THE RESOURCEFUL MOLE. **Bigler** Johnson He Gets Away With Ease When Yo Think You Have Him.

Think You Have Him. "Speaking of quick and resourceful animals, the mole leads easily so far as my experience goes," sand a man from the country, "and I dare say there are many men who have made observa-tions that will confirm my contention. As you probably know, the mole plows in the surface of the earth, generally making a small ridge anywhere from two to three inches high. He moves with remarkable rapidity even when two to three inches high. He moves with remarkable rapidity even when the ground in which he is burrowing is hard. When operating in soft ground he moves along at a surprising gait. But this is not the point I wanted to make. I was thinking of the remarka-bly good hearing of the mole and the ease with which he can get away just at the moment when you think you have him cornered. Of course now and then you can drive a splite through the mole before he is aware of it. If you do you will have to act as quickly as the same a..knal when the time comes to act.
