BUY DIES IN A DAT Surgeons Think That Bunny Lived Long Enough to Make Operation a Success. New York, Dec. 4. The rabbit which was grafted upon the leg of the boy, Cornelus Post, lived only twenty-four hours in that position. Nevertheless, Dr. C. D Fox, who performed the operation in St Mary's Hospital, Passnie, N. J., is hopeful that the animal has not died in vain. The boy is doing well, and his chances of care are about doubled by the fact that the rabbit survived the operation so long Cornelius passed a good day and night, but the rabbit, spite of the bandages, found a way to wriggle. Nurses took turns holding the rabbit still. It ate parsley and cabbage and seemed to suffer little. While Cornelius was sleeping un-der the influence of a sedative the rabbit gave a little kiek and died The surgeon severed the connection and examined and dressed the graft. He found appearances encouraging.
