General Grant has issued another order looking to retrenchment. He directs that all private buildings occupied in this city by any bureau of the War Department be vacated at once, and turned over to their owners.

The Commercial has reprinted something similar to the above several times since Gen. Grant has taken possession of the War Department. The immanitate Stanton could not have been as careful of the people's money as the republicans would have us believe.

End of the Carbon Co. Rape Cases. In the Court, at Mauch Chunk, week before last, the case of Alexander Gould, William Ackerson and Henry Mookes, was finally disposed of.

The hope which the Republicans have cherished since the election, that they were beaten on a light vote, and that thousands of their men simply stayed at home, is dispelled by the full official returns now coming in. The total vote of the State is enormous, being thousands more than were ever given even at a Presidential or Congressional election.

The Commercial has reprinted something similar to the above several times since Gen. Grant has taken possession of the War Department. The immanitate Stanton could not have been as careful of the people's money as the republicans would have us believe.

Total vote, 482,500; Hayes' majority, 2,500; Last year, on Secretary of State, the following was the vote: Smith, (Rep.), 256,000; LeFevre (Dem.), 213,000.

Total vote, 469,000; Republican majority, 43,000. At the late Governor's election, in 1865, the vote was as follows: Cox, (Rep.), 223,000; Morgan, (Dem.), 133,000.

Total vote, 416,000; Republican majority, 30,000. It will, therefore, be seen that since last year the Republican vote has fallen off 14,000, while the Democratic vote has increased 30,000.

Since the last Governor's election, the Democratic vote has increased the enormous number of nearly or quite 50,000 votes. The Republicans, therefore, have been beaten, not by their voters absenting themselves from the election, but because 14,000 of their number, having become convinced that the Republican policy on the Negro and on the Bonds was wrong, deserted their standard and voted directly the Democratic ticket, which they had hitherto opposed.

This of itself made a change in the State of 28,000 votes, or nearly two thirds of the Republican majority of last year. The remainder of the change was made up of the young men—new voters—who almost unanimously ranged themselves on the Democratic side.

The same proportionate gain will carry every Northern State at the Presidential election next year. As to a continuance of that gain in Ohio, we have not the shadow of a doubt. If the election was to be held next week, we should carry Ohio by 25,000.—Crisis.

OBITUARY.—On Monday last, one of Wilkes-Barre's most promising young men was suddenly removed from earth, and transported to an upper and better country, where sin and sorrow and death never enters. We refer to Mr. Wm. W. Woodward, younger son of Judge Woodward, of Wilkes-Barre.

Mr. Woodward left the First National Bank, in which he was employed, about three weeks since, complaining of dimness of vision. He remained at home and appeared to be getting better about election time, expecting to be able to go out and vote but when the day came he was too weak.

After that day he became worse. Erysipelas seemed to set in, and one side of his head was badly swollen. No fears were entertained as to his recovery, however, even up to the day of his death. On that day he complained of great difficulty of breathing, telling his mother that he could not live unless he could breathe easier. In half an hour from that time he was a corpse.

The doctors pronounced his death to have been occasioned by disease of the heart. Every one speaks well of young Woodward, which is a better eulogy than could be written.—The blow falls at this time with stunning effect, particularly as his father was hourly expected to arrive in the steamer Jersey from his European tour.

Extensive preparations were making for a public reception to the Judge, but it was deemed advisable to forego anything of the kind, on account of his sad bereavement.—Scranton Rep. Oct. 18.

PAIRING BURGLARS.—One of the most daring burglars, known to this community was committed at an early hour on Saturday morning last, at the private Banking House of A. K. Walter, Esq. An access was effected by a forced entrance through a front window, the shutters having first been forced open. After gaining an entrance, the burglars proceeded to drill a hole through the door of the safe into the lock, after which they charged it with powder and blew it open, entirely shattering the inside portion of the door. They then abstracted from the safe all the money and valuables it contained which, fortunately for Mr. W. was not much, he having the day before removed to the First National the greater portion of his funds on hand.

At the time of the robbery the safe contained about one hundred dollars in gold and silver; about one hundred and fifty dollars in Bank notes, and three watches. The burglars secured their booty and escaped unobserved. They were evidently professionals from some city. In addition to the above, there was taken from the safe a package of Borough orders to the amount of about three thousand dollars which have all been paid by Mr. Walker, who is Borough Treasurer. We have not heard of any other places that have been visited by this party in the neighborhood.

The noise consequent to the blowing open of the safe was heard by a number of persons living in the neighborhood but not knowing from whence it proceeded, or from what cause, no alarm was given. We sympathize with Mr. Walter in his loss, but cannot but congratulate him upon the accidental circumstances that caused it to be so light as it was.—Ashland Advocate.

STANTON'S FRIENDS DRAWING DOUBLE PAY.—It seems that General Kilpatrick, minister to Chili, tendered his resignation in the army in December, 1865, but owing to the friendship of Secretary Stanton, it was unacted upon and so remained until General Grant's attention was lately called to it, when it was promptly accepted. This is the way Stanton maintained his Radical friends in double positions at the expense of the tax-payers, and is one of the reasons—if not the principal one—for the fight made to have him kept in the War Office.

THE DEMOCRACY OF NEW YORK are taking steps towards securing the Delegates to that State for Ex-Governor SEYMOUR for President. He is among the best men in the ranks of the Democracy for that position when we take civilians, alone, into consideration. Seymour could carry New York and Pennsylvania, and would make a good President. We should like to support him or a man of his stamp.
