DANVILLE WINS

Danville A. A. with McCloud in the form, and the balance of the team Sisying errorless ball, succeeded in winning the third game of the championship series from Bloomsburg at BeWitt's Park Friday afternoon.

Lovers of the game who failed to see yesterday's contest missed a fine exhi-

and that the game is not bet ing git edge ball cannot be accounted for. McCloud held the visitors down to two hits for eight innings, but eased up at that time on account of a severe bruise on the leg from being hit by a ball. In the ninth inning the game were the second base play of Price, the first base play of Shaunon, and the remarkable stops made by Ross at third. Coutts led the hitting with at third. Couts led the hitting with three hits to his credit while Gosh, Ross and Hummer secured two each. The management had intended to pitch Coutts, but on account of his haid work in a game on Thorsday, it was not deemed advisable to allow him to

The local school board has shown its determination of living up to the very letter of the law by the manner in which it disposed of an exceptional case that occurred in the Fourth Ward last May. One of the pupils, recently admitted, was found not to have been vaccinated. The attention of the puradmitted, was found not to have been school District where said children secide guaranteeing the expense of tuition and then only provided there is room in the high school.

That owing to poor state of health vaccination is sometimes inadvisable there is no doubt. Such cases are frequently adduced as instances in which school vaccination law does no apply. If the action of the Danville School Board, however, is to be taken as a precedent there are no exceptions and others is to live up to the letter in all the provisions of the law, or to run the risk of paying a penalty

paper will be read with no little in-terest by Danville people:

"By rolling 763 tons of finished ma-terial in 24 hours beginning at 6 a. m. Friday and ending at 6 a. m. Saturday employes of the angle mill of the Car negie north works established a new world's record and are jubilant ove their wonderful achievement and par-donably proud of their remarkable at tainment. The new record was made ander the personal supervision of Supt A. A. Corey, a brother of W. E. Corey president of the United States Stee 428 tons having been the largest out-put before that time.

In making the new record, 6x6 by % angles were rolled. The actual runangies were rolled. The actual ran-ning time consumed in rolling in the 24 hours was just 14 hours, the ten hours lost having been required for the heating of cold metal and in getting the limited yard in shape for handling the enormous output. Com-paratively small open hearth output and yard facilities for restoring the the operation of the angle mill so that the enormous tonnage produced during the last 24 hours is made all the more remarkable. Pursuant to action of Council at its last meeting Secretary Patton wrote to Judge Koch of Pottsville making inquiries as to the attitude of the Dan ville & Bloomsburg Electric Railway Company toward certain repairs on A street required in order to protect properties abutting. Yesterday a reply was received from Judge Koch, which leaves no doubt as to the trolley com pany's good intentions and that every-thing in a short time will be fixed up to the satisfaction of all.

Judge Koch labored under a misap-

prehension as to the regular meeting time of Council and had made arrangements to come to Danville next Friday and meet our Borough Fathers. Learn-ing from Mr. Patton's letter that Council met on last Friday night he of course saw that the trip would be useless. He therefore wrote for in-

When I get to Danville again I shall give this matter special attention, as we are very anxious to finish all incomplete work.
