COUNTY CONVENTION.

The Democratic voters of the several Districts in Columbia county are requested to meet at the usual place of holding the general elections, on Saturday, the 1st day of August, 1868, between the hours of three o'clock in the afternoon and seven o'clock in the afternoon, of that day, and elect by ballot two persons to represent the District in a County Convention to be held at the Court House in Bloomsburg, on Monday, August 3d, at 12 o'clock noon, to select two Congressional Conferees to meet similar conferees from the other counties of the Distriet, to pominate a candidate for Congress: two Representative Conferces to meet similar conferees from the other county in the District, to nominate a candidate for Member of Assembly: and to nominate one person for County Commissioner; one person for District Attorney; one person for Coroner; and one person for County Auditor; to be supported by the Democratic party at the coming election.
By order of the Committee,

J. G. FREEZE, Chairman.

NOTICE.

After the 20th of August next we will not send out the DEMOCRAT to any of our subscribers who have not paid their subscriptions. All the material used is cash in advance; besides all the labor we employ is paid for in each as it is performed. When a subscription hangs over a year, the little profit we would have upon it, if paid in advance, is lost. It is lost in this way: We have invested that money in material and labor and laid a year out of it, thus losing the use of the cost of paper, besides the small fractional profit. On one subscription the profit would be small, but in the aggregate, (say two thousand subscribers) it would amount to a snug sum of money to the editor. Those in arrears will please heed this notice, and attend to their subscriptions in

Legislative Swindling.

We have for the past several weeks paid some attention to the subject of the late enormous swindling operations, by the Legislature of Pennsylvania, and this week on the same subject, as will be seen by reference to subsequent columns of the Columnbecome corrupt, and betray public confidence, their iniquities should be fully exposed, and this duty, however unpleasant, necessarily devolves upon the conductors of the Public Press. BE NATURALIZED. -There are doubtless many men of foreign birth in our country, who have been long enough in the county to be naturalized; an opportunity for this purpose will be presented at the September Court. We trust our friends throughout the county, who know of any foreigners prepared for naturalization, will urge upon them the duty of attending to it at once, and not postpone it until a later day.

Do it. Those who are earnestly and actively working for the triumph of Democratic principles will give strength to their efforts by taking every opportunity to extend the circulation of the right kind of newspapers.
By the right kind of papers we mean those that are not affaid to speak of Radicalism as it is—papers that are not mealy-mouthed in their utterances, but fire the biggest and the hottest shot into the camp of the enemy, and keep up the fire, along the whole line, until the enemy's colors are low-ered in disgrace and defeat.

Negro Troops Imaginary.

It has just been discovered that the government was deffauded of over's million and a-half of delians in the War office, under the immaculate Stanton, in the single item of bounties for the negro soldiers who 'fought's handle?' so bravely." Papers for whole regiments were forged in the office, presented and paid. These were the very negro regiments -imaginary ones-which did such wonder ful service during the war, two hundred thousand of whom were organized by Stanton (on paper) and who "put down the re-Cameron has now a vote of thanks before Congress to Stanton, for organizing these men of straw and buckram. Oh, no. The tax-payers are still paying these very bills, and will continue to do so for all eternity if they do not wrest the government from the hands of these thieving radicals. - Exchange.

THE LADY'S FRIEND FOR AUGUST.—'The Soldier's Widow,' a finely-executed steel engraving, opens the August number of this charming magazine. Then follows the usual large colored steel engraving, representing the Parisian Fashions. Then a touching engraving, called 'Entering into Life'-followed by numerous engravings of dresses, bonnets, pale-tots, &c., among which we may especially allude to an equestrian plate, is being very well executed. Among the literary contents of this number we may mention 'Our Artist in the Windows,' August Bell; "The Debarry Fortune,' by Amanda Douglas; 'Lost Days,' by Florence Percy; 'Caught by the Tide;' 'A Dead Man's Rule,' by Elizabeth Prescott; a Sketch of Florance Nightingale, Editorials,

Receipts, Fashions, &c.
The "Lady's Friend" is published by Deacon & Peterson, 319 Walnut street, Philadelphia, at \$2.50 a year (which also includes a large steel engraving). The "Lady' Friend" and "The Saturday Evening Post" 4.00. Sample copies, 15 cents.

DEMOCRATIC NOMINATIONS, - Hon. William A. Wallace, the able and energetic Democratic Senator of Clearfield county, was on monday last renominated for State Senator. Mr. Wallace has already served two terms in the Senate with distinguished ability and will again be triumphantly elected for three more years. As a legislator he

has no superior in Pennsylvania.

Hon Thomas J. McCullough, the member of 11st year from the Clearfield District has been renominated by the Democratic Conferee Convention. His political record is unblemished. Mr. McCullough will again be handsomely elected to the Legislature.— Williamsport Daily Standard.

"The present tariff obliges the American people to pay in all cases double, and in some cases, nearly tripple, the cost of the salt—for what? For revenue? Not at all, but by way of "protecting," that is to say, favoring the American salt monopolists, and enabling them to make the people pay doub-le and tripple the proper and natural price for their salt."

UN ENFANT TERRIBLE. - Of all the political journalists of the country Horace Greeley is the most unlucky in putting sticks into the hands of his opponents with which to hit his own party. The extract below is carried round by Democratic papers just now with a great deal of industry:

"The war being over, we can no longer carry elections by reading bulletins of Union victories, and exhorting the people to 'rally round the flag.' And those pushing General Grant for President will land where the Whigs did with Scott in 1852, if they are allowed to have their own way. They ut-terly mistake the time of day."—New York Now it becomes the duty of Horace to

make it appear that the nomination of Grant ust suits "the time of day;" and the work is a very awk ward one.

Affairs in the Mining Region-The Eight Hour Law.

During the past wook there has been but little work done in the mining districts of this county, the men having turned out for a reduction in the hours of labor to eight hours per day. The turn-out commenced in the Mahanoy Valley, and so far as we can learn, has been almost universal throughout this county and portions of adjoining coun-ties. Some of the operators whose mines are favorably situated for shipping, and where the coal is mined to advantage, have conceded the reduction to eight hours, with the same rate of pay as was formerly given for ten hours; while others, not so favora-bly situated, allege that to pay the same rates of wages for eight hours as have previously been paid for ten, it will cost them more to put their coal in market than can be realized from its sale at present prices. They have consequently suspended. We learn that some of the operators have contributed money for the expences of delegations which have gone to other counties to secure the stoppage of work there, in the hope that by making a general suspension of mining, the prices may be so advanced as to enable them to give the rates asked by

THE NEW TAMMANY HALL. - This magnificent Hall, built by the Democracy of late Democratic National Convention, cost \$300,000, and has the following proportions: It is 115 feet front by 122 feet deep, and three stories high; but the stories are so high that the building towers far above its neighbors, and dwarfs the Academy of Musie almost to insignificance. It contains a large club room, which is splendidly furnshed; a committee room, 35 by 70 feet; a library and reading room, 32 by 40 feet; a concert room, 52 74 feet; a large dressing room for ladies, another for gentlemen, and several smaller rooms, for various uses. All of these are below the third floor, which is the crowning glory of the building. On with a ceiling 50 feet high, and capacity for seating over 3,000 persons. Here will be held the great mass meetings of the Democracy during the campaign. The Hall is the largest of the kind in the world, and when finished, with its commodious galleries and grand dome, decorated with appropriate designs of first-class artists, it will certainly be one of the most beautiful.

GREAT CRY AND LITTLE WOOL -- Mr. Greeley, Col. Forney and other Radical editors, are very busy telegraphing over the country that the Democratic nominations are very coldly received by the party. When-ever a man arrives at middle or old age, he should guit lying and endeavor to make amends for his past life. If, as they say, the Democratic party is dead, we really do not see why they should put themselves to so much trouble to create a false impression have heretofore done, by bold lying. It will has been manifested. We could fill our paper with extracts but deem it unnecessary. There is a universal desire to put the Radical party out of power, and this will be done, not in a noisy hurra kind of manner, but in a quiet determined way that will show when the people mean a thing they do it.— Democratic Herald.

Witen, in July, 1863, Andrew Curtin, the Radical Governor of Pennsylvania, was trembling in his boots, and had not yet begun his well remembered piteous appeals ratio Seymour, the then Democratic Governor of New York, and now the Democratic candidate for the Presidency, acted, He sent seven fully equipped regiments of New York militia to our assistance. And vet this is the man whom the Radical naners are denouncing as not being patriotic. Had Curtin done his duty as promptly and as well as Seymour, the citizens of the Key-stone State would have been spared the humiliation of being compelled to call upon a sister State for soldiers to protect her borders. Let Pennsylvanians remember this. Let them not forget the fact that Governor Seymour, with a promptitude and cheerfulness that did honor to his patriotism and to his State, in the hour of our need, at once forwarded the greatly needed assistance.

OVER 500 DEATHS BY SUNSTROKE. - New York, July 16.—The number of persons reported as having been prostrated by the heat luring the past twenty-four hours, in this city, Brooklyn, and Jersey City, exceeds 1,000, over 500 of those having proved fatal. Dr. Holmes, Register of vital statistics of the Board of Health, makes the startling announcement that two hundred and fifty deaths are known to have resulted from the excessive heat of the past three days within the Metropolitan district.

THE sales of breadstuffs, the product of wheat, in this country, are estimated to exceed three thousand millions of dollars ev-ery year. This calculation allows for six sales or exchanges of the entire product of the country before actual consumption, estimated at 200,000,000 bushels, and includes the additional value of labor in milling and transporting. Of corn 1,000,000 bushels are produced.

Cow Killed. - On Wednesday evening last, the Southern bound coal train on the L. & B. Railroad, ran over a cow belonging to Mr. Samuel Fowler, above town, killing the animal and throwing the engine and train off the track. Several cars of coal were dumped near the station, the train ran into the Station platform, demolishing a portion of it and ripping up things pretty generally. The wreck train was immediately dispatched for, and by Thursday morning the track was cleared of every obstruction. The damage to the company was pretty considerable we should judge from the appearance of things.—Berwick Gazette.

FISHINGCREEK, July 18, 1868. Mr. Editor — Inasmuch as my article intended for publication, two weeks ago, was not received in time, and as you have seen fit to withhold it still, which is perhaps the better plan, I have concluded to address you a few lines of a more moderate character, not making so many strictures upon the course of certain individuals as were made in the other, and I will hope to meet better luck than to be thrown under the table. In my first letter I spoke of the manner in which Mr. Kline was brought before the people. I think I there made it plain to

every reader that it was a mere work of cor-ruption calculated to cause strife in the Dem-ocratic party. I did not then allude to the record of Mr. Kline. I propose now merely to say a word or two of him. Almost everything has been told of his action in the Legislature, and I believe the people of the county sufficiently understand the matter to say in their votes for delegates that he, with his tonuage tax and Sunbury and Erie rail road, had better stay at home. I had the pleasure, a few days ago, of seeing a gentle-man in our neighborhood from Montour county. It occurred to me that the expres the men.

The machinists employed in some of the machine and engine shops in Pottsville and tour county, as is well known, forms a part of this Representative district, and the citizons of that county are as much interested in the choice of a good candidate as we of shops in Pottsville, and in some cases the workmen fell into the ranks, while others continued to work. The shops at Pt. Carthey of Montour were not willing that a man whose past record is impeachable should be thrown upon them. He said that notwithstanding they did not wish to interfere with us, they would feel very much in sulted to be asked to ratify the nomination ers, laborers and others connected with of a candidate who could not possibly carry the county of Montour. The gentlemen who have been active in putting Mr. Kline before the people, and striving to secure his nomination, should remember the faction of Columbians does not extend outside of Columbia, and that if they should through false. The movement has been peaceable tricks and money force Kline upon the disthroughout, the unanimity of feeling among trict, he might be met with opposition in the conference and succeeding in the confer ence, the Democrats of Montour becoming marched by they have in most cases volunta- indignant at the frantic tumbling of the conservative Columbians, might seek redress by defeating Kline in October. I think we should present to the Conference a man of pure Democratic record, one against whom the Radical press could not charge fraud. Some of Mr. Kline's friends have com-

plained of the Democrat because it publish cd his official course on the Tonnage Tax question, and also his own justification on the Sunbury and Eric Railroad fraud, together with the very just criticisms of Col Freeze. They say it is going out of the usual course to favor or oppose a candidate previous to the Convention. If that be so, why did the pet conservative Columbian open the way by publishing an article concerning the vote of Mr. Kline, intended to mislead the people? It became, sir, your duty to expose the deception thus attempted to be practiced. We want capable representatives, and such as fairly present to the legislature by votes, words and deeds, this floor is the grand Hall, 102 by 110 feet, the wishes of their constituents. When a man has been tried and found wanting it is not well to trust him again, and particularly when he still insists that his course was right. If the people of Columbia are in favor of giving to Railroad companies hundreds of thousands of dollars which properly belong to the State, then we would say repeat the dose; if upon the other hand, they do not wish to be burdened with taxation and debt to increase the income of large capitalists they should try a new physician. A few such prescriptions as were given the Commonwealth of Pennsylvania in 1861 by Kline and others, will physic

her to death.

Again, Mr. Editor, it is now said that the publication of Kline's letter and Freeze's comments is wrong, because Col. Freeze did that work under the excitement of the moment, that he did not believe it right then, and now thinks he was in error. They say Freeze would not now charge Kline with fraud and corruption. I do not pretend to say that Kline was bribed, but I do say that the comments of Col. Freeze upon his letter, seem to indicate that he, Freeze, then believed there had been bribery. If it were not true why did not Kline clear up the matter? If he were not bribed, then Sound Sensible.—Would you have note but a ratification meeting has been his error in judgment makes him wholly an beid, at which the most determined spirit unfit Member of the Legislature. Men who are so easily lead away have not strength of not believe what he wrote opposing Kline's course, then he was a most consummate de-ceiver, and Col. Kline should not now allow himself to be Freeze's candidate, unless he is equally a deceiver, and delights in deceptive combinations. There is much fog encircling the matter, and I should advise the candidate of Orange to seek honest company

[Communicated.] PINE TOWNSHIP, July 16, 1868. W. H. JACOBY, Esq.—Dear Sir. It will be remembered that when Col. LEVI L. TATE was a candidate in 1866 for the nomination of State Schuter, he was charged by quite a number in this township for the enactment of this infamous DOG TAX that we all have to pay. I was one of Tate's friends, and did all in my power to correct the report, and place the much disliked and objectionable piece of legislation where it belonged. I was aware that Col. HIRAM R. KLINE placed that piece of legislation upon the people of Columbia county, obliging them to pay a TAX for every dog they owned, and so informed the people of this township. I notice that this man KLINE, in whom the Democracy of this county once had confidence, is out again for legislative honors. Why did he not come up for re-nomination in 1862? What had he done that he was willing to be made a yearling of? Did his course condenn him, or did he feel incompetent to faithfully and honhe feel incompetent to faithfully and honestly represent the people of this District? Let him answer these questions. The people—the Democracy—of Pine wish to vote at the Delegate election understandingly. They wish to know why Mr. KLINE is a candidate in 1868 and was not a candidate for re-nomination in 1862! They wish him also to explain the benefits of his DUG TAX. When he once does this, satisfactorily, Pine will consider the matter as to torily, Pine will consider the matter as to whether they will give him the Delegates at the coming Convention.
Yours, truly, A VOTER OF PINE.

M. L. DUNNING, of Williamsport, has sued the editors of the Standard for libel. Sueing newspaper publishers for libelous publications is a very shabby business. If the libelous matter be true, the stigma will only become fixed by making it the subject of litigation, and if not true, it may easily be refuted through the same channel which gives it publicity, and the libeler will be the only man hurt. The best answer to a libelous assault is a correct life. And when a man resorts to the courts to protect his rep-utation, in nine cases out of ten he only proves his worthlessness .- Clinton Repub.

Address of the Democratic State Committee.

To the People of Pennsylvania: The political contest just entered into is aden with grave results to your business

and to yourselves. The Radical party asks a renewal of its

WHAT WILL YOU HAVE TO DRINK .- Different people, in different places, have different ways of expressing the same thing. For example, in Montana, when a man asks you to drink, he says: "Let's try some of the molten lead and brimstone." In Idaho, "Let's have a little extract Kansas." In Arizona, "Let's take a scalp." In Sacramento, "Let's reduce the flood." About the Mud Volcanoes, on the Humboldt, it's "Suppose we blaze." At Fort Churchill they say, "Let's inoculate with the measles," and everybody is inoculated there. At Chicago, "Nominate your poison," and they pour it down and are poisoned. And in Bloomsburg, thusly, "Let's mix," and they mixeth, and get "mixed."

WHEN the record shows that wherever a party has perfect power it oppresses the white race for the benefit of the black, it is only reasonable to conclude that they will do the same wherever they acquire power. The Radicals have complete control only at the South, and the condition of that stricken region is a fair specimen of what the whole country will be if they are not driven from their position.

FATAL CASE OF SUNSTROKE.-Winkleman was stricken down by the intense heat of the sun on Wednesday, while he was "taking up" after a cradle on the farm of Judge Bidelspach, in Point twp. He was missed a few moments after, when the laborers made search for and found him dead where he had fallen. He leaves a family to mourn his loss.—Sunbury Dem.

WE take the following from the Danville Intelligencer of the 17th inst: FATAL ACCIDENT.-Francis Brady,

farmer in Derry twp., one day last week, while in the act of unloading wheat at one of the mills in that township, fell beneath his wagon, when the horses starting, the wheels passed over him, inflicting internal injuries, which resulted in his death. Brady was an Irishman by birth, and for many years worked at one of the rolling mills in this place
Yesterday morning, a lad named Thomas
Monahan, son of John Monahan, a work-

man at the Pennsylvania works, while hanging to a train of cars, on the L. & B. railroad, was thrown off by a sudden jerk of the cars, and being thrown across the track, the car wheels passed over his neck, sever-ing it entirely from his body. It was a sud-den and terrible death, and should be a warning to the large number of children who are daily to be seen recklessly jumping

on and off passing trains.
On last Wednesday, Mr. George Auten, of Limestone twp., while engaged in the harvest field, was overcome with the intense heat, and before medical aid could be procured died from its effects.

We have heard of a number of other instances in this vicinity which came very near proving fatal. In Limestone two, some six or seven horses fell down dead in the harness from the effects of the heat.

SCHOOLS IN BERKS COUNTY .- The number of common schools in Berks county is 447. The salary of their County Superintendent is higher than any paid by other counties in the State except Allegheny, Lancaster, Lycoming, Schuylkill and York. With the exception of Allegheny and Lancaster, the county has a larger number of schools than any other county in the State. The Williamsport Daily Standard says that this accounts for old Berks giving such sweeping Democratic majorities.

LASSITUDE. - A felling of lassitude is generally experienced throughout the the sum-Weakly constituted persons mer solstice. or those of sedentary habits invariably com-plain of this annoyance. The acorching heart of mid-summer relaxes the system and reduces the vital energies. If the patient is of a nervous temperament this de-bility unfits him for even the ordinary rou-tine of every-day life. When this state of exhaustion comes on HOSTETTER'S STOMACH BITTERS will prove a safe and never failing means of strengthening and restoring the physical organization. This health-giving tonic purifies and infuses renewed vitality into the blood, fonce the stomach and digestive organs, and acts like a charm on the nervous system. It effect-ually removes all tendency to languor or depression of spirits. To the weaker sex it is invaluable, as it soothes and braces up, while its powerful effects are of the most beneficial character. The infirmatics of age are afleviated by its use. It revives the strength, increases the appetite and gives

vigor and elasticity to the constitution.
When mothers are nursing HOSTET-TER'S STOMACH BITTERS should especially be taken in regular doses, as in this country, most always, the nourishment is inadequate to the wants of the child. In such cases this inestimable tonic is wonderfully efficacious. Its strengthening virtues are at once apparent. It is free from all properties calculated to impair the system, and its operations are at once mild and soothing.

Spring it is cheery.
Winter is dreary.
Green leaves hans, but the brown must fly;
When he is shirken,
Lone and foresken.
What can an old man do but die !!

Why, take Plantation Bitters, to be sure, and with them a new lease of life. The old are made young again, the middle aged rejoice, and the young become doubly brilliant by using this splendid Tonic. Dyspepsia, Heartburn, Liver Complaint, Headache. Pains in the side, "Crick in the Back," and all symptoms of Stomachic Derangement, yield at once to the health-giving influence -Mrs. Lincoln is fulfilling her threat of of Plantation Bitters. They add strength leaving the country if Grant was put up for to the system and buoyancy to the mind.

Just before going to press, the following was handed us for publication:

Catawisia, July 15, 78.

Editors Colombian—I desire, through the columns of your paper, to contradict a report now being circulated that in the event of my being elected a Member of the Legislature this fall, I would eppose the re-election of Mr. Buckalew to the U. S. Senate, The long and unbroken friendship existing between Mr. Buckalew and myself is sufficient to stamp this report as false. I would not accept the nomination if I could not give the Jonator my support, which he so eminently deserves.

Respectfully, yours.
