AFTER this issue we will transcribe our Subscription Book, when it is our intention to send the paper to those only whose subscriptions are paid. We are compelled to do this, in order that we may have the immediate use of what little profit we have on our subscriptions. When we have to lay out of our money a year or two on a subscription, the profit we have over and above the actual cost of that paper, is more than gone. That kind of business has kept and made the editor in humble circumstances. Everything consumed in the business is cash in advance, and we intend, hereafter, our subscriptions to be the same.

#### Senatorship in Luzerne.

The Democracy of Luzerne will be expected to redeem itself this fall in the election of a sound Democrat to the State Senate, they can easily do, if they make a judicious and proper nomination. Among the caudidates asking for this office is our friend and fearless Democrat, HARRY HAKES, Esq., and we are pleased to learn that his prospeets are fair for the nomination. Should he be nominated his election is sure, and the Luzerne Democracy will have as able if not the ablest representative in the Senate they ever elected. It was our pleasure to serve two terms in the lower branch of the Legislature with Mr. HAKES, and a more faithful and carnest worker was not in that body. He never shrunk from responsibilities, but was always found at his post, manfully and ably battling for justice and right. He always stood by the interests of the laboring State manage the business. man, never allowing their rights, so far as in his power, to be trampled upon. The landlord and tenant act, which was thought my many would do great injustice to the a clear, logical debator, of sound sense and writer that the Democracy of Luzerne would do well to send him to the Senate.

# Curtin on Seymour,

Several weeks ago we published the telegrams that passed between Secretary Stanton, Governor Curtin and Governor Scymour, at the time the Confederate army, under General Lee, was invading Pennsylvania. It will be remembered that Lincoln, Seymour of disloyalty, to put the following and elect honest men. in their pipes and smoke it:

Said a gentleman to Mr. Curtin the other day, as they sat in the reading room of the Union League club house in Philadelphia: "Well, Governor, what is your opinion of the Democratic Convention?" "I think," said the Governor, "that a stronger ticket might have been selected, such as Hen-dricks and Hancock, for example." "But," continued the questioner, "what is your opinion of Governor Scymour?" Mr. Cur-"Well, sir, if I were asked to mention a man who, in my estimation, possessed the attributes of a perfect gentleman, a cultivated scholar, a thorough statesman and a sincere Christian, I could, without hesitation, name Horatio Seymour of New 'How about Seymour's loyalty! After the despatches that I sent Seymour at the time of the rebel raid into Penusyl vania, replied the Governor, "it would hardly become me to impugn his loyalty; the fact is, I have never doubted it. I understand that Belmont is having all the despatches sent by Stanton and myself printed, and I have no doubt they will be in the hands of every Democratic stump speaker through the campaign. We had better give up attacking Seymour's loyalty, for the opposition hold the trump card in

that matter. Exactly. We do hold the "trump card in the matter," and we intend to prove, out of the mouths of their own witnesses, that all the mean, slanderous, miserable charges now made by the Radicals against Governor Seymour, are the basest fabrications that ever polluted the lips of the most unconscionable liar out of l'andemonium. ----

COL. R. J. HALDEMAN, of Cumberland, was nominated for Congress on the 13th inst., by the Conferces for the counties of Cumberland, Perry and York. This is a good nomination, and will be endorsed at the polls by at least 4,000 majority.

Montour County Convention.

The Democrats of Montour county held their annual nominating County Convention, in Danville, on Monday last, which was presided over by Robert Davidson, Esq., of Mayberry. The attendance was very respectable; and the proceedings were marked with good feeling and harmony throughout. There was little or no contest over any of the offices save that of Treasurer, for which office there were some four candidates, three from the country and one from the Borough of Danville. They nominated a pretty full County ticket, as follows:

Register and Recorder, Wm. C. Johnson; Sheriff, Robert C. Russel; Treasurer, Isaac Ammerman; Commissioner, John Dildine; Auditor, Daniel P. Crossly.

Jesse C. Ammerman and W. D. Weidenhamer were appointed Congressional Conferees to meet similar Conferees of the District to nominate a candidate for Congress.

William McNinch and William Wagner were appointed Representative Conferees with instructions to support Hon. George Scorr, of Columbia county, for Assembly,

Jesse C. Ammerman was appointed Chairman of the Standing Committee for the ensuing year.

The following resolutions were offered and adopted:

Resolved. That we endorse and approve of the Resolutions adopted by the National Democratic Convention held in New York, in all its parts, and as a whole, as embodying the great principles involved in the present political contest in this nation.

Resolved, That in Horatio Seymour, the

Democratic candidate for President, and Gen. Frank P. Blair, the Democratic candidate for Vice President, we have presented for our suffrage men in every respect worthy of the high and responsible position for which they have been named, and that their election will secure to the nation neace, to the States a happy re-union, and to the

people liberty and prosperity.

Resolved, That we have entire confidence in the Hon. Charles E. Boyle and Gen. W H. Ent, the Democratic nominees for Auditor General and Surveyor General, and pledge our united efforts to secure their triumphant election.

Resolved, That we have unshaken confidence in the integrity, ability and patriotism of Hon. C. R. Buckalew, our present U. S. Senator, and we hereby respectfully instruct our State Senator and Representative to use all honorable means to secure his re-election. Resolved, That the course of our State Senator, Hon. George D. Jackson, meets with the hearty approval of the Democracy

of Montour county.

Resolved, That Hon. Thomas Chalfant, our late Representative in the State Legislature, by his indefatigable industry and unremitting attention to the interests of his constituents merits the thanks of his constituency, and by his bold and manly vindiin the place of L. D. Shoemaker. This cation of Democratic principles and Democratic policy, as well as his unyielding opposition to Radicalism in all its forms and phases, has secured the confidence of the Democracy of the District.

Resolved, That we commend the ticket this day formed, to the Democracy of Montour county as worthy of their confidence and support.

After a few remarks by Capt. Brockway and Hon. Thomas Chalfant, the Convention adjourned with hearty cheers for the National, State and County nominations.

He yet needs the concurrence of Montour and Sullivan, which his most confidential friends say fice this fall. All the Congressional and he will get. We think Mercur about as easy a candidate for the Democracy to beat this fall as that party could nominate. This district has got enough of Mercur. The Democratic portion of the district is going to be represented in the new Congress.-Those who may think we are only talking for talk sake, will please place a good sized pin right there!

THE Radicals, to bolster up their sinking fortunes, published a report that General Hancock does not favor the election of Seymour and Blair. The gallant General puts a most effectual quietus upon this canaid. He says :

"Those who suppose that I do not acquiesce in the work of the National Democratic Convention, or that I do not sincerely desire the election of its nominees, know very little of my character.
"Believing as I really do, that the preser-

vation of constitutional government depend on the success of the Democratic party in the coming election, were I to hesitate in its candid support I feel I should not only falsify my own record but commit a crime against my country."

would vote for a mum candidate when his liberties are at stake." - Andrew Jackson.

THADDEUS STEVENS was buried at Lancaster on Monday. About lifteen thousand people were present.

Another Incident of Grant,

The father of the illustrious Digger squaw candidate for the Presidency having failed to give in the Ledger all the interesting incidents in the life of Ulymes, an ex-Federal soldier, who was in the Army of the Tennessee, relates the following good one:

On the evening of Sunday, after the firing had ceased at Shiloh, and Gen. Buell had disposed of his forces for the work of the ensuing day, he for the first time expresse a desire to see Gen. Grant, and an aid being dispatched, that officer, attended by a few members of his staff, made his appearance, Grant apparently steady, and this time minus the everlasting eigar. Buell, almost bursting with indignation, drew aside from the mingled staffs, and motioned Grant to follow him out of earshot, when the following colloquy (as reported by two reposing soldiers, one of them a drummer in an Ohio regiment, and an intimate acquaintance o

mine,) took place: Gen. Buell—"Well, sir, is this a display of your generalship; two-thirds of your army retiring since daylight, being almost massacreed by a superior enemy, and the remainder wandering leisurely along the banks of the Tennessee?" (Alluding to Gen. Wallace's, which comprised nearly one-third of Grant's army, and had not seen the enemy during the entire day.)

"Well, General," replied Grant, "I did the best I could; I was not expecting this attack, and Wallace has neglected either to move on the enemy's flank, or come to my Gen. Buell-"You were aware of the

proximity of the enemy; why did you dispatch Wallace on a wild goose chase while the enemy are concentrating on your front! Besides, sir, Gen. Wallace denies having received an order during the day from you. And now, Grant, if this is the best you can do, God help the soldiers placed under your charge, for from what I can see you are no worth the powder to blow you to h-ll." Buell, unable to contain himself longer

oined his staff.
The above facts are as well known in the Army of the Tennessec as the names of the

The quantity is estimated at three million bushels. Ryc and barley-There is little or none of either raised, but what there is, is of good

quality: Corn, from present appearances, indicates a large crop-one-eighth more than the yield

of last year—of good quality. Potatoes promise a large yield and quality

better than last year's. Tobacco-The crop will be one-half better than last year, and the yield will probably

reach one thousand cases. Fruits of all kinds are a failure, there being very little of any kind.

Apples-There will be but one-half the verage crop, and the quality is not good. Hay-There is an excellent yield, which s housed in good order.

Oats are light in yield, and in weight may be placed at twenty-two pounds per bushel. From New Jersey we hear that apples are total failure, and other fruits are short. Wheat-The crop is good-one-fourth

better than last year. There is a fine prospect for a good crop of

Oats are exceedingly light-the poorest eron in ten years.

Potatoes are light; poorer than last year. Vegetables and melons are very good. Peaches are almost a total failure.

THE Age says the revolutionary programme of the Radicals is daily developing itself. A carpet-bagger named Coon, in the Alabama Senate, recently displayed his fireeating tendencies by announcing that "if cals would give their opponents a belly full next war victory would perch upon the Radcal banners." Coon evidently let the eat out of the bag, and his admirers in the North are now deploring his indiscretion. The Radicals desire to get up a new revolution, so that they may continue their plunder of the people's money, but they don't want their

tools to say so. CANT AND GROWLFAX. - A few nights since a zealous Radical, who had suffered his stomach to become the receptacle of more poor whisky than good water, had fallen into a double slumber in one of our saloons and was fast sleeping off the fumes of the stimulent, when he was suddenly roused by a noisy discussion on politics, and thinking election day had arrived, he exclaimed: We (hic) fought to whip (hic) the south (bic) and did whip'em, (hic) and now them rascally (hic) Democrats are trying to get'em back in the Union. I (hic) can't go that. 'Rah for Cant and Growliax.

THE Democrats are selecting from among their very best men their candidates for of-Senatorial nominations, so far as we have observed, for the coming election, are capital selections. The Radicals will have to take a back seat this fall. The acquisitions to our party are daily increasing. The rotten ship, "Radicalism," is being abandoned. After the November elections there will not be sufficient number left on board to even throw out an anchor, and away she'll go with the waves and dash to pieces against the rocks of Democracy.

THE New York World states that a proposition is seriously entertained by the Radiical National Committee to recall the Chicago Convention, in order to receive Grant's resignation, and nominate a new candidate for the Presidency. We hope not. Grant is already beaten, and if he is taken from the track we will have to go to work and beat somebody else.

Why does it cost \$44,413,151 more to support the army and navy in the year of peace, 1867, than it did in the year of peace, 1866? Will our neighbor of the Republican answer? P. GRAY MEEK, editor of the Bellefonte

Watchman, has been re-nominated for Assembly by the Democracy of Centre county. He will, as he deserves, be triumphantly elected.

IMPARTIAL suffrage, according to Radical logic, is to enfranchise the negro, and disfranchise the white man.

Insulting the Soldiers.

The venal journals of the Radical party

pretend to believe that a large majority of the soldiers engaged in the recent war will vote for their candidates. Their assertion of such a belief is a gross insult to the intelligence of every man who entered the Federal army. It is practically telling them that they were so stupid that they did not know what they were fighting for. We do not know a soldier who does not scout the idea of having taken up arms for any unlawful or treasonable purposes, and any one capable of reading the Constitution knows that the acts and purposes of the managers of the party which has made Grant its candidate are not only tyrannical, but they are gross violations of that supreme law Maryland ..... which every soldier has sworn to support. A more flagrant cheat was never practised by political demagogues than that which the Radical leaders resorted to in order to get men to enter the army. All their pubished declarations of principles were conservative, and they constantly declared their devotion to the Union; now they assert that to establish negro equality at the very likely, but we do mean that it is almost point of the bayonet, and to get sham electoral votes for their party in southern States. is restoring the Union. Will they pretend that this is what the soldiers understood by Union when they shouldered muskets to fight for it? No honest man, who has a welldefined idea of the difference between freedom and military despotism, will vote for Grant. It is certainly no compliment to a soldier to intimate that he engaged in a civil war from the mere desire to gain mili-tary glory, without regard to the justice of the cause for which he fought; and to say that it was lawful or just to make war upon the southern States for the purpose of abolishing negro slavery is, in effect, to intimate that men are utterly ignorant of the as it required 17 days voting in one State bond of Union which held our States and 7 days in the other to carry them for together. There was but one object which any one could honestly have in view in fighting southern rebels, and that was to compel obedience to the constitutional authority of the government. All who entered the Federal army, and fought for any other object, were murderers, and not true sol-

diers. It is now plain to every one that the Radical party did not wage war for any lawful purpose. There is no legal authority for inflicting any penalty upon a State, nor upon any class of citizens. Rebels were personally responsible for what they did, and could not justly be punished until they were tried by a jury. Grant, in accepting the nominations for the Radicals, and in exercising illegal military power, has endorsed their acts, and placed himself in the attitude of a rebel against the lawful authority of the government. The deception which he practiced towards the President, and his giving up the War office to Stanton, were such flagrant violations of his duty and his word that no honorable man can

excuse his conduct. The Federal army was made up of men taken from the various trades and professions, and the mechanic arts furnished a large part of it. Many of those who volunteered were young men full of enthusiaem, and ambitious to take part in what they were told was a grand struggle to save the Union; and very many of them have intelligence enough to rebuke the charlitans who now practically declare that the purpose of the war was to establish military despotism, to enforce negro equality, and to subvert our free Constitution.

There is nothing brilliant enough in the career of Grant to excite military enthusiwar must come, let it come-that the Radi- asm and admiration. Wielding a mighty power, he crushed smaller forces; but was at the sacrifice of vast numbers of his own troops, and no one who follows his path of blood can avoid a shudder in contemplating the scene of carnage through which his armies waded.

Neither enthusiasm nor patriotism will induce soldiers to vote for Grant .- Daily

JOHN BELL, of Tennessec, is still alive and well. He says he hopes to live to vote for Seymour, to see him elected, and to die freeman. He, with the best white men of that gallant State, has been reduced to a condition of galling slavery under the brute Brownlow. The Democratic party intends to see that white men be made as free as always clapse after meal before indulging in legged and one-armed fellows in it, that it article—superior to Cologne and at half the the negroes are, in Tennessee and elsewhere, a bath.

Can the Democracy Win.

As we have seen lately in the Radical apers numerous estimates intended to show the certainty of Grant's election, we have prepared the following table, giving what we believe to be a fair estimate of the proswe believe to be a rair estimate of the pros-pects of our party in the coming atruggle. If Virginia, Texas and Mississippi are ex-cluded from the Electoral College, the whole number of votes cast will be 296, making 149, the number necessary to elect. The following States were carried in 1867 or 1868, and we regard them as perfectly safe for Seymour, as in every election held this year, as in Kentucky, Michigan, Connecti-cut, New Hampshire, and Montana, we have gained on the vote of last year : California..... Ionnecticut ...... 6

Centucky......l

New Jersey .....

We must get 48 votes more to elect Seynour, and these we can easily obtain from Seythe following States. We do not mean that Democracy out of their fellow negroes.—we shall carry them all, though we think it When that is unsuccessful they cut their morally certain that of the 102 votes which the following States cast, Seymour will receive at least 48: Arkansas..... eorgia..... Indiana. Visconsin West Virginia.....

102 Our reasons for thinking that we can carry nost, if not all of these States, are as folows: It has been demonstrated that the Democrats can carry Arkansas and Georgia the Radicals by small majorities. Large numbers of the negroes are joining the Democrats, and better than all, but one day will be allowed for voting at the Presidential election. With the military away and but one day to vote, we may count safely on Georgia and Arkansas In Illinois and Indiana there were no

State elections last fall, but both States were carried by the Democrats on the vote for indges and county officers. These elections afford no perfectly certain test, but we may add that Chicago, which gave Lincoln 14,000 majority in a vote of 23,000, gave last spring a Democratic majority of 1,000, in a

vote a little larger. In Kansas and Michigan, there were no State elections last year, but in last November negro suffrage was defeated in Kansas by a majority of 9,000, and this spring it met the same fate in Michigan by 30,000 majority. These votes are sufficient to make these States doubtful, to say the least.

In Ohio we were defeated last year on the Governor by 2,983, though we elected the egislature; we lost Wisconsin by 4,764 and West Virginia by 1,281. In these three States the majority against us was 9,028 in a vote of 655,804. To overcome this majority we must change 4,515 votes, or 1 in every 146. This change will certainly be made. The elections held this year show that the reaction of 1867 still continues. -With Grant as the acknowledged candidate of the Radicals, the Democratic majority in connecticut was increased from 976 in 1867 to 1,800 in 1868, and the Republican majority in New Hampshire of 3,146 in 1867 was reduced to 2,486 in 1868. These elections took place when we had no standard-bearer. but Seymour and Blair have added vast power to the tide. Oregon gave a Radical majority of 327 in 1866, but in a vote of 22,000 that is wiped out and we carried the State by 1,200 a few months ago. tucky ratifies Seymour and Blair by 90,000. Last year our vote was 90,225, our majority 43,119. On the heels of this comes the news from Montana that at the election held there a few days ago the Democratic majority of 1867 is largely increased. With such indications of the counter-revolution, we may regard Ohio, Wisconsin and West Virginia as any feet.

Nevada and Missouri alone remain. Nevada is little more than a county of California, and is governed by the same influences that bave brought the Golden State into line. In Missouri the Radicals are carrying the burden of negro suffrage, and their defeat is almost certain. In fact, so demor-alized are the Missouri Radicals, that the Treasurer of St. Louis, heretofore a bitter Radical, sought the Democratic nomination for State Treasurer, so sure was he of a

Radical defeat. We have not counted the States of Virginia, Texas and Mississippi, casting 21 votes, in which States an election will be held, and which will go Democratic. Neither have we taken into consideration Minnesota, with a Radical majority of but 5,344, nor South Carolina, which recent elections try, without reading it. Endorsed by the have shown to be very close. Alabama and leading Democrats and Conservatives of the Florida we could have carried, but for the recent revolutionary movement of placing he choice of electors in the hands Legislature. Such a survey of the field is highly gratifying, and to accomplish its glorious promise let every Democrat work, WORK, WORK!—Lancaster Intelligencer.

> ALABAMA. -Gov. Smith of Alabama, vetoed the bill authorizing the Legislature to cast the electoral vote of the State. This raised the ire of one Mr. Coon, a "carpet-bagger" from Iowa, who declared that the men sustaining the Governor were in favor of war, and that he and his friends would give them a "belly full" of fighting if that was their game. Mr. Jones, a Radical but a native of Alabama, then flayed the Coon in admirable style. He declared that if Coon wanted war, he could have war, and the war would last until none of his sort des-ecrated the soil of Alabama. He said that he was a Republican, but when war is talked about and Alabamians are to be slaughtered, he would be found on the side of his own people, those, in this bright and sunny, but oppressed land, to whom this country and the government of it justly belong. He said he could raise a squadron of town boys and whip out anything the gentlemen from Iowa could bring against him. He could marshal 20,000 colored men to follow his banner in defense of Alabama and Alabamians. The colored men of intelligence knew that carpet-baggers were not their friends, and that a squatter would desert them in the hour of peril and need. "Carpet-bag-gers" are at a discount in the South at this time. Even the negroes spit upon and insult them. No wonder that General Butler wished to dub them "knapsackers." But this will not do.

SOLOMON STUMP CALLS DAN SWIGART OUT OF HIS OFFICE TO TELL HIM SOMETHING. - Stump-I tell you what it is, Dan, saltpeter won't save the loyal people from sattpeter won't save the loyal people from gittin' beat this hitch. Every body's agin us. The copperheads has the bulge on us.—When they say things, we haven't nothin' to say back. They say Grant gits drunk, and we can't deny it. They say Republicans keep the Union dissolved, and we can't deny it. They say that taxas is destroying deny it. They say that taxes is destroying the people, and we can't deny it. They say that Republicans is for pilin on taxes by payin' the debt in gold, and we can't deny it. They say Democrats is for takin' off the taxes by payin' the debt in greenbacks, and we can't deny it. The fact is, Dan, I think we're about gone up, and un-less you town fellers put your heads together, and get out a secret circular, tellin somethin' sharp and cuttin' to say to the cops, I'll be cust if I don't get out of politics altogether. Dan- I tell you what it is. Solomon.

we've been puttin' our heads together, and I'll be d-d if we can think of the fust thing to say. Just try to think up something yourself, and if you find anything good, for God's sake let us town fellers know! A LADY who was looking at the proce

sion of the soldiers and sailors at New York was heard to say that she saw the soldiers and sailors procession at Chicago, and she thought the Republicans made altogether the better show, for although the Chicago procession was much smaller, it presented a great deal better appearance, because the New York procession had so many onewas perfectly disgusting. Poor woman!

Gold

Gold reached last week one hundred an fifty. This to some people is extraordinary; to us it is not. There are a thousand millions of our bonds held in Europe, on which we have to pay a gold interest. An instalment of twelve millions in gold went out to Europe last week to pay interest

due, and how fluch more will have to go in the next six weeks no one can tell. We purchased Alaska and paid for it two weeks ago. This took seven millions five hundred thousand dollars more in gold. The importations into this country of foreign goods are at the rate of ten million

of dollars a month. Our bonds are taken in payment and carried to Europe and bought up by capitalists, and instead of the gold interest being circulated among our own people, it goes into the pockets of Eu-The consequence is that every day gold is getting scarcer and commands igher premium,

Instead of paying, as heretofore, our foreign importations by an exchange of cotton, rice, &c., we are compelled to pay in money because we have nothing to sell The South is next to ruined -no cotton-no rice-no sugar, none of the articles which we traded to foreign nations, while the North has nothing but taxes, and these she cannot trade off to other nations for they have enough of these commodities

of their own. The government kept the price of gold down as long as she could, but it is impossible to fight against the inevitable laws of supply and demand. The Radical party have destroyed commerce - destroyed labor -bankrupted the country and burdened the people with taxes-one-half the country ruled by bayonets—the negroes grown idle and worthless—the constitution trampled under foot, and the public treasury a source of corruption and plunder. No wonder gold commands such a premium. be thakful if it gets no hiligher. — Democrat ic Herald.

"THE WAR BETWEEN THE STATES, ITS CAUSES, CHARACTER, CONDUCT AND REby Hon. Alexander H. Stephens is the title of a valuable work just issued by by The National Publishing Co., Philadel Histories of the late civil war have sprung

are desirous of arriving at a correct under-standing of the cause, and a clear history many little nigs owe their lives to him?

......A large black bear was recently killed on the farm of Mr. Lebo, near Halifax, in same from a Southern stand-point, by some want is about to be supplied by Alexander H. Stephens. Mr. Stephens was a most earnest protestant against rebellion, and only succumbed at the last moment, when his State, in spite of his warning, committed the great error.

The bare announcement that this distinguished Statesman had determined to write a book, would itself be sufficient to kindle a lively and wide spread interest in all sections of the country; but when it is known that he has chosen as his theme the one so fruitful as The Late American War, the absorbing interest of the subject, together with the evident and singular fitness of the author for its treatment, unite in awakening a curiosity entirely unparalleled in the annals of American literature.

It presents a careful and political analysis of the past, separating real from apparent causes from the late unhappy conflict, and gives the interior light and shadows of the Great War, only known to those high officers, who watched the flood-tide of Revolution from its fountain springs, and which were so accessible to Mr. Stephens from his position as second officer of the Confed

To a public that has been surfeited with apparently similar productions, it presents a change of fare, both agreeable tary, and an intellectual treat of the highest order. The Great American War has portance, and at whose hands it receives that moderate, candid and impartial treatment which truth and justice so urgently

demand. This most valuable work is sold only by subscription, and the publishers want an

agent in every County.

Diseases more frequently terminate fatally at this time than at any other, owing to the relaxation of the system. This is, therefore, the proper time to use a remedy that will recuperate the strength and fortify the system against the attacks of disease. Experience has demonstrated the fact that Hostetter's Stomach Bitters is the best medicine used to accomplish this desirable object. By its use the appetite is increased, digestion promoted, all feelings of depression removed, and the vital functions restor-

ed. The afflicted should avoid all pernacious alcoholic preparations purporting to be tonics and restoratives, as they only afford temporary exhiliration, and eventually entail dangerous, if not fatal, results, This is never the case with Hostetters Stomach Bitters. They afford permanent benefit and soother the nerves without reaction following their

use. The weak and debilitated, by its aid, awake to a sense of the enjoyments of life, and they are enabled once more to take their accustomed positions in society. Hostetter's Bitters are now considered the standard remedy for all diseases arising from an impurity of the blood. They are manufactured n great quantities, and there is scarcely a city or hamlet on the habitable globe where they may not be found.
