SCHUYLER. Mr. Editor:—We are having lots of sleighing just now. On Sunday evening it began to snow very fast and continued until in the night. About four inches of "the beautiful" fell. The snow we had last week was blown into the roads, blocking travel until they were opened. Very cold weather during the past week has kept the sleighing in first-class condition. On Sunday morning the mercury fell to its lowest point reached during the season. The temperature has risen from zero to ten nearly all of last week.

Dr. D. K. Hoy is very seriously ill. He has been confined to his bed for some time now.

Mrs. Samuel H. Jarrett has been quite sick for a couple of weeks and is in charge of Dr. Muddley. Her husband is still confined to his bed yet.

Considerable sickness is prevailing in the neighborhood, in the shape of colds, etc. It seems to be an epidemic.

S. N. Williamson, the butcher of Turbotville, is sporting a new team of iron greys, bought at a horse sale at Watons-town, a week or ten days ago.

The wind on Tuesday drifted the roads again considerably. Last week the supervisors had to open the roads running east and west. Wherever the roads have wire fences on both sides and no high banks there was very little shoveling necessary. From this fact it is argued that a road would pay the township to furnish the necessary fencing to put up along the main roads at the cost of opening the roads one or two years would be sufficient to do this and save both money and hard work.

It will soon be time to choose the men who are to manage the affairs of our township and boroughs. It behooves every good citizen to see that the best men are chosen for these places. It is not every man who can be a good school director or supervisor. These officers come closer to the citizen than any others for they have charge of our home affairs and spend the money we pay in direct taxes. It may be that every man elected intends to do his best to discharge his duties, but often he lacks the natural ability to do so. It is unfortunate that many of the best qualified absolutely refuse to accept office at all, and it is not strange either for when an officer does his duty to get no thanks for it but often undesired blame.

The regular monthly meeting of the teachers of the Limestone township schools was held at Snyder's school, Miss Nellie A. Fetheroff teacher on Monday evening. Quite an interest in these meetings is evidenced by the attendance of the patrons of the schools. This was particularly in evidence at this one. The house was crowded to its utmost limit and many could not get in of the late comers. The exercises consisted of recitations, songs and dialogues, by children of Snyder's, Fairview, California, Boyer and Hurley's schools. They all acquitted themselves very creditably. Charles Dow, supt. was present and made some remarks, all the teachers of the township were present, and a short discussion upon the subject of reading was had by Messrs. J. Miles Derr, Elmer Schunre, Schuyler G. Irwin and Miss Jessie Derr; the next meeting will be held at the Fairview school on the 20th of this month. Feby. 8, 1905. BILL.

JAPAN BUILDS WARSHIPS FOR ITS FUTURE USE

Great Preparations Being Made for Maintaining Prestige in the Eastern Seas.

Victoria, Feb. 8.—That Japan is not disposed to give up anything gained in the war now supposed to be drawing to a close is shown by the fact that the nation is engaged in preparing for the future more than ever before. Three Japanese naval officers arrived here on a steamship from Yokohama on their way to London where the Japanese government is engaged in building a big battleship. They say they are engaged to superintend the work and that it will be a vessel of 16,000 tons. It will be delivered at the close of the war. These officers are also quoted as saying that a 19,000 ton battleship is being built at Osaka, a 12,000 ton cruiser at Kaio and that a number of submarines and torpedo craft are being hurriedly constructed. Ten merchant steamers are being built at Nagasaki, one of 7,000 tons for the American trade. The resources of the empire are said to be sufficient for the expenditure and the Japs anticipate great results to follow the war, which they believe is now near an end.

WEST HEMLOCK TOWNSHIP.—Democratic. Judge of Election, J. W. Ande; Inspector of Election, C. J. Shultz; Supervisors, W. E. Moore and S. B. Flock; School Directors, W. E. Hillmeyer, C. O. Sterling and W. E. Moore; Poor Director, J. H. Tanner; Assessor, C. J. Deigmiller; Constable, Montoury Geantart; Auditor, McKelvey Stein.

TO ADOPT OPEN-AIR CONSUMPTION CURE

Success Assured Project of Reading Physicians to Establish a Sanitarium.

Reading, Pa., Feb. 6. A sanitarium for the treatment of consumption is now assured for Reading. A charter has been received from Harrisburg, incorporating the Reading Sanitarium for the Treatment of Tuberculosis. The consumptive cure plan has been brought prominently before the public by the Reading Medical Association, which has held a number of open meetings to discuss ways and means whereby persons ill with the white plague or any other form of tuberculosis might have proper care and attention. The discussion culminated in a decision to establish an out-door hospital somewhere on the hills around Reading, where patients may be given the benefit of a maximum of fresh air and a minimum of drugs, as is the custom at the White Haven Sanitarium.

It is proposed at the start to possibly employ a few cots at the Reading Hospital, where patients may be treated until the association has secured a sufficient footing to enable it to erect a special building. The project has been heartily endorsed by a number of Reading's most prominent and influential citizens, who have lent their aid, personally and financially. Until the proper buildings have been erected the hospital of the city have volunteered to give a portion of their time to the attention of any of the society's patients, but when a special hospital has been erected a regular superintendent and medical staff will be appointed.

California. Mr. Editor:—The fine moderate winter weather still continues and the young people are taking advantage of the good sleighing.

The sleighing is fine, now and then a few large snow-balls to break up the monotony. Occasionally an upset is reported.

The farmers are busy marketing their grain and receiving good prices.

Mr. W. Durlin and family are entertaining friends from Williamsport.

We are glad to hear that Mr. Geo. P. Wagner has recovered from the effects of a heavy cold. Mr. Wagner is pretty plucky, but this time was compelled to give up business for a few days.

On Tuesday evening Jan. 31, the California singing class under the leadership of J. Miles Derr, gave a public recital. The exercises showed that Mr. Derr's efforts with a class of thirty-nine (39) pupils, the majority of them beginners, was quite a success. The program consisted of solos, quartets and choruses. California has had a singing class this winter that the patrons should be proud of. Mr. Derr does not claim to be a music teacher, but the class showed that their teacher has considerable power as a musical director and that he has been interested in his undertaking. Miles claims that California has had a reputation for years for good music and he sincerely hopes that an interest in the rising generation along this line may be fostered. The following are names of the pupils belonging to the class. Maggie Snyder, Rosie Hartman, Percy Hartman, Ivy Hartman, Helen Derr, Aida Derr, Mentor Cronis, Curtis Cronis, Roy Cronis, Carroll Cronis, E. D. Schure Fred Schure, Mary Schure, Wm. Levan, Harry Cooper, Carrie Cooper, Harvey Strouse, Ella Snyder, Roy Strouse, Elmer G. Foyk, Elmer Strouse, LaRoy Kurtz, Norma Durlin, Lonna Felton, Blanche Durlin, Margaret Felton, Warren Fresh, Walter Felton, John Myers, Edward Myers, Frank Funk, Nellie Hartman, Jennie Hartman, Jacob Moser, Hugo Heilmann, George Strouse Elizabeth Montgomery, Margaret Montgomery, and Grace Durlin.
