THE HEATED TERM. - August is in-

rariably an unhealthy month, and the dogdays are univer-ally quoted as an unhealthy season. Diseases more frequently terminate latelly at this time than at any other, owing to the relaxation of the system. This is, therefore, the proper time to use a remedy that will recuperate the strength and fortify the system against the attacks of disease. Experience has demonstrated the fact that Hostetter's Stomach Bitters is the best medcine used to accomplish this desirable object. By its use the appetite is increased, ligestion promoted, all feelings of depresson removed, and the vital functions restored. The afflicted should avoid all pernacious alcoholic preparations purporting to be tones and restoratives, as they only afford temporary exhiliration, and eventually entail langerous, if not fatal, results. This is never he case with Hostetters Stomach Bitters. They afford permanent benefit and soothe the nerves without reaction following their use. The weak and debilitated, by its aid. awake to a sense of the enjoyments of life, and they are enabled once more to take their accustomed positions in society. Hostetter's now considered the standard remedy for all diseases arising from an im-

For Langour, Lassitude, Great Weakness and Mental Depression, they have a most wonderful effect.

Preserve Your Natural Teeth.

This most important branch of Dentistry he discovers has never been properly introduced. No truth is more obvious, than that a natural set of teeth with proper care, will isst its possessor a litetime, yet he finds many persons who object to having their teeth filled, Indging by better experience that it is useless. To such he extends the cordial invitation.

COME TO DR. CHALFANT'S OFFICE, He will examine your terth free of charge, and convince you of your error. He has methods of filing teeth never hefore practiced in this section of country, and means of proving to the most skeptical that the filling cannot possibly be removed from the cavities. So confident is the of this that in this de-

HE WILL INSURE HIS WORK FOR TEN YEARS.

He also finds persons equally prejudiced against ARTIFICIAL TEL'H objecting that they cause pato, and produce soreness in the mouth, that they must be taken out when eating, and that frequently they are thrown asside altogether. In view of this he wishes you to

READ HIS TERMS.

He will put up any set of teeth upper or lower, or part of either, and insert them so that they cannot be distinguished from natural teeth, and guarrantee satisfaction in every case. Any person not pleased with his work in every particular, need not take it from the office or pay for it as he allows no ease to loave his office which produces the slightest pain, or would be light to create sorrouse in the nouth. He would be likely to create soreness in the mouth. He extracts teeth by the use of

NITROUS OXIDE GAS,

That being the annesthetic in general use, and recommended by leading dentists throughout the United States. He will administer Ether however to those prefering it.

Come and see hun, he will examine your teeth and give directions for preserving them free of charge. Found at all those in his office next door to Dr. J. R. Evans, Main street, below Market, Bloomsburg, Pa. July 1, 1868.
