The verdict of the people against the corruptions and tyrannies of the Radicals is made up. They have been tried and found guilty of "high crimes and mis demeanors" in the discharge of their official trusts.

An election was held in Michigan on the same day for two Judges of the Supreme Court, and a Constitutional amendment to the Constitution establishing negro suffrage was also submitted. At the last election in Michigan, for Justice of the Supreme court in 1967, the Republicans carried the State by 24,684 majority. CHICAGO, April 9 .- A terrible disast courred on Lake Michigan at an early hour this morning.

The steamer Ses Bird, a large boat owned by A. E. Goodrich, took fire between six and seven o'clock, while about thirty miles from this city, and was totally destroyed. A number of lives are believed to have been lost

CHICAGO, April 9.-The steamer Sca Bird belonged to the Two Rivers, Manitowoc and Sheboygan line. She had made four trips this season, and was on her fifth when she met with the terrible disaster reported to-day. When off Waukegan, about 6.30 A.M., fire was seen issuing from a pile of miscellaneous freight, stored around the afterguards, outside the ladies' cabin, and in ten minutes time the entire stern of the boat was wrapped in flames.

From the statement of one of the rescued it appears that all on board became demoralized, even the officers, and no effort was made to lower the boats. The only survivors as far as known are C. A. Chamberlain and Edwin Hanneburg, passengers from Sheboygan. The latter makes the following statement :

There were in all about one hundred persons on board, including eight or ten ladies and seven or eight children. I saw smoke arising from the deck below the ladies cabin. There was a lot of straw and some tubs laying near by, and the fire got among them. I cried fire, and the crew and pas- wood. sengers rushed from their rooms. There was great confusion, and the fire spread so rapidly as to convince me that it had been burning a long time. Within five minutes the after part of the boat was in flames. I don't think that all of the ladies had time to get out of their state rooms, and some of them and the children must have been burned to death. An effort was made by a cz Catasaqua, Lehigh county, Pa. portion of the crew to reach the small boats, but it failed.

Mr. Chamberlain states that about 6.30 on the 28th of March, 1868, Lanah Catha A. In his opinion, when the porter threw the coals overboard, the wind drove some back inlo the freight. He heard no some back into the freight. Both houses of Congress have passed the bill striking out the 94th and 95th sections of the Internal Revenue Act, thus relieving all departments of manufacture from the onerous tax under which they have been o long struggling. The bill will of course

THE Scranton Register came to us last a large number of county officers, Senators week printed upon new type-larger and and members of the legislature, which points

evidence of success. Mr. Hill publishes a live Democratic paper.

When our farmers, mechanics and aboring men make their returns to the U.S. Revenue Assessors, of their gains and profits (which they are now doing) and when they (which they are now doing) and when they are called upon to pay them a month or so after this, it would be somewhat in order to "bless" the Radical party which is expend-ing said income in maintaining a Freedman's Bureau and U. S. Army, in the South, and fooling a great portion of the balance away is a forcing in maintaining the fourth of the balance away in a farcical impeachment trial,

ike proportion. The cost of every depart ment can be very much cut down, and its efficiency increased. The army and navy

are too expensive, and they should be reduced. Lop off all such excressences as the Freedmen's Bureau; put an end to the humbug of reconstruction, which costs sevcral millions a year. Place the South in the hands of the whites of that section,

and thus restore its tranquility and prosperity and enable the people to pay their share

of the taxes. This great reduction of taxes, at this time, is only a political dodge to curry favor with the people. After the election the act in question will probably be repealed for the wants of the government will re quire it, unless there be great reduction in the expenses, of which there is not much prospect while the Radicals rule Congress.-Doylestown Democrat.

-----The Impeachment.

The Impeachment case was resumed on Thursday last. On behalf of the Impeachers, a disappointed office-seeker, and a susnended office-holder, gave their versions of conversations held with the President. Mr. Benjamin R. Curtis then rose and opened the case for the defense. This gentleman is a lawyer of great ability and experience,

a leader of the bar in Boston, of which city he is a native. He was the lawyer of his day who most enjoyed the confidence of Daniel Webster; being his associate in his most important cases, as well as his intimate friend. In 1851 he was appointed a judge of the supreme Court of the United States by President Fillmore, and he was on the Bench when the Dred Scott case was decided. Judge Taney delivered the opinion of the Court, in which Judge Grier, Wayne, Nelson, Daniels, Campbell, and Catron concurred. The other two Judges, McLean, of Ohio, and Curtis, dissented. The dis-

senting opinion of Judge Curtis was very long, learned and elaborate. It gained for him unbounded applause from the political better than had heretofore been used in its party that assailed the Judgment of the

columns. This introduction of new and Court. He resigned from the Bench in larger type has greatly improved the ap- 1858, to return to the practice of the law, pearance of the Register, while it is good and he almost instantly resumed his high place and extensive practice in the profession. We do not know that Mr. Curtis

ranks himself with the Domocratic party; but of late years he has openly opposed the destructive and unconstitutional measures of the Radicals.-Age.
