STRUCK BY LIGHTNING.-During a heavy thunder shower on Wednesday evening last, the residence of Mrs. Peck, of this Borough, says the Berwick Gazette, was struck by lightning. Mrs. Berlin who lived in an adjoining house, was severely stunned. The fluid enterred at the comb of the roof and descending to the eves ran along the spouting and spent its force in the ground. An alarm of fire was raised, caused by the burning of some rags in a barrel in the loft. It was soon extinguished. No one was hurt. The building was damaged slightly.

THE Abs. and Rads. of this town shoved up a couple of pine polls on Market situated on the hill at the upper end of Square last Monday evening, and stretched] a flag across Main street, from poll to poll, tute building. The location of these two with the names of Grant and Colfax in- institutions for educational purposes is exscribed thereon. With the Normal School building the crowd must have numbered at least completed, the citizens of Bloomsburg will 000000040! The polls being raised, and the have reason to feel proud of their accomflag hoisted to the breeze, three faint cheers were given for somebody, after which P. the country. John, Beckley & Co., harrangued the crowd, which was composed chiefly of a few

over-grown boys and the noisy urchins of broken last week. It is to be quite large the town. Thus the Abs. and Rads. opened and built in the modern style of church arthe campaign in Bloom township.

-----BEF SUMMER COMPLAINTS.-This, of all other seasons of the year, demands carefulness in diet. Bowel diseases are alarmingly prevalent, especially amongst children.-This, to a very great extent, is the fault of parents; they are too apt to indulge their children with food and drink which had far better be withheld from them. The simplest food possible is best for them-rice. milk, ripe fruits, and light food generally is to be preferred. Pork and veal should be roided, as well as imperfectly matured poa, and particularly the unripe and dis-

apples, peaches and pears. A little care in regard to diet, proper attento cleanliness, and the avoidance of exonure to drafts of air, will, in a majority of wes, provo a preventive of summer complaints to which children are so subject.

After the 20th of August next we will not send out the DPMOCRAT to any of our sub cribers who have not paid their subscriptions. All the material used is cash in advance; besides all the labor we employ is paid for in cush as it is performed. When a subscription hangs over a year, the little profit we would have upon it, if paid in adrance, is lost. It is lost in this way : We have invested that money in material and labor and laid a year out of it, thus losing the use of the cost of paper, besides the small fractional profit. On one subscription the profit would be small, but in the aggregate. (say two thousand subscribers) it would amount to a snug sum of money to the editor. Those in arrears will please heed this
