

D. AUST LUTZ, Editor and Proprietor.

THE INTELLIGENCER is the oldest and best weekly, democratic newspaper in this section of the State.

THE INTELLIGENCER, Danville, Pa.

THEY AGREE WITH US

MUCH commendation has been bestowed upon us by the more reputable citizens, who fully agree with us upon last week's article.

Some years ago, when the present price was agreed upon by the various newspapers and council, it was understood that the Borough printing was to be divided equally among the various newspaper publications of the city.

But that is past and gone. It seems to be too long ago. So that when printing is to be GIVEN it is handed to a certain few.

The vulgar would say, "stop chewing the old rig," but we insist that it is TRUTH, and are led to assert that, he who tootheth not his own horn the horn of the same shall not be toothed.

A Philadelphia parson says, "I prefer hell to politics." It's all about the same thing in Philadelphia.

Nikola Tesla again promises that we shall soon communicate with Mars. Nikola is a promising young man.

Let the President have his three battle ships. Moral sensation is a good thing for our own children but a big sick is more effective with the neighbor's boy.

70,000 of the children of New York, it is said, are too hungry to learn anything at school. It is not the hunger of knowledge, however, that keeps them from learning.

The old Grove cemetery does not even look respectable when covered with snow. Many of the old black tomb stones, in their toppling-over condition, disfigure its pure whiteness.

The United States Court at Cleveland has decided that the American wife of a foreigner does not have to pay his debts. This is an awful blow to inter-national marriages.

District Attorney Jerome proposes to prepare a chart that will show the location of the gambling halls of New York. The proprietors will no doubt appreciate this aid to their business.

Dr. Brown, of the New York board of health, suggests that all idiots should be drowned. Other men who have entertained the same idea have been afraid to express it anticipating their own fate, if it should become a law.

A Providence society of women called the "Society for Political Study" appeals to the legislature to pass laws, "restricting the propagation of the human species."

Three states have failed to send to the Senate their electoral votes. According to the law the time was up January 23, but Tennessee, Arkansas and Kentucky have not been heard from.

The students of the state college of Agriculture, New Hampshire have returned the \$1,000 check sent them by President Tuttle, for rescuing work done at the scene of the Boston and Maine railroad wreck the other night.

Sometime next Summer we can expect to see the river bridge completed. The cold water and high water have caused much delay. But the greatest regret is that it wasn't pushed at the start.

Without any malignant purpose we repeat the statement of a physiologist that "women can enunciate more rapidly and more correctly than the average man on account of the superior weight, length, development and suppleness of her tongue."

The Japanese fired 2,000 tons of shells into Port Arthur, over thirty million dollars' worth. It cost the Russians as much in powder and shot to defend themselves.

Mr. Bryan has a cartoon in the current Commoner showing the president walking on Democratic ground with a banner declaring, "The Railroad Rebate Must Go."

With the great and increasing business of the United States and its yet greater and more complex representation in Congress, it becomes evident that longer sessions of that body will become a necessity.

THE key-note of the annual convention of the Iowa Manufacturers' association, held this week in Cedar Rapids, was the demand for a policy that will afford greater opportunities for the young men of the midland region than they can ever hope to have in a purely agricultural community.

It is thought by the majority that he who drinks a quart of milk and eats an apple for a meal has a poor appetite. It is generally supposed that the more meat, hot cakes and coffee one consumes to satisfy his appetite the more robust and healthy he must be.

AMERICAN SYMPATHIES.

NO element of the Russian population is without sympathizers in the United States. Russia has nihilists, we have anarchists. Russia has socialists, so have we.

But what is the attitude of the American people as a whole toward Russia—the Russia of "Bloody Sunday"—the Russia of Gopon, Gorky, Tolstoi and Mirsky?

It is only necessary to state the question to obtain the answer. The American people unquestionably sympathize with Japan in her heroic effort to safeguard the gates of her island empire.

The last sentence expresses it. The American people would be glad to see the Russian nation developed along natural, spontaneous lines of social, political and economic evolution.

It is too early to gauge American sympathies accurately. The facts are not at hand for a final judgment. Yet it is safe to say that, as a whole, our sympathies are against absolutism, against bureaucracy and with the democratic elements of the czar's subjects.

BODIES ACCUMULATED FOR WEEK ARE BURIED

Reading, Pa., Jan. 30.—The blizzard of last week greatly interfered with funerals. In many cases the services were held as scheduled, and the remains were placed in cemetery vaults until the graves could be dug.

CAUGHT THEM NAPPING.

Just such a man as Hon. Wm. T. Creasy, of Columbia county, is required to represent the Democrats in the legislature.

CARRIED TO ITS LOGICAL END.

THE Monroe doctrine—convenient phrase, all-embracing, flexible, useful at times, often embarrassing. You may explain it or interpret it to suit yourself; others have done so with satisfaction.

ENLARGE THEIR OPPORTUNITIES.

THE key-note of the annual convention of the Iowa Manufacturers' association, held this week in Cedar Rapids, was the demand for a policy that will afford greater opportunities for the young men of the midland region than they can ever hope to have in a purely agricultural community.

THE NEW YORK WORLD, THRIE-A-WEEK EDITION

THE THRIE-A-WEEK WORLD has made special arrangements for the year 1905. Its already great news service has been extended and, as heretofore, it will report all important events promptly, accurately and impartially.

THE REDS OF THE MIDI.

A story of the French Revolution, the greatest event in the history of the modern world. A peasant boy who marches with the tremendous battalion of death, the Marseilles column, tells how they overthrew the French monarchy and achieved the conquest of Europe.

THE CARDINAL'S ROSE.

This is the last touch in modernity. The hero wanders into a continuous performance in New York City. He sees a scene in a biography which arouses his curiosity and which leads him into a remarkable series of adventures in a remote part of the world and to the winning of the hand of a princess.

THE BLAZED TRAIL.

Mr. White has opened an absolutely new field, and he is now perhaps the most famous of all the younger American writers. This is a story of the great northwestern logging camps, and tells how the character of a powerful man of action was built up and how it was finally softened by the influence of a woman's love.

THE THRIE-A-WEEK WORLD'S regular subscription price is

only \$1.00 per year, and this pays for 156 papers. We offer this unequalled newspaper and The Danville INTELLIGENCER together one year for \$1.50.

THE REGULAR SUBSCRIPTION PRICE OF THE TWO PAPERS IS \$2.00.
