WEDNESDAY,......NOV. 25, 1868. To Debtors of the Democrat.

We have upon our books numerous accounts which will aggregate a large sum of which we stand greatly in need. Some of these accounts have been standing six years or more, and no attention has been given to bills repeatedly sent. These old accounts must be paid at once or we will be compelled to place them in the hands of a justice. We intend sending out bills to all indebted to the Democrat either for subscription, Job work or advertising, and hope our debtors will favor us with a prompt response.

THE PRESIDENT ELECT.

The far-seeing politicians of the Radical persuasion, together with the noble army of office seekers, corpet-baggers and scallawags are immensely disgusted with their Presiand wined by the Union Leagers, and is deaf to the piteous cries of those desiring points, and a mighty wail is beginning to arise, from those who cannot see their way clearly. Doubtless the Bureau officers are nation of their important duties. What if after all the "Silent One" should prove to be conservative, and apply himself to furthering the good of the country instead of robbing the Treasury by the appointment of useless officials! What a deluge of abuse and slander would be poured upon his devoted head by those patriots who worked so hard and spent so much at the late elections. With the well known ability which the Radical party possesses for villification, largely increases by disappointment, what might we not expect? Seriously speaking, the action of Gen. Grant in refusing all offers of dinners and serenades offered by interested politicians is worthy of consideration. It certainly does look as if he intended to enter upon the duties of his high office untrammeled by promises, and with a policy of his own. If he continues to be oblivious of the howlings of hungry and needy office seekers and appoints only such men as are really fitted for office, he will receive and deserve the heart-felt thanks of the nation. If he will abolish some of the hundreds of useless offices now existing, he will deserve them still more. Abolishment of the Freedmen's Bureau, if he can influence sufficiently his Radical advisers in Congress, would be a crowning glory. We carnestly hope that the President elect intends to consider the good of the whole country, and that he will refuse to be guided by party men and

The scramble for office throughout the country increases in eagerness from day to day. The devoted patriots who are anxious to lend their aid in saving the nation wax more and more numerous. In view of this the New York Times proposes a new way of paying the public debt which is, that each office seeker should pay one dollar per week into the Treasury until he gets an office. We agree to this, but would suggest a speedier way, viz: that the present holders of office should pay to the "Conscience Fund" of the Treasury, all the public moncy they have stolen during the past four years. It would not take long to free ourselves from debt and have a handsome balance besides.

"Let us have peace."

In the 21st District of this State, in which Hon, Henry D. Foster, Democrat, and "Honest" John Covode, Radical, were oppenents, no certificate of election has yet been issued by Gov. Geary, he asserting that "no such returns have been received" as would "authorize me to proclaim the duly elected a member of the House of Representatives of the United States for that District."

It is the old cry of fraudulent votes which has called forth this action on the part of Geary. We wonder if the Governor was equally zealous in looking into the fraudulent Radical votes cast in Philadelphia?

Grain dealers are not willing to pay \$2.00 per bushel for wheat. This tumbling down in the price of grain is certainly good and cheerful news to the poor laboring classes. Whether the election of Grant is the cause of this decline in the grain market, we are unable to determine; but had Seymour been elected, the Republican press would have soon set up a howl for the grain dealer, charging the Democracy with the decline in the market. Money is scarce and wheat and flour are lower in price, all since the election of Grant. How mortifying to the bondholder t

THOMAS K. BEECHER, brother of the Brooklyn one, and assistant editor of the Elmira Advertiser, is out in a series of articles leveled against Radical leaders, (though he is himself a Radical), and gets in the following good one on Henry Ward: "It is reported and widely believed that you are an ale drinker and wine bibber; that you are a billiard player, a card player, and the proprietor of a ten pin alley; that you are a profane swearer, a trifler, a mocker, and a stumbling block generally, in the way of Christian religion," and wants him to state whother the reports are true or not.

SHOULD the Radicals succeed in their full disunion programme, negroes will be sligible to every office of appointment or election in every State and in the Federal Government. While claiming, laboring, plundering, scheming, cheating and fighting for vibrate forever-thus bequeaths a gem to these privileges for the blacks, they make no demands for the same privileges for naturalized Germans, Irishmen, Englishmen, Welshmen, who, under the constitution, are ineligible to the Presidency and other offices under the Government. This shows that the Radical leaders practice what they preach-namely that "a negro is a better citizen than a foreigner"-and that they would have no objection to elevating a darkcy to the Presidency, while, at the same time, in the devilish proscriptive spirit of ted victory on the drooping banners of their pioneers, the Know Nothings, they Bragg; that had witnessed four gigantic would deprive every adopted citizen of the campaigns, and through all their shiftings right to vote at elections. These are facts which are evident, or should be to every faithful to the last. And after having witsensible adopted citizen in the land.

WATCHMAN AHEAD. - Sometime since says the Bellefonte Watchman, Mr. Rikard of the Cummings House, purchased a white trotting horse, and named him "Watchman" in honor of this paper. At our late fair, "Watchman" was entered for the \$50 its affections warmly clustered, now comdeut elect. He utterly refuses to be dined purse, and his principal competitor was 'Brown George," a horse belonging to a darkey in Williamsport. The radicals about here froze tight to "Brown George" to serve their country by holding lucrative and the darkey at once. Our Bellefonte offices. Grant has dodged all his friends horse, in their estimation was nothing, and in New York, in Philadelphia and at other to back up their opinions they bet their stamps on "Brown George." The trot came off-"Watchman" won the race easily, and a sicker looking lot of rads you never saw than the noor fools who bet against Mr. trembling in their shoes, foreseeing a termi- Rikard's horse because he was white and had been named after Watchman.

> Bonden Damages. - Franklin county has put iu 1,504 claims, Fulton 127, Perry 5, Bedford 47, and Cumberland 132. Adams will probably have 1,000, and York several hundred. The claims in the aggregate will reach from \$1,500,000 to \$2,000,000.

> THE Freedmen's Bureau, according to the report of General Howard, just made, has expended \$3,977,000 during the last of ficial year. General II. says that there is no necessity for continuing the Bureau beyond January next, at which time it expires by Congressional limitation. Of course not -the election is over.

MR. JACOBY, Sir:-The editor of the Columbian tells the people in last week's paper that the 21st verse of the Seventh Chapter of Ezekiel has all the letters of the dphabet in it. This is not so, for neither j, m, q, x, or z, can be found in the verse. He also says that the nineteenth Chapter of the second book of Kings and the thirty seventh Chapter of Isaiah, are exactly alike. This also is not so, for the two Chapters differ in text in many respects; besides, one eight. I wonder how it comes, Mr. Editor. hat they can so foolishly tamper with the Sacred Word. Say the Radicals. Agreed, says the Dai by Patriot. We will be triends, and friendly to you and yours—as long as you do what is right. But if you depart from the paths of political rectitude—or rather, if you do not speedily return to those paths—there can be no friendship such as you speak of. Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color with the gloss and freshness of youth Thin hair is thick.

ened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous, Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

LOWELL, MASS. PRICE \$1.00,

Ayer's Cathartic Pills, For all the purposes of a Laxative

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative Putt. The obvious research is a supersally adopted into use, in every country and among all classes, as this mild but efficient purgative Putt. The obvious research is a supersally and any fact that it cares their neighbors and friends, and all know that what it does once it does always — that it never fails through any fault or neglectof its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cares are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomet or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity. They operate by their powerful influence on the internal viscera to purify the blood and stimulate is into healthy action—remove the obstructions of the body, restoring their irregular action to health, and

into healthy action—remove the obscructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and hy correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which tieses Pills rapidly cure:—

For Edware and Loss of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For Liver Complaint and its various symptoms, Billions Healthache, Selliens, Elliens

dose is generally required.

For Extremulation, Gout, Gravel, Palpistation of the Evars, Palm in the Side, Back and Loime, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints

disappear.

For Browny and Bropaical Swellings they should be taken in large and frequent does to produce the effect of a drastic purge.

For Suppression 1 large does should be taken as it produces the desired larged by supporting the state.

as it produces the desired effect by sympathy.

As a Disser Pill, take one or two Pills to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these Pills makes him feel deckledly better, from their cleaning and renovating effect on the digestive apparatus.
