. Mr. Dewald had no insurance. He is an industrious, hard working man and the loss falls particularly hard on him. We learn there is no doubt that the fire was the work of an incendiary.—Muncy Lanciairy.

NEW ADVERTISEMENTS.

SHERIFF'S SALES. By virtue of sundry Writs of Fieri Facias issued out of the Court of Common Pleas of Columbia County, and directed to me, I will expose to public sale at the Court House in Bloomsburg, on the 21st day of September, 1867, at one o'clock in the afternoon, the following real estate to-wit: A certain tract of land situated in Fishing Creek Township, Columbia County, containing one hundred acres, more or less, bounded on the south by lands of John Brant, on the north by lands of J. Karns, and on the east by lands of John Foster, on which is erected a frame dwelling house and a barn, and on the west by lands of John Brant, and to be sold as the property of Sylvester Pealer.

At the same time and place, a certain lot or piece of ground, situated in the town of Bloomsburg, Columbia County, being two hundred feet deep and forty feet wide, bounded on the west by Iron Street, on the north by lot of E. H. Little, on the east by an alley, and on the south by lands of Mrs. Harris, and to be sold as the property of a two story frame dwelling house with the appurtenances.

INCORPORATION. NOTICE is hereby given that an application has been made to the Court of Common Pleas of Columbia County to grant a charter of incorporation in the County of Luzerne, to the Luzerne Iron and Steel Works, as an instrument in writing therein specifying the objects, articles, conditions and name, style or title of the proposed association, having been filed in said Court at May Term 1867. JESSE COLEMAN, Provy.

THE UNION PACIFIC RAILROAD COMPANY. THEIR FIRST MORTGAGE BONDS As an Investment. The rapid progress of the Union Pacific Railroad, now building west from Omaha, Nebraska, and forming with its western connections, an unbroken line across the continent, attracts attention to the value of the First Mortgage Bonds which the Company now offer to the public. The first question asked by prudent investors is, "Are these bonds secure?" Next, "are they a profitable investment?" To reply in brief: 1st. The early completion of the whole great line to the Pacific is as certain as any future business event can be. The Government grant of over twenty million acres of land and fifty million dollars in its own bonds practically guarantees it. One fourth of the work is already done, and the track continues to be laid at the rate of two miles a day.

2d. The Union Pacific Railroad bonds are issued upon what promises to be one of the most profitable lines of railroad in the country. For many years it must be the only line connecting the Atlantic and Pacific; and being without competition, it can maintain remunerative rates.

3d. 425 miles of this road are finished, and fully equipped with depots, locomotives, cars, &c., and two trains are daily running each way. The materials for the remaining 92 miles to the eastern base of the Rocky Mountains are on hand, and it is under contract to be done in September.

4th. The net earnings of the sections already finished are several times greater than the gold interest upon the First Mortgage Bonds upon such sections, and if not another mile of the road were built, the part already completed would not only pay interest and expenses, but be profitable to the Company.

5th. The Union Pacific Railroad bonds can be issued only by law to a sum equal to what is granted by the U. S. Government, and for which it takes a second lien as its security. This amount upon the first 517 miles west from Omaha is only \$16,000,000.

WASHING MACHINE. It is generally conceded that the best is always the cheapest; and that being the case great pleasure is taken in introducing to the public DOTY'S CLOTHES WASHER

UNIVERSAL CLOTHES WRINGER. The whole art of washing is but a pleasant necessity compared with the former mode of doing it. The clothes are placed in the tub, and water is poured over them, and the steam confined, the Machine is operated as a steam boiler. This work is speedily, cheap and easily done, and without tearing or wearing out the clothes, which to a great extent is the cause under the old fashioned rubbing process.
