Dr. Stock is much pleased with the attitude of the musicians toward the grand chorus. Everywhere, he says, he finds the idea popular. The members of the different choirs are end. They furrowed into the earth and lived among the roots on the sap which they sucked from them for sixteen

Popular interest in the appearance of these insects which are seen only once in seventeen years, is revived by Professor Garman's statement, and the superstitions declare that their appearance at this time means the becinning or the ending of some big war.
On their transparent wings in red latters of fire is wrought the letter "W" which tradition says means war.
Hence the prophets say that a great European war will begin or the pres eut Russo-Japanese war will end this year, probably within two mouths. They point out that at the last appear-ance of the "Nightingale of the Nymphs," as the ancient Greeks call them, the United States was troubled with Indian uprisings and strikes. In 1827 the Modoc Indian uprising and the France-Prussian war were brought to a close. In 1855 the Orimeau war was brought to a close by the appear

They come up thousands in a single night and early in the ands in a single night and early in the morning are seen cutting their way through their shell, which is soft and whitish. Their tender bodies become hard as soon as the sun strikes their wings. They stay in the forests and orchards, where they pierce the twigs of the peach, plum, apple, pear and other nursery trees. The only way to prevent their ravages is to shake them off and keep the swarm in motion. The English sparrows eat them with avidity, but their attack on a swarn of such bugs is futile.

It will be necessary to be present on every occasion. Nothing short of this will suffice. Each one ing short of this will suffice. Each one should weigh the matter well and if they do not see their way clear to be present on every occasion, then out of justice to themselves and to the chorus they had better decline to enoll the mselves among the singers.

There will be but a trifle over three reeks left for drill, but this Dr. Stool hinks will be ample, employing couple of nights a week and entering apon the rehearsals with the proper spirit and enthusiasm.

Dr. Stock has ordered three pieces of music, the cost of which will be borne by the Fourth of July Committee. The three pieces, in addition to "America" and "Star Spangled Banner", with which everybody is supposed to be familiar, Dr. Stock thinks, ought to prove sufficient for the chorus.

FRANCE HAS VISIONS OF BIG WAR

PARIS, June 7.-In an interview day with the correspondent a high offi-cial made important revelations which show that the present crisis in inter-national politics is really more dang-erous to the peace of the world than has appeared.

The statement shows that in official circles its felt that France faces a crisis which threatens to plunge her into war, and which may involve the greater portion of Europe as well as the United States.

The Moroccan question, which ha brought affairs to a head, so to speak, is really unimportant in comparison with the other issues involved. In this statement the official said: "The trouble is not in the Morocca

BISHOP SHANAHAN'S VISIT TO RUME

The object of my visit to Rome was

The object of my visit to Rome was to make an official report of the state of the diocese.

Every bishop in the world is required to visit Rome, at least every ten years, and on that occasion to submit in writing a detailed account of the financial and religious condition of the parishes within his jurisdiction, and to pay his respects to the Pope, the head of the church. This practice dates back to the earliest ages of Christian-

ity.
The Congregation of the Propoganda, a standing committee composed of cardinals, with Cardinal Gotti as chair cardinais, with Cardinai cotts as chair-man, receives these reports and addits them. The intimate knowledge which this committee possesses of the geo-graphy, the religions, social and eco-nomic conditions of America, is truly marvelous. The bishop who visits

DANVILLE DEFEATS

The Bunker Hill team of Shamoki made its first appearance on the local diamond Saturday afternoon and was diamond Saturday afternoon and was defeated by the Danville A. A. by a score of 8 to 2. The weather was all that could be desired for base ball, and a large crowd was expected to turn out, but only a fair-sized audience witnessed the contest, which proved to be the genuine article of base ball from start to finish. Edgar and Mc-Cloud did the battery work for the home team and it was well done, as the score shows.

the score shows.

Only four safe hits were made off Only four safe hits were made off McCloud, who pitched a winning game throughout and did not allow the visitors a hit or run until the seventh inning when with two men out and two strikes on the batter, Octaleskie succeeded in landing one safe, which being followed by another hit and an error resulted in the scoring of the first run by the visitors. Two hits in the ninth resulted in another run for the visitors and the game ended with only two to their credit. only two to their credit.

Gosh opened for the home team wit a well placed single, which, combine with another hit, a stolen base, an an error or two by the visitors result ned for the home team with ed in three runs for the locals in the first inning, after which the hits and runs came slow, atthough the locals succeeded in scoring eight runs. Deen showed remarkable skill with the bat, securing two hits, and each time at bat drove the ball too far out field, giving the outfielders plenty to do.

The home players again proved their ability to furnish the real thing and play winning ball. The light attendance may have been due to the fact that the bridge is still closed to conveyances, as many former patrons were conspicuous by their absence. It is the intention of some of our liverymen to run hacks at five cent fare to the park on the opening of the new bridge. In former years it was claimed that five former years it was claimed that five one fares did not pay on account of delay in crossing the old bridge where teams were compelled to walk, but things are different now, and time lost elsewhere can be more than made up on the bridge. The management will continue to formish strong attractions and feel sure their efforts will be appreciated by the local lovers of the game. Below we give the score:
