sour milk it is placed on the stove and heat-

ed until it becomes dry and sweet. It can

be then crumbled in the hand like bread-Of course there are other articles of diet

which can be used advantageously, but In-

dian meal in our opinion cannot. - German-

A correspondent of the Scientific Ameri-

town Tolegraph.

can gives the following information-viz: How To Carcii Rats. - Messes. Ept-TORS:-For catching rats in a cheep and offectual manner allow me to recommend the following: Cover a common barrel with stiff, stout paper, tying the edge around the barrel; place a board so that the rats may have easy access to the top; sprinkle cheese parings or other "feed" for the rate on the maper for several days, until they begin to beleve they have a right to their daily rations from this source. Then place in the bottom of the barrel a peice of rock about six or seven inches high, filling with water until only enough of it projects above the water for one rat to lodge upon. Now replace the paper first cutting a cross in the middle, and the first rat that comes on the

barrel top goes through into the water and

climbs on the rock. The paper comes back

to place and the second rat follows the first.

Then begins a fight for the possession of

HOW TO BREAK CATTLE TO LEAD. - Take

two animals of about equal size and strength and tie them together with a strong rope by placing one end around the horns of one animal and the other end around the horns of the other and hake them fast as for leading or tying up, leaving three or four feet of rope between the inner horns, and turn them into a field free from trees. Let them run, pull and haul, till they are tired of it, and they will walk side by side and feed together. Then take of the rope and they will ever after lead with the docirity of a child, even though the first occasion may be years afterwards. It is much easier than for a man to be jerked around all day by a wild heifer or steer, and more effectual. We have tried it and know.

To Fry Meat.

A great many recipes in your poper have been very acceptable to me, and I will give you my method of preparing meat, (which our folks pronounce excellent,) thinking perhaps it may prove good to some of your young readers:

Take one egg, beat it till it becomes thin, add a little pepper, also a little flour at d some water, till it is the tickness of cream. Have your fut melted if not hot, then dip your meat (cut a little thinner than for frying clone) into it, lay in the frying pan, and when nicely brown, turn; brown the other side when it will be done. Lay on a plate without pouring the gravy upon it, as that will make it soft and greasy. - Germantown Telegraph.

House Radish.-We see long detailed accounts printed as to the way of cultivating Horse Radish, which possess great facility in teaching people how not to raise it. This vegetable is cultivated with the greatest possible ease. Dig up a bed, full spade deep, in rather low moist place; manure heavily as for any other garden crop. Slice a radish from the crown-2 or 3 inches down, each of course with a piece of the crown, however small; and plant two inches below the surface, and it will come. For family use a bed ten feet square will furnish enough all the time for a generation, without further trouble or replanting.

VEGETABLE SOUP. - Take a ship of beef, aix large earrots, six large onions, twelve tarnips, one pound of rice or barley; pars ley leeks and sammer savory, put all into a soup-kettle and let it boill four hours; add pepper and salt to taste; Sorve all together. It makes a good family soup.

Motto for barbers and hairdresses-Cut and comb again.

Te best adhosive label you can put on your baggage is to stick to it yourself.

Why is bread one of the first necessaries

of life? Because it is always kneaded. -Twenty-three crows it is said were recently killed at one shot by a sportsman

in Mainer

alterative, tonic and anti-bilious operatous of this otent vegetable specific. It leterally regenerates the lether gir' stomach; ro uses into healthy action the dormant liver; puts to flight the dismal featies that beset the mind; gently roll even and regulates the bowels; attempthens the enfected therves; restores the appetite, and makes, as it were, as nev creature of the desponding and debilitated invalid. Ladies who suffer from indigestion have only to take a small does of t his pure versible corrective once or twice a day, to secure entire exemption from the pains and penalties of a weak stomach and that perfect functional regularity, which but few of the es uninteruptedly enjoy.

BEALE'S LATE

POWELL'S EMBROCATION. FOR ALL DISEASES INCIDENT TO HORSES,

requiring the use of an external application.
This new Coupound, prepared by a practical Chemist, haing a full knowledge of all the medical virtues of each ingredient that enters ito its composition, is warranted to exceed, anything of the kind ever yet offered to the public as an esternal application for the diseases for which its recommended. We are estimated that it will work its own road just the confidence of all who use it, and those who try is once will never be without it, and therefore we rely on experience as the best test of its usefulness it is preasumed by

THE TRUBERTHE

and all whe have tried it, to be the best application ever used. This Embrecation has been put up for over eight years, rad it is only rhrough the increasing demand and urgent request of my triends and the public that I send it forth as the grand remedial agent for the various diseases to which that noble and useful animal, the horse is subject.

Many remedies have been offered to the public under different forms, some of these are injurious, others at heat of little use, and usany wholly improper to answer the purposes for which, they are recommended.

A judicious and really useful composition, free trem those objections, has herstofore long been desired by many gentlemen who have

VALUABLE MORSES.

w A R. W. A. ED E. E. PROSSES, and are wawlifing to trust them to the care of designing and pretended Parriers. Their wishes are at length fully gratified, by (Dr. Beale) being provailed upon to allow this valuable Embrecation (which has proved so effic clous to the various diseases) to be prepared and brought out to the public. This Embrecation was extensively used by the Government during the war.

Address all order to DR. EDMOND SEALE, OUT South Second St. Palladelphia, Pa. March 10, '87—6mo.

CATHARTIC PILLS OPERATE by their power of internal viscers to purify late it into healthy settion, obstruction of the stemach, to organize of the balth, and, by so getten to health, corners, when

organt of the body, and, by restaring that independent to health, evened, whenever they enjoy, as derangements as are the first source of disease. An estimative that of their vistace, by Professor Physicians, and Pattents, has shown ourse of degenes dismass almost beyond helies, were they as the statement of the general disease and posterior of an experimental by prepare of such exalted positions of character as to better the suspicious of nichest Their estillants are published in my America Almanac, which the Agents tolow named a phased to farming fine to all imputing.

Annead we give Directions for their use in the omplaints which they have been found to cure.

Fon Contributions.—The one or two Pills, such quantity as to gently move the bowels. To

witch quantity as to gently move the bewels. Continuous is impassily the aggressing upon will plane, and the cure of one complaint in the cure of both. He person can find well while under a costice habit of body. Hence is should be, as it can be, promptly relieved.

Fon Dyargraia, which is constinues the cases of Costicuous, and always unconfortable, take mild deast—from one to four—to estimulate the etument and liver into healthy action. They will do it, and the Assorbarra, bedyburn, and combours of dyapapous will repidly disappear. When it has gone, deat forget what carred you.

For a Four Brounces, or Market Inaction of the Bousels, which produces general depression of the

For a Four Stronger, or Morbid Inaction of the Sourie, which produces general depression of the spirits and had health, take from four to wight Fills at tirst, and smaller does afterwards, such earlier and strength is restored to the system.

For Neurousemene, Stort Hannacuts, 'Sa sense, Pair in the Stomach, Back, or Side, take sum four to shift fills on going to bed. If they do not operate cashedently, take more the ment my suffit they do. These complaints will be sweet one from the system. Bon't were these and their kindred disorders because your stomach is foul.

For Scantrula, Euratranas, and all Diseases of Lie Side, take the Fills freely and Amyonsity, to keep the bowels open. The cruptons will generally soon begin to disnish and disappear: Many decadful ulcers and some disappears Many the purging and purifying effect of these Fills, and some disquiring diseases which commet is a rested the whole system have completely yield distribution findence, leaving the sufferer is, perit it is the Indianos, leaving the sufferer is, perit it is lith. Patient! your duty to society forbide that you should parade yourself around the we'ld et vered with pinples, blotches, slows, some, as I all again of the unclean diseases of the skin, hearest year system wants cleaning.

To Purity you Stope.

where.

Liver Complaint, Jaundon, and all Bilious Affections arise from some derangement—either torpidity, congestion, or obstructions of the Liver. Torpidity and congestion vitiate the bile and reader it unfit for digrestion. This is disastrous to the health, and the constitution is frequently madermined by no other cause. Indigestion is the symptom. Obstruction of the dust which empties the bile into the stomach causes the bile to overflow into the blood. This produces Jaundie, with a long and dangerous train of evils. Costiveness, or alternately costiveness and diarrham, prevails. Feverish symptoms, languor, low spirits, wanniness, restlessness, and melancholy, with sometimes inability to sleep, and sometimes great drawkness; sometimes there is severe pain in the side; the akin and the white of the eyes become a greenish yellow; the stomach seid; the bowels sore to the touch; the whole system irritable, with a tendency to fever, which may turn to bilious lever, bilious coile, bilious diarrhem, dysastery, &c. A medium does of three or four Pills taken at night, followed by two or three in the morning, and repeated a faw days, will remove the cause of all these troubles. It is wicked to suffer such pains when you can cause them for 25 counts.

RESUMATISM, GOUY, and all inflammatory Forces are rapidly cured by the purifying effects of these Pills upon the blood and the otherships which they afford to the vital principle of Life. For these and all kindred complaints they should be taken in mild does, to move the bowels gently, but thesty.

As a DINMER PILL, this is both agreeable and useful. No Pill can be made more pleasant to take, and certainly none has been made more affected to the purpose for which a dinner pill in sumpleyed.
