Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes. The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidneys.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though he had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail. Home of Swamp-Root, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

Don't make any mistake, but remember the name Swamp-Root. Dr. Kilmer's Swamp-Root, of the address, Binghamton, N. Y., on every bottle.

An Interesting Proposition.

In another column of this paper appears an advertisement directed to boys and girls who are ambitious to make their spare moments productive through clean, pleasant and remunerative enterprise. Adams' Magazine is a 32-page illustrated monthly magazine devoted to the home. It contains departments on fashions, embroidery, household hints, table dainties, flowers and plants, garden and farm. Beginning in the July number will be a serial story by one of the most noted and famous writers of romantic fiction in the world. The subscription price of the magazine is 10 cents a year, half of which is offered to the boys and girls who become subscribers. The publishers have set aside \$65,000 in order to introduce the magazine in every locality in the United States, and it is by virtue of this appropriation that this liberal offer is made to young America.

To Paint Rural Letter Boxes Green

Postmaster General Cortelyou has authorized the painting of the 83,000 rural letter boxes in the country by the carriers. The boxes will be painted a resplendent green, the paint to be furnished by the department.

Almost a Tragedy.

The woman entered the car and sank meaning into the seat. Her face was haggard and her escort regarded her with deep anxiety.

Suddenly she extracted a tiny vial from her handbag, pulled a piece of cotton out of the mouth of the bottle and was putting it to her lips when a young man opposite sprang to his feet and dashed it from her hand.

"Good gracious, madam!" he exclaimed hoarsely. "Just in time!"

The woman's escort sprang up thereby, and the two men gripped.

"Confound you!" roared the lady's companion. "Can't my wife use her toothache medicine without having her green, slopdy klot imitating us as trying to commit suicide?"

The woman would be rescued apologized and departed from the car, feeling kind toward the famous worm which has been trod upon.

Weatherwise River Men.

River men who have followed the Potomac from youth to old age are full of wise weather sayings that come as near being correct as do the predictions of the more scientific observers. An old river man who as master on sailing vessel and steamer has traveled to and fro on the Potomac for the past fifty years said that he had often noticed that as the weather is on the first three days of December in each year so will the weather be in the three months toward winter—that is, as the 1st of December is so will December be; January will be like the 2d and February like the 3d. Another saying is as the weather is on the Thursday is of yellow fever in the North, because we do not have the kind of mosquito to carry it.

Our Country... CORRESPONDENCE

Written expressly for THE INTELLIGENCER
By our Rural Friends.

Strawberry Ridge.

Mr. Editor:—
I came home last evening from my work and saw the Intelligencer lying on my desk, and after reading over its columns, I learned in Jeremiah Grimes' letter that he is honestly and truly a Democrat first, last and all the time. I threw up my hat. Mrs. Offaba said: John Offaba, what's the matter with you? Why, I said, Jeremiah Grimes is a Democrat. And I might have known that for he writes his letters for the oldest and best Democratic paper in this section of the State. Jerry says he is going to hitch up the old sorrel mare and come up to Strawberry Ridge and visit me. Hope you will, Jerry. Don't put it off for long, for the roasts won't seem so ripe and the taters are good already.

On Wednesday, while Miss Katie Butler, daughter of the late Associate Judge Butler, was drawing water from the well at her homestead, in Washingtonville, the board upon which she was standing gave way, precipitating the young lady into the opening of the well, when she threw her arms out and held herself sixteen feet from the bottom of the abyss, where she hung suspended until Wesley and Watson Diehl rescued her from a truly most perilous situation.

Mr. Adam Smith passed through our town last week.

J. J. Deihl and family and Geo. Reeder and family drove to Milton last Friday and took in the sights as well as the show at that place.

A party was held at Charles Beaver's, and a good time was reported.

The Strawberry Ridge Sunday school will hold its picnic in John Deihl's grove. The Emanuel charge will also meet with us. Hope they won't forget their band, as we were delighted with them last year.

The farmers in this vicinity have thrashed their wheat, and say that no better wheat can be grown anywhere with such results as around and about the Ridge.

Schuyler Happenings.

Mr. Editor:—We are enjoying very pleasant summer weather. It is cool and the rains have kept vegetation on the go right along. Farmers are all busy cutting oats, hauling manure and plowing. A good bit of oats is yet standing. The crop did not ripen very well on account of blight or rust.

Mrs. Emma Schmale died at Pottsville last week, and her body was brought to Turbotville for interment. She was born and raised here. Rev. T. O. Stem officiated at the funeral and preached a very appropriate sermon from John 4:11, a text chosen by her before death. She leaves a husband, two daughters, a brother and sister.

Misses Flora and Eva Schuyler are visiting relative in Williamsport.

Mr. and Mrs. John M. Smith visited the latter's mother, Mrs. B. Hitesman, at Muncy, on Sunday.

Mr. Ed. Stahlnecker and family, of Williamsport; Daniel Moser and family, of Watsonville, and Miss Bert Stahlnecker, of Williamsport, visited at Benj. Stahlnecker's on Sunday.

Mrs. L. F. Robenolt was under the care of the doctor a few days last week, but is now able to be about again.

Mr. B. F. Stahlnecker had a hemorrhage of the stomach last week that nearly proved fatal. He is much better again.

FRICITION WILL PREVENT CASES

WASHINGTON, Aug. 2.—The fact is quite evident that there is friction between the department of justice and the agricultural department because of the manner in which the investigation of the scandals has been carried on in the latter.

The department of justice officials are miffed, it seems, because the agricultural department indulged itself in a pronounced flare of trumpets that succeeded in frightening away those whose presence here is absolutely indispensable to a successful prosecution of the charges.

Then, having tied things up in a knot, it deftly shifted the matter and responsibility for same to the department of justice by demanding criminal prosecutions. At least that is the department of justice view of the situation.

Assistant Attorney General McReynolds to whom the case of George T. Moore has been referred, is not at all hopeful that a prosecution will lie, or that anything more will come of the matter. Nor do his associates promise themselves any more startling results from the grand jury investigation pending in the matter of E. S. Holmes.

Attorney General Moody is expected in the city tomorrow, and it is believed to be his mission to endeavor to establish a more harmonious relationship between the two departments.

Although it is likely that one, or possibly two indictments may be returned against Holmes unless further evidence can be adduced that shows the grand jury has been able to do, there is serious doubt that Holmes could be convicted in trial.

It is understood that thus far the only direct testimony against Holmes secured by the grand jury is for broker Van Ripper, of New York.

Realigning the growth of evil and corruption, the W. C. T. U. of West Berwick has requested that the pastors preach on the subject of Social Parity, Sunday evening, August 6th.

BENNINGTON BOILER WAS Old And Rotten

SAN FRANCISCO, Aug. 2.—A special to the "Call" from San Diego says: "From an official source the reliability of which cannot be questioned because of its connection with the court itself, it has just become known what in substance will be the report of the court of inquiry now investigating the Bennington disaster.

"It may be stated authoritatively that the court will find that boiler B of the Bennington exploded, not because of unusually high pressure, but because the metal of the crown-sheet and the bolts holding that crown-sheet in place had become 'dead,' had lost all life, and nearly all tensile strength, by reason of constant use and the failure to renew the weakened plate during the twenty years that the ill-fated Bennington was in service.

"The court will not concern the officers of the Bennington, but will pass up the matter, and the responsibility, to higher authority."

Stationery for Farmers.

Farmers and others, particularly those living on the Rural Delivery routes, should have printed stationery as well as business men. It is not only more business-like to send a letter with name and address printed on the notehead and envelope, but it insures the return of the letter in case it is not delivered. We are especially well equipped to do this class of printing and can do it promptly and neatly. We will supply 250 note-heads and 250 envelopes, extra quality, for \$1.50, or 75c for either one lot. This is cheaper than you can buy the paper and envelopes regularly at retail stores.

Cotton Goods Advancing.

Higher Prices Will Rule This Fall.

It is not a scare nor a false alarm but an actual present existing fact that all cottons are up in price. For instance even now we must pay 1/2 to one cent per yard more for muslins and ginghams and as much as two cents per yard more for sheetings. Looks as though the advance would be a permanent one too, owing to the immense demand made on our mills by foreign countries which has ever promised of being a strong, steady trade for American cotton, and demand and supply regulates prices always.

OUR ADVICE

—Buy ahead on all cotton goods now. Buy all you can reasonably afford for future needs while old prices prevail, for when our present stocks are exhausted, up goes the price because we will have to pay more.

Calicoes, Muslins, Ginghams, Sheetings, Shirtings, Wash Dress Goods, Curtain Materials, Hosiery, Underwear still at old prices, though in some of these we have paid an advance already.

Calicoes, both dark and light, 3/4c, worth 5 and 6c.
Summer Dress Goods in Lawns, Batistes, Organdies, etc.—5c qualities at 3 1/2c, 10c qualities at 5 1/2c, 15 and 25c qualities at 12 1/2c.

NEW ORLEANS FEVER OUTBREAK IS WORSE

NEW ORLEANS, Aug. 2.—With a large increase in the number of new cases during the past week, the fever situation was not as favorable today as it has been, though the health authorities believe the extinguishment of the serious infection to the quarter below Canal street is an encouraging sign. President Suenchen was of the opinion that the intense heat, followed by a severe rain and thunder storm, bringing cooler temperatures, was to an extent responsible for the increase in cases.

However, in spite of the most rigid inspection that has been in effect for a week past concealed caves among the Italians are here and there cropping out, and the authorities in consequence are appealing to the Italian organizations to redouble their efforts to convince their countrymen that it is to their interest and the interest of the whole city that there shall be immediate report of all suspicious cases.

The appearance of two or three cases yesterday among persons whose business does not carry them into the infected districts down town has given an impression that the disease is possibly being carried out of the zone of infection through the medium of street cars. Two or three of the city lines cross Canal street, running from the lower end of the city to the upper. They come and go through the zone of infection, but have heretofore been so severe, and not improbably are picking up insects and transporting them to other sections.

It has been suggested that the authorities take action to prevent all street cars from crossing Canal street.

A very severe rain and thunder storm prevailed during the night. Rain fell in sheets and the whole city was thoroughly flooded. At the same time the downpour had an ill effect in that it caused the washing away of oil from many miles of gutters and through overflows caused hundreds of cisterns to discharge the oil which had been put into them.

In consequence the ward organizations today began again filling gutters, cisterns and ponds which had previously been treated.

Another phase of the controversy between the States of Louisiana and Mississippi has developed in the filing of writs of ejectment and injunction against the Mississippi militia in the federal courts. The suit was brought by Albert Baldwin, banker and capitalist of this city. Mr. Baldwin seeks to enjoin the Mississippi soldiers from taking possession of his fishing and hunting lodge on Pearl river.

It seems that permission was asked to occupy the place for the militia on guard duty on the border, and it was refused. It was threatened to break open the place if permission was not granted. Yesterday they broke into the lodge, and Mr. Baldwin decided to bring suit.

Federal marshals will probably be sent to the scene. Commander A. B. Booth, of the United Confederate Veterans of Louisiana, said today that quarantines had grown so tight with the fever prevailing here and other parts of Louisiana that it would be practically an impossibility for more than a handful of veterans to reach Lafayette for the annual State reunion scheduled to be held there this month. General Booth expects to be compelled to announce a postponement of the reunion.
