So wide is the field of its usefulness and so nu-So wide is the field of its usefulness and so nu-merous are the cases of its cures, that almost every section of country abounds in persons pub-licly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escaps observation, and where its virtues are known, the public no longer hesitate what antidots to employ for the distressing and dangerous affections of the pullonary organs that are incident to our elimate. While many inforior remedies thrust upon the community have fulled and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and pro-duced cures too numerous and too remarkable to be forgotten. be forgotten. the coming fall election will be composed of one person for Congress, one person for Member of the Legislature, one person for County Commissioner, and one person for County Auditor. Our County ticket will be small but of large importance. The office of Commissioner is of no little importance to the tax payers of the county, in view of all the improvements about to be made the coming year, besides those already contemplated in the not far distant future. The people of the County will look well to the selection of "the right man for the right place."

THE BLOOMSBUG LITERARY INSTI-TUTE, under the management of Professor Carver, is an eminent success. No one of the improvements at the County Seat has been of more benefit to the whole community than the establishment of this place of arning.
