We are constantly told by Radical newspapers and Radical orators that the results of the war have enhanced the glory of the country, and strengthened the reasons for ust national pride in its citizens; that our government has so manifested its strength, and its people such a determination to maintain the government against all enemies, internal or external, that hereafter we need have no fears of assault from any quarter; and more than all, that by wiping out the "foul blot" of slavery and making a huge step in the direction indicated by our fathers when they proclaimed that "all men are born equal," we have given such indications of a higher civilization in the future that so far from the blood of our brethren having been shed in vain, it was the fuel to the fire from which Phonix like our country has arisen to an incomparably higher position among the nations of the earth. All this we are told by our Radical friends; and the people are constantly exhorted by them not to let these golden fruits turn to ashes in their hands. It is said that the prize is a rich one, and that we should hold fast to it not only for practical uses, but to be exhibited to the gaze of an envious but admiring

It is not our purpose now to gainsay all or any part of this. We have another object in view; and our readers shall see how little genuine logic is necessary to show what sophistry instead of argument these Radicals put in the mouth of their Janus faced idol. Let your Radical orator or scribler exhaust his vocabulary in praise of the results of the war, give him time to breathe, engage him in conversation on the subject generally of the political condition of the country, and then ask him, who caused the blages, in this county. Timely notice will laborer for his wages, and the mechanic for war? Without winking, and thinking he be given should they conclude to continue his work. Many of these bondholders not to be true.—Harrishurg Patriot. war? Without winking, and thinking he has got you, he will at once answer, the Democrats ! The egregious ass does not see that he thus stultifies himself; and according to his own showing the Democrats are the primary source of all these glorious benchits, past, present, and future, and the Republican party turns out, after all, not to be the party of progress, as so earnestly claimed for it by its adherents, but a party which can be admonished into activity only by the prick of the bayonet. All this the Radical himself proves, and we give him the benefit of his argument.

Is it possible that the white electors of this District will re-elect Mercur, who voted for every measure that was calculated to clevate the negro, and take money out of add to the esteem in which he is held by his your pockets for that purpose? He voted most intimate friends and acquaintances in to give the negro the right to sit in the jury contractor and builder of great public in box; to give him the right of suffrage; and provements, and as a legislator, he has to compel you to pay for these rights! Will shown himself to be the peer of the ablest you continue such & man in office? We have there for Col. Victor E. think not. Vote, then, for Col. Victor E. Piollet, for Congress, and assist in redressing the wrongs.

Montour County are not idle. They are holding meetings all over the county. Dur-holding meetings all over the county. During the past week meetings were held at affairs, which have made his township and Washingtonville, Columbia, Mooresburg, Sharp's Ridge, and other points. They were addressed by Hon. Thomas Chalfant, of Danville, Jesse C. Ammerman, of Cooper township, Wm. H. Shoemaker, of Hemlock, and others. The Democracy are full has proved to be a pure, incorruptible and of life this fall, and will sweep this pestilence-Radicalism-out of the country on the 13th of October, by electing BOYLE and Ent, carrying a majority in the Pennsylvania Legislature, and gaining in our Congressional Representation.

THE troubles in Spain, which have been long browing, seem about to culminate in a civil war. Late accounts inform us that the Spanish navy, with the chief Admiral at its head, has declared against the Queen. This war, if it should come, may embroil the whole of western Europe. The cause of the trouble seems to be, the alleged bad govern ment of the queen and her ministry.

JUDGE WOODWARD since his nomination has devoted most of his time to the cause of Democracy. He has spoken at fifteen Bigler, ox Gov. Johnson, Hon. H. Clymer, of Democracy. BENTON.
On Friday afternoon Robert F. Clark, Fisc., and Col. John G. Freeze spoke at Benton. This meeting was well-attended. A large delegation, headed by the Orangeville Brass Band, came into town about 12 M., marched through the place and was joined by a delegation from Sugarloaf, when the two delegations formed into one, under the direction of the Marshall Dr. Edward Everett, of Orangeville, and passed back through the principal streets, receiving the cheers and waiving of flags, banners and handkerchiefs, by the ladies, to the ground prepared for the meeting. The delegations were then dismissed. The horses being properly cared for, all who desired to refresh and replenish the "inner man," with some of "Grant's policy" and a good dinner, were accommodated by "mine host," Andrew T. Ikeler. At one o'clock the meeting was organized, by appointing PETER ENT, President, and quite a number whose names we do not remember, Vice Presidents. Chas. Conner, esq., and two or three others, Secretaries. The weather was delightful, the Democracy all over the country confident of success, and the result, a large turn-out. The speeches were good, soundly Democratic, and merited the thrilling rounds of applause they received. The meeting ad-

SCOTT TOWNSHIP. On Saturday ovening the Democracy of Scott Twp. were addressed by R. F. Clark and J. G. Freeze, at Espy. We understand that the meeting was well attended by both Democrats and Republicans. Mr. Clark no doubt made them a good speech, as he rarely if ever makes a poor one, and then they returned to their homes, at least better satisfied, if not all with their minds made up to vote for Horatio Seymour and F. P. Blair. Party lines are generally drawn pretty closely together in this township, but the Democracy there confidently anticipate a majority over Grant and Colfax this fall.

CATAWISSA. On Saturday evening last a political discussion between Captains Brockway and Whitmoyer, was held in the town of Catawissa. They spoke, time all told, over an hour and a half each-alternately thoughat the rate of thirty minutes at a time. The attendance was large and orderly; and no doubt in our mind the Democracy were well pleased. The township of Catawissa has patriotism of Horatio Seymour and Frank been in the habit of giving Republican majorities, but it is expected by some to join the Democratic column this fall. Rah for name is on our State ticket. At the close,

LOCUST. Capt. Brockway, Democrat, and Capt. Whitmoyer, Republican, discussed the policical issues of the campaign before a large and mixed audience on Monday evening last. This is the last engagement announced, saye one in Bloomsburg on Friday evening next, that they have to meet. They have spoken six months in gold, worth nearly one third at quite a number of places, to large assemblages, in this county. Timely notice will the discussion at other points.

Mr. B. is a capital stump speaker and draws large crowds wherever he is an- the nounced to speak. The meeting, we are informed, was largely attended by both Democrats, Conservatives and Radicals.

Col. Piollet.

The Wyoming Democrat gives our candidate for Congress the following merited compliment:

"Cot Victor E Piollet, who has the unanimous voice of Wyoming county, and we believe of the District, is a man so well and favorably known in Pennsylvania, that nothing that we might say of him would all. Meeting of the Centreville Club.

The Democratic Club of Centreville met on Thursday evening last in accordance with the time fixed at a previous meeting. There was a good turn-out of both members and others, including some of the most prominent Republicans in the township. The meeting was called to order by the President, Henry D. Knorr, Esq., after which the Secretary read the minutes of last meet-

On motion, the Constitution of the Club was read and an opportunity given all those who had not yet become members to come forward and put down their names. Quite a number stepped up to the Secretary's desk and joined the Club. Next business brought before the meeting was the propriety of purchasing a flag to belong to the Club. It was, after little discussion, decided to purately taken up for that purpose. Sufficient amount of money to purchase materials, and letter it with the names of Seymour and Blair upon it, was soon subscribed and paid over into the hands of the Treasurer.
The President then introduced William-

son H. Jacoby, editor of the DEMOCRAT, who addressed the audience for over an hour on the issues now being discussed in this campaign. His exposition of Congress, relative to the Reconstruction and Freedmen's Bureau acts, together with other pieces of infumous logislation, was received with great attention and satisfaction. He dwelt slightly on the finances of the country, exhibiting, as far as he went, a clear knowledge of the subject. His remarks closed with a high tribute to the ability and P. Blair, and with an carnest appeal to the electors of Columbia County to stand by one of her noble and patriotic sons whose three cheers were given for the speaker, and three cheers for the Presidential candidates.
Adjourned to meet on Thursday evening.

Taxatlon, Government bondholders are not taxed more at this day than the money the farmer must take for his surplus crop, the day made their money in the military service the government on honest terms as far as government was concerned. These men feeling loyally inclined, invested their ill-gotten gains in government bonds, drawing from 6 to 8 per cent, interest in gold-All of these bonds were bought with green-backs, at par, when gold was worth from \$1.50 to \$2.50 in greenbacks. They have already received their gold interest for mowards of three or four years, amounting to from 8 to 12 dollars annually upon each hundred dollars so invested. They demand that this must continue until their bonds become due, and then they want to be paid the principal in gold for which they paid in greenbacks worth at the time probably not more than 40 cents to the gold dollar.— These are some of the rich man's extra privilegds. But this is not the worst of it. When the assessor comes round-and this will soon be he calls on the farmers for their list of the taxable property, their horses, cows, carriages if any should be so fortunate as to have one-notes, mort-gages and all money on interest. The laboring man and the mechanic too are called on by the assessor, and if they should be so fortunate as to have a liouse and lot, or cow or horse, or both, the assessor puts it down to be taxed for county, State, school, and road taxes, and if living in a city or borough, an additional city or borough tax is added. But when the assessor course to the bondholder, he is told, I have this house and a span of fast horses and a buggy, this is all that is taxable. I have one hundred thousand dollars in government bonds, but this is not taxable, on account of my loyal ty in giving to the government in time of need. Now look at the inequality and injustice of this taxation ! Here is the me chanic and laborer, worth probably only four hundred dollars and pays as much tax as the bondholder, worth one hundred thou-There are many cases where the bondholder is worth a million of dollars and boards at a first class hotel with nothing

The 'lively times' enjoyed by editors in Paris Sunder an Emperor, wore also enjoyed hugely in this country under a Radical President. For four or five dreary years the Radicals persecuted, in every conceivable way, my one who dared to speak his mind. Spies and detectives were set upon every man a track, and the press was muzzied as effectually here as it ever was in Paris. Men were arrested, thrown into prison, or driven into exile; their business was destroyed and their publication offices were placed in the hands of military satrage; and when all che failed to intimidate free-men in the exercise of their constitutional rights, brutal mobs were instigated by the Radical leaders, the public peace was broken, and private property was recklessly destroyed. The efforts of the Radical press to compare the result with the vote of 1867 is a transparent attempt to deccive their readers. The ligher law was the great issue both in Maine and Massachusetts.
