shortly afterward retired. Between 1 and 2 o'clock the following morning Mrs. Arms was suddenly wakened by au unusual noise of some kind. At first she was unable to either locate the point from where the sound came or what was causing it. Then she heard the cat mewing in a peculiar manner. The animal had frequently

mewed at nights when wanting out of the house, but the placid, unrufiled tones of her calls on those occasions were vastly different from what she was giving vent to then. The cries, it was giving vent to then. In ories, in such they can be called, were loud, piercing and agonizing. The cat ap-pealing for avisitance with all the force and power at its command. Mrs. Arms interpreting the yells and

mews to by cries of distress harriedly responded to them, little expecting, however, the startling scene that was so soon to greet her vision. When she reached the heal of the stars she heard another sound, one that deadened the still frenzied howls of the cat. It at Antong. Manchuria, and within a connection. That left only a small he explained to the Board. He has sounded like the roar of an Niagara, portion of track requiring straighten bookets of tea, and 375 letters and to the motion the meter of the book of about the secretaries do is to popular thing the secretaries do is to Bloom, thence to Mill were covered give gramo, huse concerts and enter trimenche. The most is can difference to Mill were covered give gramo, huse concerts and enter trimenches at the hospitals, as the portion of the stars and strengthening to be addended to be detended to and strengthening to be attended to a page, and before he has a the decided to the strengthening to be attended to a second the getting a certain number of the books. The monotony. Even an American is an them before cars could be run over the dug for, and it was necessary to clean the before cars could be run over the dug for, and it was necessary to clean the before cars could be run over the stars. Therowing open the door at the boots for the stars she discover interest on the matter of name adpreciates every reach four the appreciates every reach the function of the stars she discover the stars she discover the stars she discover the out the stars she discover the stars she discover the out the stars she discover the out the stars she discover t ounded like the roar of an Niagara the board covering of the old fire place behind the range burning flercely. The flames were leaping up the wide chimney, and ascending high above its top on the outside. It was the roar of these which Mrs. Armshad heard dur-
